The first part of the journal  
 describes the general  
 appearance of the  
 country and the  
 nature of the soil.  
 The second part  
 contains a list of  
 the plants and  
 animals which  
 were seen during  
 the expedition.  
 The third part  
 contains a list of  
 the names of the  
 people who were  
 met and a  
 description of  
 their habits and  
 customs.  
 The fourth part  
 contains a list of  
 the names of the  
 places which were  
 visited and a  
 description of  
 their situation  
 and the nature  
 of the soil.  
 The fifth part  
 contains a list of  
 the names of the  
 mountains and  
 hills which were  
 seen and a  
 description of  
 their situation  
 and the nature  
 of the soil.  
 The sixth part  
 contains a list of  
 the names of the  
 rivers and  
 streams which  
 were seen and  
 a description of  
 their situation  
 and the nature  
 of the soil.  
 The seventh part  
 contains a list of  
 the names of the  
 lakes and  
 ponds which  
 were seen and  
 a description of  
 their situation  
 and the nature  
 of the soil.  
 The eighth part  
 contains a list of  
 the names of the  
 mountains and  
 hills which were  
 seen and a  
 description of  
 their situation  
 and the nature  
 of the soil.  
 The ninth part  
 contains a list of  
 the names of the  
 rivers and  
 streams which  
 were seen and  
 a description of  
 their situation  
 and the nature  
 of the soil.  
 The tenth part  
 contains a list of  
 the names of the  
 lakes and  
 ponds which  
 were seen and  
 a description of  
 their situation  
 and the nature  
 of the soil.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be clearly documented and supported by appropriate evidence. This includes receipts, invoices, and other relevant documents that can be used to verify the accuracy of the records.

In addition, the document highlights the need for regular audits and reviews. By conducting periodic checks, any discrepancies or errors can be identified and corrected promptly. This helps to ensure the integrity and reliability of the financial data being recorded.

Furthermore, the document stresses the importance of transparency and accountability. All transactions should be clearly labeled and categorized, making it easy for anyone reviewing the records to understand the nature and purpose of each entry. This level of transparency is essential for building trust and confidence in the financial reporting process.

Finally, the document concludes by reiterating the significance of diligent record-keeping. It serves as a foundation for sound financial management and decision-making. By following these guidelines, individuals and organizations can ensure that their financial records are accurate, complete, and reliable.

The first part of the journal describes the early days of the settlement, the difficulties of the first winter, and the arrival of the first crops. It then goes on to describe the growth of the settlement, the establishment of a school, and the various improvements made to the town. The journal concludes with a description of the state of the settlement at the end of the year.

The first part of the journal describes the initial observations and the general conditions of the study. It includes a detailed account of the weather, the time of day, and the location of the observations. The author notes that the observations were made on a clear day with a light breeze from the west. The temperature was in the mid-70s, and the humidity was moderate. The location was a quiet, rural area with a few scattered trees and a small stream in the background.

The second part of the journal details the specific observations and the data collected. The author describes the behavior of the subjects being observed, noting their movements and interactions. The data collected includes the time of each observation, the duration of each observation, and the results of each observation. The author notes that the subjects were observed for a total of 10 hours over the course of the study. The results of the observations are summarized in a table at the end of the journal.

The third part of the journal discusses the implications of the observations and the data collected. The author notes that the observations suggest that the subjects are highly sensitive to their environment and that they exhibit a wide range of behaviors. The author also notes that the data collected is consistent with the hypothesis that the subjects are highly sensitive to their environment. The author concludes that the observations and data collected provide a valuable insight into the behavior of the subjects and the implications of the study.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all financial data is properly documented and accessible. This will help in the preparation of financial statements and provide a clear picture of the company's financial health.

The second part of the document outlines the various methods used to collect and analyze data. It includes a detailed description of the data collection process, from identifying the sources of data to the actual collection and storage of the data. The analysis of the data is then discussed, including the various statistical techniques used to interpret the results and draw conclusions.

The third part of the document provides a comprehensive overview of the company's financial performance over the past year. It includes a detailed breakdown of the company's revenue, expenses, and profit, as well as a comparison of the company's performance to industry benchmarks. This information is crucial for the company's management and investors to understand the company's financial position and make informed decisions.

The fourth part of the document discusses the company's future financial outlook and the various strategies being implemented to improve its financial performance. It includes a detailed analysis of the company's market position and the various opportunities and challenges it faces. The company's management is confident that the strategies being implemented will lead to a significant improvement in the company's financial performance over the next year.

The first part of the book is devoted to a general history of the United States from its discovery to the present time. It is divided into three volumes, the first of which contains the history of the discovery and settlement of the continent, the second the history of the colonies, and the third the history of the United States from its independence to the present time.

The second part of the book is devoted to a general history of the world from its creation to the present time. It is divided into three volumes, the first of which contains the history of the world from its creation to the time of the birth of Christ, the second the history of the world from the birth of Christ to the present time, and the third the history of the world from the present time to the end of the world.

The third part of the book is devoted to a general history of the various nations and peoples of the world. It is divided into three volumes, the first of which contains the history of the various nations and peoples of the world from their origin to the present time, the second the history of the various nations and peoples of the world from the present time to the end of the world, and the third the history of the various nations and peoples of the world from the end of the world to the present time.

The fourth part of the book is devoted to a general history of the various sciences and arts of the world. It is divided into three volumes, the first of which contains the history of the various sciences and arts of the world from their origin to the present time, the second the history of the various sciences and arts of the world from the present time to the end of the world, and the third the history of the various sciences and arts of the world from the end of the world to the present time.

The fifth part of the book is devoted to a general history of the various religions of the world. It is divided into three volumes, the first of which contains the history of the various religions of the world from their origin to the present time, the second the history of the various religions of the world from the present time to the end of the world, and the third the history of the various religions of the world from the end of the world to the present time.

The sixth part of the book is devoted to a general history of the various governments of the world. It is divided into three volumes, the first of which contains the history of the various governments of the world from their origin to the present time, the second the history of the various governments of the world from the present time to the end of the world, and the third the history of the various governments of the world from the end of the world to the present time.

The first part of the book is devoted to a general history of the United States, from the discovery of the continent to the present time. The author discusses the early explorations, the settlement of the colonies, the struggle for independence, and the formation of the federal government. He also touches upon the various wars and conflicts that have shaped the nation's history.

The second part of the book is a detailed account of the political and social changes that have taken place in the United States since the Civil War. The author examines the rise of the industrial revolution, the growth of the middle class, and the emergence of the modern political system. He also discusses the various social movements and reforms that have shaped the nation's identity.

The third part of the book is a critical analysis of the current state of the United States. The author discusses the challenges that the nation faces in the twenty-first century, such as globalization, terrorism, and environmental degradation. He also offers his own perspective on the future of the United States and the role of the citizenry.

The first part of the book is devoted to a general  
 description of the country and its resources.  
 It is followed by a detailed account of the  
 various tribes and their customs.  
 The author then discusses the  
 history of the region and the  
 progress of civilization.  
 The book concludes with a  
 list of the principal towns and  
 a map of the country.

Ballard & Holmes,	"	McClelan P. L.,	Mount Vernon,
Crandall Hiram,	"	"	Eastchester,
Hunter S. R.	"	Pomberton William H.	"

The first part of the report is devoted to a general  
 description of the country and its resources. It  
 is followed by a detailed account of the  
 various industries and occupations of the  
 people. The report concludes with a summary  
 of the principal facts and a list of the  
 names of the persons who have been  
 employed in the service of the  
 government.

The first part of the document discusses the general principles of the law of contracts, and the second part discusses the law of torts. The first part is divided into two sections: the first section discusses the formation of a contract, and the second section discusses the performance of a contract. The second part is divided into two sections: the first section discusses the law of negligence, and the second section discusses the law of strict liability.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It is essential to ensure that every entry is properly documented and verified. This process helps in identifying any discrepancies or errors early on, which can be corrected before they become a problem. The second part of the document outlines the various methods used to collect and analyze data. These methods include direct observation, interviews, and the use of specialized equipment. Each method has its own strengths and weaknesses, and it is important to choose the most appropriate one for the specific situation. The third part of the document describes the results of the data collection and analysis. It shows that there is a significant correlation between the variables being studied, which supports the hypothesis. The final part of the document provides a conclusion and some recommendations for future research. It suggests that further studies should be conducted to explore the relationship between the variables in more detail.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author outlines the various methods used to collect and analyze the data. This includes both manual and automated techniques. The goal is to ensure that the information gathered is both reliable and comprehensive.

The third part of the document provides a detailed breakdown of the results. It shows how the data was processed and what insights were gained from the analysis. This section is crucial for understanding the overall findings and their implications.

Finally, the document concludes with a summary of the key points and a list of references. This provides a clear overview of the work and allows readers to explore the sources used in the research.

The first part of the book discusses the history of the field and the various approaches that have been used to study it. It also covers the basic concepts and terminology that are used throughout the book.

The second part of the book is devoted to the study of the various types of systems that can be analyzed using the methods described in the book. This includes both linear and nonlinear systems, as well as systems with time-varying parameters.

The third part of the book deals with the application of the methods described in the book to the analysis of real-world systems. This includes the analysis of electrical circuits, mechanical systems, and control systems.

The fourth part of the book is devoted to the study of the stability of systems. This includes the study of both linear and nonlinear systems, as well as systems with time-varying parameters.

The fifth part of the book deals with the design of control systems. This includes the design of both linear and nonlinear control systems, as well as systems with time-varying parameters.

The sixth part of the book is devoted to the study of the frequency response of systems. This includes the study of both linear and nonlinear systems, as well as systems with time-varying parameters.

The seventh part of the book deals with the study of the transient response of systems. This includes the study of both linear and nonlinear systems, as well as systems with time-varying parameters.

The eighth part of the book is devoted to the study of the steady-state response of systems. This includes the study of both linear and nonlinear systems, as well as systems with time-varying parameters.

The ninth part of the book deals with the study of the robustness of systems. This includes the study of both linear and nonlinear systems, as well as systems with time-varying parameters.

The tenth part of the book is devoted to the study of the optimization of systems. This includes the study of both linear and nonlinear systems, as well as systems with time-varying parameters.

1870  
The first of the year was a very  
dry one, and the crops were  
very poor. The weather was  
very hot, and the ground was  
very dry. The crops were  
very poor, and the weather  
was very hot. The ground  
was very dry, and the crops  
were very poor. The weather  
was very hot, and the ground  
was very dry. The crops  
were very poor, and the  
weather was very hot. The  
ground was very dry, and  
the crops were very poor.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise record of all financial activities, including sales, purchases, and expenses. This information is used to generate financial statements and to provide a basis for tax reporting. The second part of the document describes the various methods used to collect and analyze data. These methods include interviews, surveys, and focus groups. Each method has its own strengths and weaknesses, and the choice of method depends on the specific needs of the study. The third part of the document discusses the importance of data analysis. It is essential to have a clear understanding of the data and to be able to identify trends and patterns. This information is used to make decisions about the future of the company. The fourth part of the document discusses the importance of communication. It is essential to have a clear and concise communication plan that outlines the roles and responsibilities of all stakeholders. This information is used to ensure that everyone is on the same page and that the company is able to achieve its goals.

Creech, Hartland	

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice to ensure transparency and accountability.

2. The second part outlines the procedures for handling discrepancies between the recorded amounts and the actual cash flow. It suggests a systematic approach to identify the source of the error and correct it promptly to avoid any financial misstatements.

3. The third part details the requirements for the physical storage of financial documents. It states that all records must be kept in a secure, fire-resistant location and should be organized chronologically for easy access and audit.

4. The fourth part addresses the periodic review and reconciliation of accounts. It recommends a monthly reconciliation process to compare the internal records with the bank statements and identify any variances.

5. The fifth part discusses the role of technology in financial record-keeping. It highlights the benefits of using accounting software to automate data entry, reduce human error, and provide real-time insights into the company's financial health.

6. The sixth part covers the legal and regulatory aspects of financial record-keeping. It notes that companies must comply with local tax laws and international reporting standards, such as IFRS or GAAP, to avoid penalties and legal issues.

7. The seventh part provides guidance on the retention period for financial records. It advises that records should be kept for a minimum of seven years, as required by most tax authorities, to facilitate audits and legal proceedings.

8. The eighth part concludes by emphasizing the overall importance of financial record-keeping for the success of any business. It states that accurate records are essential for informed decision-making, strategic planning, and maintaining a good credit rating.

The following table shows the population of the United States from 1776 to 1863. The population increased from approximately 3 million in 1776 to over 30 million in 1863. The growth was rapid, especially in the decades leading up to 1863.

Year	Population (Estimated)
1776	3,000,000
1780	3,500,000
1790	4,000,000
1800	5,000,000
1810	7,000,000
1820	10,000,000
1830	15,000,000
1840	20,000,000
1850	25,000,000
1860	30,000,000
1863	32,000,000

The population growth was driven by several factors, including immigration from Europe and the United Kingdom, and a high birth rate. The population was concentrated in the eastern and central parts of the country, with the western frontier still largely unpopulated. The growth of the population led to increased demand for land and resources, which in turn led to westward expansion and the discovery of gold in California in 1848.

The first part of the book is devoted to a general history of the world, from the beginning of time to the present day. The author discusses the various races of men, their physical characteristics, and their social and political organizations. He also touches upon the progress of science and the arts, and the influence of religion and philosophy upon human civilization.

The second part of the book is a detailed account of the history of the United States, from the first discovery of the continent to the present day. The author describes the struggles of the early settlers, the growth of the colonies, the American Revolution, and the formation of the new nation. He also discusses the various wars and conflicts that have shaped the country, and the progress of its industry and commerce.

The third part of the book is a history of the world from the year 1800 to the present day. The author discusses the various revolutions and wars that have taken place, and the progress of science and the arts. He also touches upon the influence of religion and philosophy upon human civilization.

1875  
The first of the year was a very dry one  
and the crops were much injured  
by the drought. The wheat was  
very poor and the corn was  
also much injured. The  
cattle and sheep were  
also much injured by the  
drought. The people were  
very poor and many  
died of starvation. The  
government was very  
kind and gave them  
money to buy food.  
The people were very  
thankful for the help.  
The drought was very  
severe and the people  
were very poor. The  
government was very  
kind and gave them  
money to buy food.  
The people were very  
thankful for the help.

Ackor John,	Macedon	Wilhelm John A.	Mott Haven,

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice to ensure transparency and accountability.

2. The second part outlines the procedures for handling discrepancies between the recorded amounts and the actual cash flow. It suggests a systematic approach to identify the source of the error and correct it promptly to avoid any financial misstatements.

3. The third part provides a detailed breakdown of the monthly financial statements, including the income statement, balance sheet, and cash flow statement. Each statement is accompanied by a brief explanation of the key figures and trends observed during the period.

4. The final part of the document offers recommendations for improving the efficiency of the accounting process. It suggests implementing automated software solutions to reduce manual errors and streamline the reporting cycle.

The first part of the paper discusses the general principles of the theory of the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics. The second part of the paper discusses the application of these principles to the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics. The third part of the paper discusses the application of these principles to the structure of the atom. It is shown that the structure of the atom is determined by the laws of quantum mechanics.

1. The first part of the report deals with the general situation of the country and the progress of the work during the year. It is divided into two main sections: the first section deals with the general situation and the second section deals with the progress of the work.

2. The second part of the report deals with the results of the work during the year. It is divided into two main sections: the first section deals with the results of the work in the field of research and the second section deals with the results of the work in the field of education.

3. The third part of the report deals with the financial situation of the institution during the year. It is divided into two main sections: the first section deals with the income and the second section deals with the expenditure.

4. The fourth part of the report deals with the personnel of the institution during the year. It is divided into two main sections: the first section deals with the faculty and the second section deals with the staff.

5. The fifth part of the report deals with the library of the institution during the year. It is divided into two main sections: the first section deals with the acquisition of books and the second section deals with the use of the library.

6. The sixth part of the report deals with the physical plant of the institution during the year. It is divided into two main sections: the first section deals with the maintenance of the buildings and the second section deals with the improvement of the grounds.

7. The seventh part of the report deals with the general administration of the institution during the year. It is divided into two main sections: the first section deals with the general administration and the second section deals with the special administration.

The history of the empire of Great Britain, from the first settlement of the British in the island of Great Britain, to the present time. The first part of the history is divided into three periods, the first of which is the period of the British monarchy, the second is the period of the British republic, and the third is the period of the British empire. The second part of the history is divided into three periods, the first of which is the period of the British monarchy, the second is the period of the British republic, and the third is the period of the British empire. The third part of the history is divided into three periods, the first of which is the period of the British monarchy, the second is the period of the British republic, and the third is the period of the British empire.

The following information is provided for your reference:

1. The first section discusses the importance of maintaining accurate records.

2. The second section outlines the procedures for handling confidential information.

3. The third section details the requirements for data security.

4. The fourth section describes the process for reporting incidents.

5. The fifth section covers the necessary steps for compliance with regulations.

6. The sixth section provides information on the roles and responsibilities of staff.

7. The seventh section discusses the importance of ongoing training and development.

8. The eighth section outlines the process for reviewing and updating policies.

9. The ninth section details the requirements for external audits.

10. The tenth section covers the necessary steps for ensuring transparency.

11. The eleventh section discusses the importance of stakeholder engagement.

12. The twelfth section outlines the process for managing risks.

13. The thirteenth section details the requirements for data privacy.

14. The fourteenth section describes the process for handling complaints.

15. The fifteenth section covers the necessary steps for ensuring accountability.

16. The sixteenth section discusses the importance of continuous improvement.

17. The seventeenth section outlines the process for monitoring performance.

18. The eighteenth section details the requirements for ethical conduct.

19. The nineteenth section describes the process for managing resources.

20. The twentieth section covers the necessary steps for ensuring sustainability.

The first part of the day was spent in the  
 laboratory, where I conducted several  
 experiments on the effect of temperature  
 on the rate of reaction. The results  
 showed that the rate of reaction  
 increased with increasing temperature.  
 This is in accordance with the  
 Arrhenius equation, which states that  
 the rate constant of a reaction is  
 proportional to the exponential of the  
 negative of the activation energy divided  
 by the product of the gas constant and  
 the absolute temperature.

In the afternoon, I attended a  
 lecture on the kinetics of chemical  
 reactions, given by Professor  
 Smith. He discussed the various  
 factors that affect the rate of  
 reaction, such as concentration,  
 temperature, and the presence of  
 catalysts. He also discussed the  
 concept of the transition state and  
 the energy profile of a reaction.

The day ended with a review of  
 the material covered in the lecture  
 and a discussion of the results of  
 my experiments. I found that the  
 rate of reaction increased with  
 increasing temperature, as expected.  
 The activation energy of the reaction  
 was determined to be approximately  
 50 kJ/mol.

The first part of the day was spent in the  
 field, where we collected several  
 specimens of the new species.  
 The weather was very fine and  
 the work was done with great  
 success. We returned to the  
 camp at dusk and had a  
 very pleasant dinner. The  
 night was very quiet and  
 we all slept well.

The first part of the report deals with the general situation of the country and the progress of the work during the year. It is followed by a detailed account of the various expeditions and the results obtained. The report concludes with a summary of the work done and the prospects for the future.

The first expedition was led by Mr. A. B. C. and was successful in obtaining a large amount of material. The second expedition, led by Mr. D. E. F., was also successful and resulted in the discovery of several new species. The third expedition, led by Mr. G. H. I., was less successful and resulted in the discovery of only a few new species.

The results of the work done during the year are as follows:

Species	Number
Species A	10
Species B	20
Species C	30
Species D	40
Species E	50
Species F	60
Species G	70
Species H	80
Species I	90
Species J	100

The work done during the year has been very successful and has resulted in the discovery of many new species. It is hoped that the work done during the next year will be equally successful.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It is essential for the company to have a clear and concise system in place to ensure that all data is properly recorded and easily accessible. This will help in the identification of trends and anomalies in the data, which can be used to make informed decisions about the company's future.

The second part of the document outlines the various methods used to collect and analyze data. These methods include surveys, interviews, and focus groups. Each method has its own strengths and weaknesses, and it is important to choose the right one for the specific needs of the project. Additionally, the document discusses the importance of data security and privacy, and provides guidelines for how to handle sensitive information.

The final part of the document provides a summary of the key findings and conclusions. It highlights the most significant results of the study and discusses their implications for the company. The document also includes a list of references and a glossary of terms.

The first part of the report deals with the general situation of the country and the progress of the war. It is followed by a detailed account of the operations of the army and the navy. The report concludes with a summary of the achievements of the year and a forecast for the future.

The operations of the army have been marked by a series of successes, particularly in the West. The capture of the Ypres salient and the breakthrough at Arras are among the most notable achievements. The navy has also made significant contributions to the war effort, particularly in the North Sea and the Mediterranean.

The progress of the war has been uneven, with periods of intense fighting followed by periods of relative calm. However, the overall trend is one of progress for the Allies. The capture of the Ypres salient and the breakthrough at Arras are among the most notable achievements.

The report concludes with a summary of the achievements of the year and a forecast for the future. It is believed that the Allies are now in a position to bring the war to a successful conclusion.

 Richter Gustavus, 66 Fulton, " "

The first step in the organization of a business is the selection of a legal form of organization. The most common forms are sole proprietorship, partnership, and corporation. Each has its own characteristics and advantages. The sole proprietorship is the simplest and least expensive to form, but it has the disadvantage of unlimited liability. The partnership is a more complex arrangement, but it allows for the pooling of resources and expertise. The corporation is the most complex and expensive to form, but it offers the advantage of limited liability and the ability to raise large amounts of capital.

The second step is the selection of a name for the business. The name should be distinctive and easy to remember. It should also be available for registration in the state where the business will operate. The name should reflect the nature of the business and be suitable for future expansion.

The third step is the selection of a location for the business. The location should be convenient for customers and employees. It should also be suitable for the type of business being operated. The location should be available for lease or purchase at a reasonable price.

The fourth step is the selection of a manager for the business. The manager should have the necessary skills and experience to run the business. The manager should also be able to motivate and lead the employees. The manager should be able to make decisions and solve problems.

The fifth step is the selection of employees for the business. The employees should have the necessary skills and experience to perform the job. The employees should also be able to work with the manager and other employees. The employees should be able to handle the pressure and stress of the business.

The sixth step is the selection of a legal form of organization. The legal form of organization should be chosen based on the characteristics and advantages of each form. The legal form of organization should be registered in the state where the business will operate.

The seventh step is the selection of a name for the business. The name should be distinctive and easy to remember. It should also be available for registration in the state where the business will operate. The name should reflect the nature of the business and be suitable for future expansion.

The eighth step is the selection of a location for the business. The location should be convenient for customers and employees. It should also be suitable for the type of business being operated. The location should be available for lease or purchase at a reasonable price.

The ninth step is the selection of a manager for the business. The manager should have the necessary skills and experience to run the business. The manager should also be able to motivate and lead the employees. The manager should be able to make decisions and solve problems.

The tenth step is the selection of employees for the business. The employees should have the necessary skills and experience to perform the job. The employees should also be able to work with the manager and other employees. The employees should be able to handle the pressure and stress of the business.

The legal form of organization is a crucial decision that affects the liability of the owners and the ability to raise capital. The sole proprietorship is the simplest and least expensive to form, but it has the disadvantage of unlimited liability. The partnership is a more complex arrangement, but it allows for the pooling of resources and expertise. The corporation is the most complex and expensive to form, but it offers the advantage of limited liability and the ability to raise large amounts of capital.

The name of the business is another important decision. The name should be distinctive and easy to remember. It should also be available for registration in the state where the business will operate. The name should reflect the nature of the business and be suitable for future expansion.

The location of the business is also a crucial decision. The location should be convenient for customers and employees. It should also be suitable for the type of business being operated. The location should be available for lease or purchase at a reasonable price.

The selection of a manager is another important decision. The manager should have the necessary skills and experience to run the business. The manager should also be able to motivate and lead the employees. The manager should be able to make decisions and solve problems.

The selection of employees is another important decision. The employees should have the necessary skills and experience to perform the job. The employees should also be able to work with the manager and other employees. The employees should be able to handle the pressure and stress of the business.

The legal form of organization, the name of the business, the location of the business, the selection of a manager, and the selection of employees are all crucial decisions that affect the success of the business. These decisions should be made carefully and with the help of a professional advisor.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It is essential to ensure that every entry is properly documented and verified. This process helps in identifying any discrepancies or errors early on, preventing them from escalating into larger issues. Regular audits and reconciliations are key to maintaining the integrity of the financial data.

Furthermore, it is crucial to establish a clear system of internal controls. This includes defining roles and responsibilities, implementing segregation of duties, and ensuring that all personnel are adequately trained. A robust internal control system not only reduces the risk of fraud and misstatement but also enhances the overall efficiency and reliability of the organization's operations.

In addition, transparency and communication are vital for success. Stakeholders should be kept informed about the organization's financial performance and any significant developments. Regular reporting and open dialogue foster trust and ensure that everyone is working towards the same goals. It is also important to seek professional advice when needed, as experts can provide valuable insights and guidance on complex financial matters.

Finally, staying up-to-date with the latest regulations and industry trends is essential for long-term success. The financial landscape is constantly evolving, and organizations must adapt to these changes to remain competitive and compliant. Continuous learning and improvement are the keys to thriving in a dynamic environment.

The first part of the report deals with the general situation of the country and the progress of the various branches of industry and commerce. It is followed by a detailed account of the operations of the different departments of the public service, and a summary of the state of the public treasury. The report concludes with a series of recommendations for the improvement of the administration and the promotion of the national prosperity.

The first part of the report is devoted to a general  
 description of the country and its resources. It  
 is followed by a detailed account of the  
 various industries and occupations of the  
 people. The report concludes with a summary  
 of the principal facts and a list of the  
 names of the persons who have been  
 employed in the service of the  
 government.

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is equivalent to a problem in the theory of differential equations. The second part of the paper is devoted to the construction of a solution of the problem. It is shown that the solution can be expressed in terms of a series of functions. The third part of the paper is devoted to the study of the properties of the solution. It is shown that the solution is unique and that it satisfies the conditions of the problem.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be clearly documented and verified. The second part details the various methods used to collect and analyze data, highlighting the need for consistency and precision. The third section describes the challenges faced during the process and offers practical solutions to overcome them. Finally, the document concludes with a summary of the findings and a call to action for future improvements.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It is essential to ensure that every entry is properly documented and verified. This process helps in identifying any discrepancies or errors early on, preventing them from escalating into larger issues. Regular audits and reconciliations are key to maintaining the integrity of the financial data.

Furthermore, it is crucial to establish a clear system of internal controls. This involves defining roles and responsibilities, implementing segregation of duties, and ensuring that all personnel are adequately trained. A robust internal control system not only reduces the risk of fraud but also enhances the overall efficiency and reliability of the organization's operations.

In conclusion, the document emphasizes the need for a proactive approach to financial management. By adhering to best practices and maintaining a high level of transparency, organizations can build trust with their stakeholders and ensure long-term success.

1870  
The first of the year  
was a very dry one  
and the crops were  
very poor. The  
winter was also  
very cold and  
the snow was  
very deep. The  
spring was also  
very dry and  
the crops were  
very poor. The  
summer was also  
very dry and  
the crops were  
very poor. The  
autumn was also  
very dry and  
the crops were  
very poor. The  
winter was also  
very cold and  
the snow was  
very deep. The  
spring was also  
very dry and  
the crops were  
very poor. The  
summer was also  
very dry and  
the crops were  
very poor. The  
autumn was also  
very dry and  
the crops were  
very poor.

The first part of the document  
 discusses the various aspects of  
 the project and the progress  
 made during the year.  
 It is hoped that the  
 results will be of great  
 value to the community.  
 The second part of the  
 document contains a  
 list of the names of the  
 members of the committee  
 and the names of the  
 donors who have  
 contributed to the  
 success of the project.  
 It is a pleasure to  
 acknowledge the  
 generous support of  
 all those who have  
 helped to make this  
 project possible.  
 The third part of the  
 document contains a  
 list of the names of the  
 members of the  
 committee and the  
 names of the donors  
 who have contributed  
 to the success of the  
 project. It is a  
 pleasure to  
 acknowledge the  
 generous support of  
 all those who have  
 helped to make this  
 project possible.

The first part of the report deals with the general situation of the country, and the progress of the various branches of industry and commerce. It is found that the country has made considerable progress in all these respects, and that the general state of the country is one of great prosperity and contentment.

The second part of the report deals with the state of the various branches of industry and commerce. It is found that the various branches of industry and commerce are all in a state of great activity and progress, and that the country is well supplied with all the necessaries of life.

The third part of the report deals with the state of the various branches of agriculture and husbandry. It is found that the various branches of agriculture and husbandry are all in a state of great activity and progress, and that the country is well supplied with all the necessaries of life.

The fourth part of the report deals with the state of the various branches of the arts and sciences. It is found that the various branches of the arts and sciences are all in a state of great activity and progress, and that the country is well supplied with all the necessaries of life.

The fifth part of the report deals with the state of the various branches of the military and naval services. It is found that the various branches of the military and naval services are all in a state of great activity and progress, and that the country is well supplied with all the necessaries of life.

The first part of the history of the County of Middlesex, from the earliest times to the reign of King Henry the Second, is contained in the first volume of this work. The second part, which is the subject of the present volume, is the history of the County from the reign of King Henry the Second to the reign of King Edward the Sixth. The third part, which is the subject of the next volume, is the history of the County from the reign of King Edward the Sixth to the present time.

The history of the County of Middlesex, from the reign of King Henry the Second to the reign of King Edward the Sixth, is a very interesting and important part of the history of the County. It is a history of a period of great change and development, and it is a history of a period of great struggle and conflict. It is a history of a period of great achievement and progress, and it is a history of a period of great glory and honor.

The history of the County of Middlesex, from the reign of King Henry the Second to the reign of King Edward the Sixth, is a history of a period of great change and development. It is a history of a period of great struggle and conflict, and it is a history of a period of great achievement and progress. It is a history of a period of great glory and honor, and it is a history of a period of great sorrow and pain.

The history of the County of Middlesex, from the reign of King Henry the Second to the reign of King Edward the Sixth, is a history of a period of great change and development. It is a history of a period of great struggle and conflict, and it is a history of a period of great achievement and progress. It is a history of a period of great glory and honor, and it is a history of a period of great sorrow and pain.

The history of the County of Middlesex, from the reign of King Henry the Second to the reign of King Edward the Sixth, is a history of a period of great change and development. It is a history of a period of great struggle and conflict, and it is a history of a period of great achievement and progress. It is a history of a period of great glory and honor, and it is a history of a period of great sorrow and pain.

The first part of the book is devoted to a general history of the United States from its discovery to the present time. It is divided into three volumes, the first of which contains the history of the discovery and settlement of the continent, the second the history of the colonies, and the third the history of the United States from its independence to the present time.

The second part of the book is devoted to a general history of the world from its creation to the present time. It is divided into three volumes, the first of which contains the history of the world from its creation to the discovery of America, the second the history of the world from the discovery of America to the present time, and the third the history of the world from the present time to the end of the world.

The third part of the book is devoted to a general history of the United States from its discovery to the present time. It is divided into three volumes, the first of which contains the history of the discovery and settlement of the continent, the second the history of the colonies, and the third the history of the United States from its independence to the present time.

The fourth part of the book is devoted to a general history of the world from its creation to the present time. It is divided into three volumes, the first of which contains the history of the world from its creation to the discovery of America, the second the history of the world from the discovery of America to the present time, and the third the history of the world from the present time to the end of the world.

The fifth part of the book is devoted to a general history of the United States from its discovery to the present time. It is divided into three volumes, the first of which contains the history of the discovery and settlement of the continent, the second the history of the colonies, and the third the history of the United States from its independence to the present time.

The sixth part of the book is devoted to a general history of the world from its creation to the present time. It is divided into three volumes, the first of which contains the history of the world from its creation to the discovery of America, the second the history of the world from the discovery of America to the present time, and the third the history of the world from the present time to the end of the world.

The first part of the document  
 discusses the general principles  
 of the proposed system  
 and the various methods  
 of implementation.  
 It is intended to provide  
 a comprehensive overview  
 of the subject matter  
 and to serve as a guide  
 for further study and  
 research.

The first of these is the discovery of the continent of America by Christopher Columbus in 1492. This event marked the beginning of European colonial expansion in the Americas. Columbus's voyage was sponsored by the Spanish monarchs, Isabella and Ferdinand, and it led to the establishment of Spanish colonies throughout the continent.

The second major event was the discovery of gold in the Americas. This discovery led to a massive influx of gold into Europe, which had a profound impact on the European economy. The gold was used to fund further exploration and the expansion of the European empire.

The third major event was the establishment of the transatlantic slave trade. This trade system was developed by the Portuguese and the Spanish, and it involved the transport of African slaves to the Americas to work on plantations and mines. The slave trade was a central part of the colonial economy and had a devastating impact on the African continent.

The fourth major event was the discovery of the Americas by other European powers. In the early 16th century, other European powers, such as France, the Netherlands, and England, began to explore and colonize the Americas. This led to a period of intense competition between the European powers for control of the continent.

The fifth major event was the establishment of the United States of America. In 1776, the thirteen colonies declared their independence from Great Britain, and the United States was born. This event marked the beginning of a new era in the history of the Americas, and it led to the development of a new political system based on the principles of democracy and individual rights.

The first part of the year was spent in the  
 study of the history of the country and  
 the progress of the war. The second part  
 was devoted to the study of the  
 constitution and the principles of  
 government. The third part was spent  
 in the study of the principles of  
 political economy and the history of  
 the world. The fourth part was spent  
 in the study of the principles of  
 natural philosophy and the history of  
 the earth. The fifth part was spent  
 in the study of the principles of  
 medicine and the history of the human  
 mind. The sixth part was spent in  
 the study of the principles of  
 law and the history of the human  
 race. The seventh part was spent  
 in the study of the principles of  
 agriculture and the history of the  
 human race. The eighth part was  
 spent in the study of the principles  
 of the fine arts and the history of  
 the human race. The ninth part was  
 spent in the study of the principles  
 of the mechanical arts and the history  
 of the human race. The tenth part  
 was spent in the study of the  
 principles of the liberal arts and the  
 history of the human race.

The first part of the book is devoted to a general history of the United States from its discovery by Columbus in 1492 to the present time. It covers the early years of settlement, the struggle for independence, the formation of the Constitution, and the development of the nation as a great power. The second part of the book is devoted to a detailed history of the United States from the beginning of the American Revolution in 1776 to the present time. It covers the war of 1812, the Mexican War, the Civil War, and the Reconstruction period. The third part of the book is devoted to a detailed history of the United States from the beginning of the American Revolution in 1776 to the present time. It covers the war of 1812, the Mexican War, the Civil War, and the Reconstruction period.

The history of the United States of America is a story of growth and change. From the first European settlements to the present day, the nation has evolved through various stages of development. The early years were marked by exploration and the establishment of colonies. The American Revolution led to the birth of a new nation, and the subsequent years saw the expansion of territory and the growth of industry. The Civil War was a pivotal moment in the nation's history, leading to the abolition of slavery and the strengthening of the federal government. The 20th century brought significant social and economic changes, including the rise of the industrial revolution and the emergence of the United States as a world superpower. Today, the United States continues to play a leading role in global affairs, facing new challenges and opportunities in the 21st century.

The first part of the history of the United States is the period from the discovery of the continent to the establishment of the first colonies. This period is characterized by the exploration of the continent by European powers, the establishment of trading posts, and the migration of settlers to the eastern coast. The second part of the history is the period from the establishment of the first colonies to the American Revolution. This period is characterized by the growth of the colonies, the struggle for independence, and the signing of the Declaration of Independence. The third part of the history is the period from the American Revolution to the present. This period is characterized by the establishment of the United States as a nation, the expansion of territory, and the development of a democratic government.

The history of the United States of America is a story of growth and change. It begins with the first settlers who came to the continent in search of a new life. They found a land of vast potential, but also one of many challenges. The early years were marked by struggle and hardship, as the settlers fought to establish a new society in a remote and often hostile environment. Over time, the United States grew from a small collection of colonies into a powerful nation. It was a process of constant evolution, shaped by the actions of countless individuals and the forces of nature. The American dream, the belief that anyone can achieve success through hard work and determination, has become a defining characteristic of the nation. Today, the United States stands as a global superpower, a leader in science, technology, and culture. Its history is a testament to the power of human ingenuity and the resilience of the American spirit.

The first part of the book is devoted to a general history of the world, from the beginning of time to the present day. The author discusses the various races of men, their physical characteristics, and their social and political organizations. He also touches upon the progress of science and the arts, and the influence of religion and philosophy upon the human mind.

The second part of the book is a history of the United States, from the first discovery of the continent to the present day. The author describes the various stages of the nation's development, from the early settlements to the present day. He discusses the political and social changes that have taken place, and the influence of the various states upon the nation as a whole.

The third part of the book is a history of the world, from the beginning of time to the present day. The author discusses the various races of men, their physical characteristics, and their social and political organizations. He also touches upon the progress of science and the arts, and the influence of religion and philosophy upon the human mind.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice to ensure transparency and accountability.

2. The second section outlines the procedures for handling discrepancies between the recorded amounts and the actual cash received. It states that any such variance must be investigated immediately and reported to the appropriate authority.

3. The third part of the document details the process for reconciling the accounts at the end of each month. It requires that the total recorded income matches the bank statements and the physical cash on hand.

4. The final section provides a summary of the key points and reiterates the commitment to high standards of financial integrity and honesty in all reporting.

The first part of the report deals with the general situation of the country. It is noted that the population is increasing rapidly, and that the government is making every effort to improve the conditions of the people. The report also mentions the progress of the various departments, and the success of the different projects. It is stated that the government is determined to continue its efforts to bring about a more prosperous and happy country.

The second part of the report deals with the financial situation of the country. It is noted that the government has managed to keep the budget in balance, and that the public debt is being reduced. The report also mentions the success of the different financial projects, and the progress of the various departments. It is stated that the government is determined to continue its efforts to bring about a more prosperous and happy country.

The third part of the report deals with the social situation of the country. It is noted that the government is making every effort to improve the conditions of the people, and that the various departments are working together to bring about a more prosperous and happy country. The report also mentions the success of the different social projects, and the progress of the various departments. It is stated that the government is determined to continue its efforts to bring about a more prosperous and happy country.

The fourth part of the report deals with the educational situation of the country. It is noted that the government is making every effort to improve the conditions of the people, and that the various departments are working together to bring about a more prosperous and happy country. The report also mentions the success of the different educational projects, and the progress of the various departments. It is stated that the government is determined to continue its efforts to bring about a more prosperous and happy country.

The fifth part of the report deals with the health situation of the country. It is noted that the government is making every effort to improve the conditions of the people, and that the various departments are working together to bring about a more prosperous and happy country. The report also mentions the success of the different health projects, and the progress of the various departments. It is stated that the government is determined to continue its efforts to bring about a more prosperous and happy country.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy auditing of the accounts.

In the second section, the author details the various methods used to collect and analyze data. This includes both primary and secondary research techniques. The goal is to identify trends and patterns that can inform future decision-making.

The third section focuses on the implementation of the findings. It outlines a clear action plan with specific responsibilities assigned to different team members. Regular communication and reporting are stressed as essential for the success of the project.

Finally, the document concludes with a summary of the key points and a call to action. It encourages all stakeholders to remain committed to the goals and to work together to overcome any challenges that may arise.

The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that every entry should be supported by a valid receipt or invoice. This ensures transparency and allows for easy verification of the data.

In the second section, the author details the various methods used to collect and analyze the data. This includes both manual and automated processes. The goal is to ensure that the information is both reliable and up-to-date.

The third part of the document focuses on the results of the analysis. It shows a clear trend of growth over the period covered. This is supported by several key figures and percentages that illustrate the overall performance.

Finally, the document concludes with a series of recommendations for future actions. These are based on the findings of the analysis and aim to further optimize the current processes. The author suggests regular reviews and updates to the data collection methods.

THE HISTORY OF THE  
CITY OF BOSTON  
FROM THE FIRST SETTLEMENT  
TO THE PRESENT TIME  
BY NATHANIEL BENTLEY  
VOLUME I  
PUBLISHED BY  
J. B. BENTLEY  
1822

The first part of the report  
 deals with the general  
 situation of the country  
 and the progress of  
 the various branches  
 of industry and  
 commerce. It is  
 followed by a  
 detailed account of  
 the operations of  
 the different  
 departments of  
 the government  
 and the results  
 of their work.  
 The report  
 concludes with  
 a summary of  
 the principal  
 events of the  
 year and a  
 forecast for the  
 future.

The second part of the report  
 contains a list of  
 the names of the  
 members of the  
 various committees  
 and the results of  
 their work. It  
 also includes a  
 list of the names  
 of the officers of  
 the different  
 departments of  
 the government  
 and the results  
 of their work.  
 The report  
 concludes with  
 a summary of  
 the principal  
 events of the  
 year and a  
 forecast for the  
 future.

The following table shows the results of the experiments conducted on the effect of temperature on the rate of reaction between hydrogen peroxide and potassium iodide. The reaction is catalyzed by the presence of a small amount of potassium iodide. The rate of reaction was measured by the volume of oxygen gas evolved in a given time.

Temperature (°C)	Volume of Oxygen (ml)
10	10
20	20
30	30
40	40
50	50

The results show that the rate of reaction increases with increasing temperature. This is due to the fact that at higher temperatures, the molecules of hydrogen peroxide and potassium iodide have more kinetic energy and are therefore more likely to collide with sufficient energy to overcome the activation energy barrier and undergo a chemical reaction.

The first part of the book is devoted to a general history of the United States from its discovery to the present time. It is divided into three volumes, the first of which contains the history of the discovery and settlement of the continent, the second the history of the colonies, and the third the history of the United States from its independence to the present time. The second part of the book is devoted to a general history of the world from its creation to the present time. It is divided into three volumes, the first of which contains the history of the world from its creation to the discovery of America, the second the history of the world from the discovery of America to the present time, and the third the history of the world from the present time to the end of the world.

The first part of the book is devoted to a general history of the United States from its discovery by Columbus in 1492 to the present time. It covers the early years of settlement, the struggle for independence, the formation of the Constitution, and the development of the nation as a great power. The second part of the book is devoted to a detailed history of the United States from 1776 to the present time. It covers the American Revolution, the War of 1812, the Civil War, and the Reconstruction period. The third part of the book is devoted to a detailed history of the United States from 1865 to the present time. It covers the Reconstruction period, the Gilded Age, the Progressive Era, and the modern era.

The first of these was the establishment of the first public school in the city, in 1630. This was the Boston Latin School, which was founded by the city fathers and was the first of its kind in the colonies. It was a school for boys, and was the only one of its kind in the city for many years. The school was founded by the city fathers and was the first of its kind in the colonies. It was a school for boys, and was the only one of its kind in the city for many years.

 Dix Samuel, 11 Front, Rochester

The first part of the reign was marked by a period of peace and prosperity. The king's wisdom and justice were widely admired, and the people flourished under his rule. He was particularly noted for his concern for the poor and his efforts to reform the laws. His reign was a golden age for the nation, and his memory is still held in high esteem.

During this time, the kingdom expanded its borders and strengthened its defenses. The king's military campaigns were successful, and he brought many new territories under his control. His policies of trade and commerce led to a significant increase in the country's wealth and power.

The king's personal life was also marked by several notable events. He was married to a woman of noble birth, and they had several children. His reign was not without challenges, but he always remained steadfast in his duty to his people and his faith.

In the final years of his reign, the king's health began to decline. He spent much of his time in prayer and reflection, preparing himself for the end. His death was a great loss to the nation, and he was buried with the honors of a king.

The reign of this king is remembered as a time of great achievement and wisdom. His legacy lives on in the hearts of his people and in the pages of history.

The following table shows the population of the United States from 1790 to 1900. The population increased from 3,929,214 in 1790 to 76,212,367 in 1900. The increase was most rapid between 1840 and 1860, and again between 1880 and 1900.

Year	Population
1790	3,929,214
1800	3,959,864
1810	4,737,704
1820	5,308,647
1830	6,595,961
1840	12,866,019
1850	23,191,876
1860	31,443,321
1870	38,558,371
1880	50,155,783
1890	62,948,705
1900	76,212,367

2022	Russia invades Ukraine
2023	AI breakthroughs

The history of the United States of America is a story of growth and change. From the first European settlements to the present day, the nation has evolved through various stages of development. The early years were marked by exploration and the establishment of colonies. The American Revolution led to the birth of a new nation, and the subsequent years saw the expansion of territory and the growth of a diverse population. The Civil War was a pivotal moment in the nation's history, leading to the abolition of slavery and the strengthening of the federal government. The late 19th and early 20th centuries were characterized by industrialization and the rise of a powerful economy. The 20th century has seen significant social and political changes, including the civil rights movement and the Vietnam War. Today, the United States remains a global superpower, facing new challenges and opportunities in the 21st century.

The following table shows the results of the experiments conducted during the year 1918-1919. The data is presented in a tabular form for clarity. The first column represents the date of the experiment, the second column represents the time taken for the reaction, and the third column represents the amount of product formed. The results show a general increase in the rate of reaction over time, with some fluctuations. The data is summarized in the table below.

Date	Time (min)	Product (g)
Jan 1	10	0.5
Jan 2	15	0.8
Jan 3	20	1.2
Jan 4	25	1.5

TABLE 1. CASES OF ...

MANUFACTURING COMPANIES.

Mattenwan Machine Works.....	Fishkill.....	Samuel B. Schenck.....	Steam Engines, &c.
Mohawk River Mills.....	Cohoes.....	W. Stone.....	Hosiery.
Mohawk Woolen Mills.....	Little Falls.....	J. W. Stitt.....	Fancy Cassimeres.
Mott (The J. J.) Iron Works.....	Mott Haven.....	J. L. Mott.....	Iron.
Mount Ida Cotton Mills.....	Troy.....	W. Tompkins, treas.....	Cotton Goods.
Newark Lime and Cement Manuf.....	Rondout.....	James Whitehill.....	Lime and Cement.
Newburgh Manufacturing Co.....	Newburgh.....	P. S. Haines.....	Printing Cloths.
Newburgh Woolen Mills.....	New York.....	John H. Cheever.....	Carpet Yarns.
New Hartford Cotton Mills.....	New York.....	Benj. F. Lee.....	Brown Sheetings.
Newton Copper Type Co.....	New York.....	Marshall Lefferts.....	Copper-faced Type.
New York Belting and Packing Co.....	New York.....	Walcott & Campbell.....	Belting, Packing and Hose.
New York Mills.....	Whitestown.....	Patchin & Delany.....	Fine Shirtings.
New York Rubber Co.....	New York.....	M. H. Ferris.....	India Rubber Toys.
New York Shot and Lead Co.....	New York.....	Alfred Wild.....	Shot Lead, &c.
New York Steam Sugar Refining Co.....	New York.....	Walcott & Campbell.....	Sugar.
New York Upper Mills.....	New Hartford.....	John M. French.....	Print Goods.
Niagara Falls Paper Manufacturing Co.....	Niagara Falls.....	George F. Comstock.....	Paper.
Niagara Forge Works.....	Buffalo.....	Joshua Harrison.....	Forges, &c.
North Am. Machine Cooperage Co.....	Elmira.....	J. M. Wright, treas.....	Barrels, &c.
Ogden Mills.....	Cohoes.....	T. Kingsford & Son.....	Sheetings.
Old Furnace Co.....	Ontario.....	Wm. C. Fields.....	Iron.
Oneida Manufacturing Co.....	Whitestown.....	Hall & Doggett.....	Fine Shirtings.
Onondaga Salt Co.....	Syracuse.....	H. Chamberlain.....	Salt.
Orange Co. Woolen Mills.....	Newburgh.....	Thomas Bent.....	Carpet Yarns.
Oswego Chair Factory.....	Oswego.....	Albert Tower.....	Chairs.
Oswego Knitting Co.....	Oswego.....	John A. Griswold.....	Hosiery, &c.
Oswego Starch Factory.....	Laurens.....	Wm. Otis, supt. Rochester.....	Starch.
Otsego Mills.....	Auburn.....	Palmer, Newton & Co.....	Sheeting.
Owasco Mills.....	Oxford.....	John Peck.....	Cassimeres.
Oxford Hoe and Edge Tool Co.....	Oxford.....	John D. Perrin.....	Hoes, &c.
Oxford Sash and Blind Manuf. Co.....	Brooklyn.....	J. P. Chamberlain.....	Sash, Blinds, &c.
Phoenix Chemical Works.....	Seneca Falls.....	W. W. Butterfield.....	Chemicals.
Phoenix Co.....	Port Chester.....	Theresa.....	Fancy Cassimeres.
Port Chester Manufacturing Co.....	Poughkeepsie.....	Troy.....	Edge Tools.
Poughkeepsie Iron Works.....	Redwood.....	Brighton.....	Iron.
Redwood Glass Manufacturing Co.....	Redwood.....	New York.....	Pig Iron.
Kedwood Iron Manuf.....	Theresa.....	Albany.....	Railroad Iron.
Kenselaer Iron Co.....	Troy.....	Haverstraw.....	Bricks and Tiles.
Rocheater Brick and Tile Co.....	Brighton.....	.....	Grate Bars.
Salamander Grate Bar Co.....	New York.....	.....	Fire Brick, Kaolin, &c.
Salamander & Alb. Fire Brick Works.....	Albany.....	.....	.....
Samsondale Iron Works.....	Haverstraw.....	.....	.....

## INCORPORATED AND OTHER MANUFACTURING COMPANIES.—Continued.

NAME.	Location.	President or Secretary.	Agent or Proprietor.	Capital.	Kind of Goods Manufactured.
Saugerties White Lead & Paint Co.....	Saugerties.....	.....	H. C. Boyd, treas.....	\$65,000	White Lead.
Saxony Woolen Co.....	Little Falls.....	.....	J. Waterhouse.....	.....	Flannels.
Schenectady Locomotive Works.....	Schenectady.....	.....	Charles Thompson.....	130,000	Locomotives and R. R. Machinery.
Seovill Manufacturing Co.....	New York.....	John Ellis.....	Samuel Holmes.....	300,000	Plated Metals, Gilt Buttons, &c.
Seamless Clothing Manufacturing Co.....	Fishkill.....	S. W. Hall.....	D. W. Gitchell.....	50,000	Clothing.
Seneca Knitting Mills.....	Seneca Falls.....	John Falconer.....	A. J. Goffe.....	85,000	Knitted Goods.
Slottsburgh Manufacturing Co.....	Slottsburgh.....	D. J. Westervelt.....	.....	100,000	Cotton Twine.
Star Arms Co.....	Yonkers.....	.....	E. Clapp, treas.....	400,000	Fire Arms.
Suffolk Steam Mills.....	Sag Harbor.....	.....	A. J. Richardson.....	.....	Cotton Goods.
Syracuse Iron Works.....	Syracuse.....	N. Gere.....	C. D. Avery, treas.....	30,000	Iron.
Tivoli Hosiery Mills.....	Cohoes.....	.....	J. G. Root & Sons.....	.....	Hosiery.
Tivoli Hosiery Mills.....	Cohoes.....	.....	L. S. Parsons.....	.....	Hosiery Goods.
Trenton Iron Co.....	New York.....	J. H. Parsons, treas.....	.....	1,000,000	Iron.
Troy Fire Brick Works.....	Troy.....	Abram S. Hewett, sec.....	Ostrand & Hcartt.....	.....	Fire Brick, Tiles, Paper Clay, &c.
Troy Hosiery Co.....	Troy.....	.....	Wm. A. Shepard, treas.....	35,000	Woolen Shirts and Drawers.
Troy Iron and Nail Factory.....	Troy.....	.....	Wm. F. Burden.....	96,000	Horse Shoe, Ship and Boat Spikes.
Troy Manufacturing Co.....	Troy.....	.....	J. V. S. Lansing.....	250,000	Hosiery.
Troy Woolen Co.....	Troy.....	David Cowes.....	John Rankin, treas.....	50,000	Satinets.
Ulster Iron Works.....	Saugerties.....	.....	James D. Tuckerman.....	.....	Bars, Rods and Hoops.
Union Indian Rubber Co.....	Harlem.....	Henry G. Hadden.....	.....	.....	Irdia Rubber Goods.
Union Mills.....	Ballston.....	.....	J. A. Hovey.....	300,000	Cotton Goods.
Union White Lead Manufacturing Co.....	Brooklyn.....	Thomas Laidlaw.....	.....	100,000	White Lead.
U. S. Self Generating Gas Co.....	New York.....	J. B. Benschel.....	.....	100,000	Gas Apparatus.
U. S. Steam Sugar Refining Co.....	New York.....	Cassius Darling.....	.....	500,000	Sugar.
Utica Cotton Mills.....	New Hartford.....	.....	E. A. Sherman.....	78,000	Brown Sheeting.
Utica Steam Cotton Mills.....	Utica.....	Charles A. Mann.....	E. Chamberlain.....	230,000	Sheetings and Shirtings.
Utica Steam Woolen Co.....	Utica.....	A. S. Pond.....	Peter Clogher.....	125,000	Broadcloths and Satinets.
Utica Woolen Co.....	Utica.....	A. J. Williams.....	R. Middleton.....	70,000	Sheeting and Shirtings.
Victory Mills.....	Saratoga.....	.....	C. W. Maybew.....	42,500	Cotton Goods.
Washington Medallion Pen Co.....	New York.....	A. Granger.....	.....	.....	Steel Pens.
Washington Steam Mills.....	Wash n Mills.....	.....	Utica City Bank.....	18,000	Woolen Cloths.
Waterford Co.....	Cohoes.....	.....	Jenks Brown.....	50,000	Sheeting and Shirting.
Waterloo Woolen Manufacturing Co.....	Waterloo.....	Thos. Fatzinger.....	C. W. Cook.....	150,000	Woolen Shawls.
Waterville Manufacturing Co.....	Catskill.....	.....	Samuel Harris.....	.....	Shawls.
Watervliet Hosiery Mills.....	Cohoes.....	.....	Alden, Frink & Berton.....	.....	Hosiery.
West Point Foundry.....	Gold Spring.....	R. P. Farrortt.....	.....	.....	Castings.
Wheeler & Wilson Manufacturing Co.....	New York.....	Nathan Wheeler.....	.....	160,000	Sewing Machines.

## GAS COMPANIES.

- ALBANY GAS LIGHT CO.:—Inc. 1841; Cap. \$250,000; H. Pumpelly, Pres.; B. C. Humphrey, Sec.; P. A. Sabbaton, Supt.; 452 Broadway, Albany.
- ALBION GAS CO.:—Roswell Clark, Pres.; V. V. Bullock, Supt.; (Albion,) Barre.
- AUBURN GAS LIGHT CO.:—Inc. 1850; Cap. \$60,000; E. H. Avery, Pres.; H. H. Goss, Sec., Treas. and Supt.; Auburn.
- BATAVIA GAS LIGHT CO.:—Inc. 1855; Cap. \$32,000; D. W. Tomlinson, Pres.; M. L. Babcock, Sec.; Batavia.
- BINGHAMTON GAS LIGHT CO.:—Inc. 1853; Cap. \$50,000; C. McKinney, Pres.; M. J. Dublay, Treas.; Binghamton.
- BROOKPORT GAS LIGHT CO., Brookport; Cap. \$25,000; E. B. Holmes, Pres.; Isaac Palmer, Sec. and Treas.
- BROOKLYN GAS LIGHT CO.:—Inc. 1825; Cap. \$2,000,000; A. W. Benson, Pres.; Valentine T. Hall, Sec.; Joseph K. Brick, Supt.; 7 Court st., Brooklyn.
- BUFFALO GAS CO.:—Inc. February, 1848; Cap. \$400,000; S. F. Pratt, Pres. and Treas.; O. G. Steele, Sec. and Supt.; Buffalo.
- CANANDAIGUA GAS CO.:—Inc. 1847; Cap. \$50,000; E. G. Lapham, Pres.; C. S. Gregory, Sec. and Treas.; Benj. Maxon, Supt.; Canandaigua.
- CATSKILL GAS LIGHT CO.:—Gilbert T. Sutton, proprietor; Catskill.
- CITIZENS' GAS LIGHT CO.:—W. P. Libby, Pres.; J. H. Stebbins, Treas.; H. Warren, Sec.; T. Sabbaton, Supt.; Brooklyn.
- CLYDE GAS LIGHT CO., Clyde; S.S. Briggs, Pres.; A. Griswold, Treas.
- COHOES GAS LIGHT CO.:—T. G. Younglove, Pres.; C. H. Adams, Sec. and Treas.; Cohoes.
- COOPERSTOWN GAS CO., Cooperstown.
- CORNING GAS CO.:—Cap. \$10,000; S. M. Dade, Pres.; C. S. Cole, Sec.; S. L. Chambers, Supt.; Corning.
- ELMIRA GAS LIGHT CO.:—Com. 1852; Cap. \$50,000; James L. Woods, Pres.; S. T. Arnot, Treas. and Supt.; Elmira.
- FULTON GAS LIGHT CO.:—Cap. \$12,000; Anson Knibloe, Pres.; D. W. Gardner, Sec. and Treas.; (Fulton) Volney.
- GAS LIGHT CO. OF SYRACUSE:—Cap. \$75,000; Moses D. Burnet, Pres.; Allen Munroe, Sec.; Curtis Moses, Treas.; Lyman W. Conkey, Supt.; 20 Mechanic, Syracuse.
- GENESEO GAS CO., Geneseo.
- GENEVA GAS LIGHT CO.:—Inc. 1848; Cap. \$72,500; L. W. Lacy, Pres.; Corydon Wheat, Sec., Treas. and Supt.; Geneva.
- GLENN'S FALLS GAS LIGHT CO.:—D. H. Cowles, Pres.; — Gilchrist, Sec. and Supt.; (Glenn's Falls) Queensbury.
- GREENPOINT GAS LIGHT CO.:—Inc. 1853; Cap. \$40,000; F. H. Wolcot, Pres.; Josiah Carver, Sec. and Supt.; Milton near Kent, (Greenpoint) Brooklyn.
- HARLEM GAS LIGHT CO.:—B. Wakeman, Pres.; H. P. McGown, Sec.; 76 Nassau, New York.
- HORNELLSVILLE GAS CO.:—M. Dougal, Agent; Hornellsville.
- HUDSON GAS CO.:—Chartered 1853; Cap. \$50,000; Oliver Bronson, Pres.; J. W. Fairfield, Supt.; 102 Warren, Hudson.
- ITHACA GAS LIGHT CO.:—Inc. 1853; Cap. \$75,000; D. Boardman, Pres.; F. M. Finch, Sec. and Supt.; Ithaca.
- JAMAICA GAS LIGHT CO.:—Inc. 1856; Cap. \$20,000; J. N. Brinekerhoff, Pres.; William Phrauer, Treas.; L. M. Jaggard, Sec.; Richard Brush, Supt.; Jamaica.
- JOHNSTOWN GAS LIGHT CO.:—Inc. 1857; Geo. P. Davis, Proprietor; P. W. Case, Agent; Johnstown.
- KINGSTON & RONDOUT GAS LIGHT CO.:—Inc. 1854; Cap. \$65,000; Thomas Cornell, Pres.; P. Osterhoudt, Sec.; James W. Bentley, Supt.; Kingston.
- LANSINGBURGH GAS WORKS:—George H. Norman, Prop.; L. C. Hanford, Supt.; Lansingburgh.
- LE ROY GAS LIGHT CO.:—C. L. Olmsted, Supt.; Le Roy.
- LOCKPORT GAS LIGHT CO.:—Inc. 1851; Cap. \$40,000; Thomas T. Flagler, Pres.; J. T. Bellah, Treas. and Supt.; Transit and La Grange sts., Lockport.
- LYONS GAS LIGHT CO.:—Inc. 1859; Cap. \$30,000; Wm. Van Marter, Sec.; Wm. D. Perrino, Treas.; Saxton B. Gavit, Pres.; Francis Palmer, Supt.; Lyons.
- MANHATTAN GAS LIGHT CO.:—Cap. \$4,000,000; Chas. Roome, Pres.; Samuel H. Howard, Sec.; 14th, cor. Av. C, New York.
- MEDINA GAS WORKS:—William Dent, Prop.; Medina.
- METROPOLITAN GAS LIGHT CO.:—C. H. Sands, Pres.; C. Zollicoffer, Treas.; W. Titus, Sec.; Ambrose J. White, Engineer; Broadway, cor. 42d, New York.
- MOHAWK GAS CO.:—Cap. \$10,000; Chauncey Johnson, Pres.; Eli Fox, Sec.; Robert Pomeroy, Treas.; Abram Myers, Supt.; Mohawk.
- NEWBURGH GAS LIGHT CO.:—Inc. 1852; Cap. \$65,000; J. J. Morrell, Pres.; George W. Kerr, Sec.; Jas. Beveridge, Supt.; 30 Water, Newburgh.
- NEW YORK GAS LIGHT CO.:—Cap. \$1,000,000; Dividends May and November; William W. Fox, Pres.; C. I. Everitt, Sec.; John Mowton, Supt.; 174 Centre, New York.

## ESTIMATION

The first step in the estimation of the parameters of a linear model is the estimation of the error variance. This is done by using the residuals from the least squares fit. The residuals are the differences between the observed values and the predicted values from the least squares fit. The error variance is estimated by the mean square error (MSE), which is the sum of the squared residuals divided by the number of observations minus the number of parameters estimated. The MSE is an unbiased estimator of the error variance. The standard error of the estimate (SEE) is the square root of the MSE. The SEE is a measure of the accuracy of the least squares fit. The SEE is used to construct confidence intervals for the parameters of the model. The confidence intervals are constructed by adding and subtracting a multiple of the SEE from the least squares estimates of the parameters. The multiple is determined by the desired level of confidence. For example, a 95% confidence interval is constructed by adding and subtracting 1.96 times the SEE from the least squares estimates of the parameters. The confidence intervals provide a range of values within which the true parameter values are likely to fall. The confidence intervals are useful for testing hypotheses about the parameters of the model. For example, if the confidence interval for a parameter does not contain zero, then we can reject the null hypothesis that the parameter is equal to zero. The confidence intervals are also useful for comparing the parameters of different models. For example, if the confidence intervals for two parameters from different models do not overlap, then we can conclude that the parameters are significantly different. The confidence intervals are a useful tool for interpreting the results of a linear regression analysis.

- NYACK GAS CO. :—E. V. Haughwont & Co.; (Nyack) Orangetown.
- OGDENSBURG GAS LIGHT CO. :—R. E. Gordon, Supt.; Wm. C. Brown, Pres.; C. A. Burnham, Treas.; (Ogdensburgh) Oswegatchie.
- OSWEGO GAS LIGHT CO. :—Cap. \$80,000; Luther Wright, Pres.; S. B. Ludlow, Sec. and Treas.; J. O. Gerran, Supt.; Oswego.
- OWEGO GAS LIGHT CO. :—Inc. 1856; Cap. \$40,000; W. F. Warner, Pres. and Treas.; A. P. Storrs, Sec.; Owego.
- PALMYRA GAS LIGHT CO. :—Inc. 1856; Cap. \$12,000; George W. Cuyler, Pres.; F. Williams, Treas.; S. Jackson, Supt.; Palmyra.
- PEEKSKILL GAS LIGHT CO. :—Inc. 1855; Cap. \$31,000; Solomon L. Hull, Pres.; Calvin Frost, Sec.; Gilbert T. Sutton, Supt.; (Peekskill) Cortland.
- PORT JERVIS GAS LIGHT CO. :—H. H. Farnum, Pres.; Port Jervis.
- POUGHKEEPSIE GAS LIGHT CO. :—Inc. 1850; Cap. \$70,000; H. D. Varick, Pres.; S. B. Johnston, Treas.; J. Cartwright, Supt. and Sec.; Baycaux street, Poughkeepsie.
- RICHMOND COUNTY GAS LIGHT CO. :—Samuel R. Brick, Pres.; Samuel R. Brick, Jr., Sec.; John Curley, Supt.; 76 Nassau st., New York, and Stapleton.
- ROCHESTER GAS LIGHT CO. :—Inc. 1848; Cap. \$200,000; Levi A. Ward, Pres.; Thos. C. Montgomery, Sec. and Treas.; Geo. W. Parsons, Supt.; Rochester.
- ROME GAS LIGHT CO. :—Inc. 1852; Cap. \$35,000; Enoch B. Armstrong, Pres.; D. L. Boardman, Sec. and Treas.; Chas. F. Bissel, Supt.; Rome.
- SARATOGA GAS LIGHT CO. :—J. L. Manning, Sec. and Treas.; C. E. Durkee, Supt.; Saratoga Springs.
- SAUGERTIES GAS LIGHT CO. :—Inc. 1860; Cap. \$16,000; Joseph M. Boies, Pres.; Egbert Cooper, Sec.; B. Shaler, Treas.; Saugerties.
- SCHENECTADY GAS CO. :—Smith & Craig; Schenectady.
- SENECA FALLS AND WATERLOO GAS LIGHT CO. :—Inc. 1856; Cap. \$80,000; Sterling G. Hadley, Pres.; Stephen Parish, Treas. and Sec.; Seneca Falls.
- SING SING GAS LIGHT CO. :—Inc. 1856; Cap. \$40,000; Thomas Smull, Pres.; M. Churchill, Treas.; C. F. Maurice, Sec.; William H. Barlow, Supt.; (Sing Sing) Ossining.
- TARRYTOWN AND IRVINGTON UNION GAS CO. :—William M. Schoener, Pres.; C. A. Morford, Sec.; Seth Bird, Treas.; J. H. Brown, Supt.; Tarrytown.
- TROY GAS LIGHT CO. :—Inc. 1848; Cap. \$200,000; D. Southwick, Pres. and Treas.; Troy.
- UTICA GAS LIGHT CO. :—Inc. 1858; Thos. R. Walker, Pres.; H. H. Fish, Supt.; Utica.
- WALLKILL GAS CO. :—G. T. Sutton; Wallkill.
- WATERFORD GAS LIGHT CO. :—Com. 1858; Cap. \$12,000; John Cramer, Pres.; John C. House, Sec. and Treas.; William Humphrey, Supt.; Waterford.
- WATERLOO AND SENECA FALLS GAS CO.; Waterloo.
- WATERTOWN GAS CO. :—A. G. Story, Pres.; F. T. Story, Treas.; Watertown.
- WESTCHESTER COUNTY GAS LIGHT CO. :—Robert Campbell, Pres.; John S. Burnett, Supt.; Morrisiana.
- WEST TROY GAS LIGHT CO. :—Albert Richards, Pres.; Edwin A. Smith, Sec.; (West Troy) Watervliet.
- WILLIAMSBURGH GAS LIGHT CO. :—Inc. 1850; Cap. \$1,000,000; Benjamin H. Howell, Pres.; Charles F. Blodget, Sec.; Joseph R. Thomas, Supt.; Fourth, cor. S. Third, (Williamsburgh) Brooklyn.
- YONKERS GAS LIGHT CO. :—Com. 1854; Cap. \$70,000; Thomas C. Cornell, Pres.; W. W. Scrugham, Sec.; Wm. R. Beal, Supt.

**ATLANTIC SAVINGS BANK,**  
177 CHATHAM SQUARE, NEW YORK.

OPEN DAILY.—DEPOSITS FROM 25 CENTS TO 5,000 DOLLARS RECEIVED.

**OFFICERS.**

M. D. VAN PELT, President. F. B. NICOL, Vice-Pres't. JOSEPH P. COOPER, Secretary.  
E. LICHTENSTADTER, Vice-Pres't. CHAS. D. BAILEY, Treasurer. SOLOMON L. HULL, Att'y & Counsel.

**SIX PER CENT INTEREST ALLOWED.**

The funds of this Institution are invested in New York City Bonds, United States Treasury Bonds, and on Bond and Mortgage on Improved Real Estate in the Cities of New York and Brooklyn, worth double the amount loaned. The Legislature has taken great care in Chartering this Savings Bank to make it perfectly safe. The Trustees are neither allowed to borrow the money themselves, nor to lend it on individual security, and no Trustee can receive any pay for his services.

**A TABLE.**—Showing the sum that a deposit in the Bank of 25 cents a day will amount to, each  $\frac{1}{2}$  year, for the period of 10 years, interest being added to the principal semi-annually, at the rate of six per cent per annum.

AMOUNT AT THE END OF									
1st $\frac{1}{2}$ year..	\$46.30	2 $\frac{1}{2}$ years..	\$245.82	4 $\frac{1}{2}$ years..	\$470.37	6 $\frac{1}{2}$ years..	\$723.12	8 $\frac{1}{2}$ years..	\$1007.57
1 "	.. 94.00	3 "	.. 2.90	5 "	.. 530.77	7 "	.. 791.12	9 "	.. 1084.15
1 $\frac{1}{2}$ "	.. 143.12	3 $\frac{1}{2}$ "	.. 354.77	5 $\frac{1}{2}$ "	.. 593.00	7 $\frac{1}{2}$ "	.. 861.17	9 $\frac{1}{2}$ "	.. 1162.97
2 "	.. 193.72	4 "	.. 411.72	6 "	.. 637.10	8 "	.. 933.32	10 "	.. 1244.20

**FROM 25 CENTS TO 5,000 DOLLARS!**

There is a wide difference between these two amounts; one is a large, the other quite a small sum of money. Yet many have laid the foundation of large fortunes by laying up their twenty-five cents.

If you commence now to save your spare money you may lay the foundation of future success in life; thus you will see how much you may accumulate in a few years by depositing your spare twenty-five cents in the ATLANTIC SAVINGS BANK, which is one of those Institutions established and chartered by the State for the purpose of inducing all classes, and more especially the young and those of limited income, to lay up a provision for future requirements. A depositor in this Bank, whether the amount be large or small, will receive, on making a deposit, a Bank Book, in which will be entered the amount deposited; the Book will also contain the Rules and Regulations of the Bank, and other necessary information.

The depositors of small sums will receive equal consideration with those who bring large amounts of money,

## BANKS.

## NEW YORK CITY.

**FIRST NATIONAL BANK OF NEW YORK CITY:**—S. C. Thompson, President; J. Churphey, Cashier.

**SECOND NATIONAL BANK OF NEW YORK CITY:**—H. A. Hurlbut, President; A. J. Ormsbee, Cashier.

**THIRD NATIONAL BANK OF NEW YORK CITY:**—C. V. Culver, President; J. R. Penn, Cashier.

**NEW YORK CLEARING HOUSE ASSOCIATION,** Office 48 WALL, Bank of New York Building:—Established October 11, 1853, for the purpose of facilitating exchanges and settlements between the City Banks. Exchanges are made daily at 10 o'clock A. M., and balances paid at 1½ P. M., in specie. Expenses divided pro-ratio, on the capital, between the forty-six associated banks. Annual meeting first Tuesday in October. Specie Depository, Bank of America, 46 Wall Street. George D. Lyman, Manager.

**RULES AND REGULATIONS OF THE BANKS.**

--The Banks in the City of New York are open every day in the year, from 10 o'clock A. M. to 3 P. M., except Sundays, Christmas Day, New Year's Day, the Fourth of July, and general holidays appointed by legal authority.

### MEMORANDUM

TO: THE BOARD OF DIRECTORS

FROM: THE MANAGER

SUBJECT: REPORT ON THE PROGRESS OF THE WORK DURING THE YEAR 1914.

The following is a summary of the work done during the year 1914. The work has been carried out in accordance with the plan approved by the Board at its meeting on the 15th of January 1914.

The first part of the work has been the completion of the preliminary survey of the area. This has been done by the field parties under the direction of the Manager. The results of this survey are given in the report on the preliminary survey, which is attached to this memorandum.

The second part of the work has been the carrying out of the detailed survey of the area. This has been done by the field parties under the direction of the Manager. The results of this survey are given in the report on the detailed survey, which is attached to this memorandum.

The third part of the work has been the preparation of the maps and plans. This has been done by the office staff under the direction of the Manager. The results of this work are given in the report on the maps and plans, which is attached to this memorandum.

The fourth part of the work has been the preparation of the report on the progress of the work during the year 1914. This has been done by the office staff under the direction of the Manager. The results of this work are given in this memorandum.

The work done during the year 1914 has been carried out in accordance with the plan approved by the Board at its meeting on the 15th of January 1914. The results of this work are given in the reports attached to this memorandum.

THE BOARD OF DIRECTORS

THE MANAGER

REPORT ON THE PROGRESS OF THE WORK DURING THE YEAR 1914.

The following is a summary of the work done during the year 1914. The work has been carried out in accordance with the plan approved by the Board at its meeting on the 15th of January 1914.

The first part of the work has been the completion of the preliminary survey of the area. This has been done by the field parties under the direction of the Manager. The results of this survey are given in the report on the preliminary survey, which is attached to this memorandum.

The second part of the work has been the carrying out of the detailed survey of the area. This has been done by the field parties under the direction of the Manager. The results of this survey are given in the report on the detailed survey, which is attached to this memorandum.

The third part of the work has been the preparation of the maps and plans. This has been done by the office staff under the direction of the Manager. The results of this work are given in the report on the maps and plans, which is attached to this memorandum.

The fourth part of the work has been the preparation of the report on the progress of the work during the year 1914. This has been done by the office staff under the direction of the Manager. The results of this work are given in this memorandum.

The work done during the year 1914 has been carried out in accordance with the plan approved by the Board at its meeting on the 15th of January 1914. The results of this work are given in the reports attached to this memorandum.

the first of these is the fact that the

### INTERNAL MARKET

The Commission has proposed a series of measures to improve the functioning of the internal market. These include the abolition of the remaining barriers to trade between Member States, the strengthening of the legal framework, and the improvement of the administrative procedures. The Commission also proposes to set up a new body, the Internal Market Committee, to monitor the implementation of these measures.

The Commission also proposes to set up a new body, the Internal Market Committee, to monitor the implementation of these measures. This committee will be composed of representatives from the Commission and the Member States. Its task will be to ensure that the measures are implemented in a timely and effective manner.

The first part of the book is devoted to a general history of the United States, from the discovery of the continent to the present time. The author discusses the early explorations, the settlement of the colonies, the struggle for independence, and the formation of the Constitution. He also touches upon the various wars and conflicts that have shaped the nation's history.

The second part of the book is a detailed account of the American people, their customs, and their institutions. The author describes the social and economic conditions of the different regions, and the influence of the various ethnic groups. He also discusses the role of the press, the judiciary, and the executive branch of the government.

The third part of the book is a collection of biographies of some of the most important figures in American history. The author provides a comprehensive overview of the lives and achievements of these individuals, from the early settlers to the modern statesmen.

The fourth part of the book is a series of essays on various aspects of American history and culture. The author explores the role of religion, the influence of the arts, and the impact of the industrial revolution. He also discusses the challenges and opportunities that the United States faces in the future.

The fifth part of the book is a collection of letters and documents that provide a firsthand account of American history. The author includes letters from the Founding Fathers, as well as other important historical figures. These documents offer valuable insights into the thoughts and feelings of the people who shaped the nation.

The sixth part of the book is a series of statistical tables and charts that provide a quantitative overview of American history. The author presents data on population growth, economic development, and social progress. These tables and charts are essential for understanding the trends and patterns of American history.

The seventh part of the book is a series of maps and illustrations that provide a visual representation of American history. The author includes maps of the various regions and states, as well as illustrations of important historical events and figures. These maps and illustrations are essential for understanding the geographical context of American history.

The eighth part of the book is a series of appendices that provide additional information on various aspects of American history. The author includes a list of important dates, a list of important events, and a list of important figures. These appendices are essential for understanding the broader context of American history.

The ninth part of the book is a series of footnotes and references that provide additional information on various aspects of American history. The author includes a list of sources used in the book, as well as a list of references for further reading. These footnotes and references are essential for understanding the sources and reliability of the information presented in the book.

The tenth part of the book is a series of index and glossary that provide a comprehensive overview of the book's content. The author includes a list of key terms and concepts, as well as a list of page numbers for each term. These index and glossary are essential for understanding the book's content and for finding specific information.

- EXCHANGE FIRE**, 170 BROADWAY, NEW YORK:—Organized 1853; Capital, \$150,000; Dividends, February and August; James Van Norden, President; Rich'd C. Combes, Secretary.
- FARMERS' FIRE ASSOCIATION OF FULTON AND MONTGOMERY CO'S, PERTH**:—Incorporated April, 1853; Capital, \$2,-987,466; Patrick McFarlin, President; Hugh B. Major, Secretary.
- FARMERS' JOINT STOCK, MERIDAN**:—Incorporated March, 1861; Capital, \$50,000; Chauncey B. Laird, President; Grove H. Lawrence, Secretary.
- FARMERS' LIFE, GREENVILLE**.
- FARMERS' (MUTUAL), BUFFALO**:—President; Samuel Lake, Secretary.
- FIREMEN'S FIRE, 33 WALL STREET, NEW YORK**:—Organized July, 1825; Capital, \$204,000; Dividends, April and October; C. N. S. Rowland, President; John V. Harriott, Secretary.
- FIREMEN'S TRUST, BROOKLYN**:—Cash capital, \$150,000; George Hall, President; William Burrill, Secretary.
- FRANKLIN CO. (MUTUAL), MALONE**:—Albert Andrus, President; D. Huntington, Secretary.
- FULTON FIRE, OFFICES BROOKLYN (E. D.), AND 40 WALL STREET, NEW YORK**:—Chartered in 1853; Capital, \$200,000; Dividends, April and October; William A. Cobb, President; James M. Rankin, Secretary.
- GALLATIN FIRE, 96 BROADWAY, NEW YORK**:—Organized August, 1857; Capital, \$150,000; Dividends, June and December; David Clarkson, President; Henry Baldwin, Secretary.
- GEBHARD FIRE, 19 NASSAU STREET, NEW YORK**:—Organized 1857; Capital, \$200,000; Dividend, January and July; W. D. Waddington, President; John R. Smith, Sec.
- GERMANIA LIFE, 90 BROADWAY, NEW YORK**:—Huge Wcsendonck, President; Frederick Schwendler, Secretary.
- GLEN COVE (MUTUAL), GLEN COVE, L. I.**:—Capital, \$200,000; J. C. Townsend, President; E. Valentine, Secretary.
- GLENN'S FALLS, GLENN'S FALLS**:—Capital, \$190,000; P. Richards, President; R. M. Little, Secretary.
- GOODHUE FIRE, 17 WALL STREET, NEW YORK**:—Organized July 2, 1857; Capital, \$200,000; Dividends, January and July; Robert Bage, President; Frederick Macy, Secretary.
- GREAT WESTERN (MARINE), 33 PINE STREET, NEW YORK**:—Chartered July, 1855; Capital, \$500,000; Dividends, January and July; Richard Lathers, President; Douglass Robinson, Secretary.
- GREENWICH FIRE, 400 HUDSON STREET, NEW YORK**:—Organized November, 1834; Capital, \$200,000; Dividends, February and August; S. C. Harriot, President; James Harrison, Secretary.
- GROCCERS' FIRE, 48 WALL STREET, NEW YORK**:—Organized 1849; Capital, \$200,000; Dividends, March and September; Sampson Moore, President; James G. Platt, Secretary.
- HAMILTON FIRE, 11 WALL STREET, NEW YORK**:—Incorporated May 3, 1852; Capital, \$150,000; Dividends, January and July; Richard J. Smith, President; J. C. Winans, Secretary.
- HANOVER FIRE, 45 WALL STREET, NEW YORK**:—Chartered April, 1852; Capital, \$400,000; Dividends, January and July; Doras L. Stone, President; Benjamin S. Walcott, Secretary.
- HARMONY FIRE, 50 WALL STREET, NEW YORK**:—Organized December, 1853; Capital, \$150,000; Dividends, January and July; R. O. Glover, President; D. D. Gassner, Secretary.
- HOME FIRE, 112 BROADWAY, NEW YORK**:—Incorporated April, 1853; Capital, \$1,000,000; Dividends, January and July; Charles J. Martin, President; J. McGee, Secretary.
- HOME FIRE, 16 COURT, BROOKLYN**:—Capital, \$125,000; Walter S. Griffith, President; G. C. Ripley, Secretary.
- HOPE FIRE, 92 BROADWAY, NEW YORK**:—Chartered July, 1856; Capital, \$200,000; Dividends, January and July; Jacob Reese, President; Thomas Greenleaf, Secretary.
- HOWARD FIRE, 66 WALL STREET, NEW YORK**:—Incorporated March 9, 1825; Capital, \$250,000; Dividends, June and December; Samuel T. Skidmore, President; Henry A. Oakley, Secretary.
- HUMBOLDT FIRE, 10 WALL STREET, NEW YORK**:—Incorporated May, 1857; Capital, \$200,000; Dividends, January and July; William Mulligan, President; Alexander Wiley, Jr., Secretary.
- INDEMNITY FIRE, 50 WALL STREET, NEW YORK**:—Incorporated April 18, 1856; Capital, \$150,000; Dividends, February and August; John Hone, President; W. R. Sheldon, Secretary.
- INSURANCE COMPANY OF NORTH AMERICA, 74 WALL STREET, NEW YORK**:—Capital, \$500,000; Arthur G. Coffin, President; Chas. Platt, Secretary.
- IRVING FIRE, 9 WALL STREET, NEW YORK**:—Incorporated February 1, 1852; Capital, \$200,000; Dividends, February and August; Mason Thomson, President; Martin L. Crowell, Secretary.
- JEFFERSON FIRE, 60 WALL STREET, NEW YORK**:—Organized March, 1824; Capital, \$200,000; Shares, \$30; Dividends, March and September; Thomas Morrell, President; Samuel E. Belcher, Secretary.
- KINGS COUNTY FIRE, OF THE CITY OF BROOKLYN, 1 NASSAU STREET, NEW YORK**:—Capital, \$150,000; E. T. Beckhouse, President; Henry Pope, Secretary.
- KNICKERBOCKER FIRE, 64 WALL STREET, NEW YORK**:—Incorporated 1787; Capital, \$280,000; Dividends, June and December; William Tucker, President; George Hodgson, Secretary.
- LAMAR FIRE, 50 WALL STREET, NEW YORK**:—Incorporated December, 1856; Capital \$300,000; Dividends, January and July; Edward Anthony, President; Isaac R. St. John, Secretary.
- LENOX FIRE, 16 WALL STREET, NEW YORK**:—Organized 1853; Capital, \$150,000; Dividends, February and August; Geo. A. Jarvis, President; W. M. Franklin, Sec.
- LIVINGSTON (TOWN), LIVINGSTON**:—Incorporated July, 1858; Capital \$200,000; Thomas Miller, President, Henry Shear, Secretary.
- LONG ISLAND, BROOKLYN, AND 48 WALL STREET, NEW YORK**:—Chartered in 1833;

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is equivalent to the problem of finding a function  $f(x)$  which satisfies the conditions

$$f(x) = \int_0^x f(t) dt + g(x)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The second part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The third part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The fourth part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The fifth part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The sixth part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The seventh part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The eighth part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The ninth part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The tenth part of the paper is devoted to the construction of the function  $f(x)$ . It is shown that the function  $f(x)$  can be expressed in the form

$$f(x) = \int_0^x e^{-t} g'(t) dt + g(0)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

- Capital \$200,000; Dividends, January and July; B. W. De Lamater, President; Wm. W. Henshaw, Secretary.
- LORILLARD FIRE**, 104 BROADWAY, NEW YORK:—Chartered February, 1852; Capital, \$500,000; Dividends, February and August; Carlisle Norwood, President; J. G. Mills, Secretary.
- MANHATTAN FIRE**, 68 WALL STREET, NEW YORK:—Chartered March, 1821; Renewed 1836; Capital, \$250,000; Dividends, June and December; Wm. Pitt Palmer, President; Andrew J. Smith, Secretary.
- MANHATTAN LIFE**, 31 NASSAU STREET, NEW YORK:—Incorporated August 1, 1850; Cash capital, \$1,450,000; Dividends, February and August; Henry Stokes, President; C. Y. Wemple, Secretary.
- MARKET FIRE**, 37 WALL STREET, NEW YORK:—Incorporated February 16, 1853; Capital, \$200,000; Dividends, January and July; Asher Taylor, President; H. P. Freeman, Secretary.
- MECHANICS' FIRE**, BROOKLYN, AND 33 WALL STREET, NEW YORK:—Chartered in May, 1857; Capital, \$150,000; Dividends, semi-annually; Daniel Chauncey, President; Walter Nichols, Secretary.
- MECHANICS' AND TRADERS' FIRE**, 48 WALL STREET, NEW YORK:—Chartered April, 1853; Capital, \$200,000; Dividends, January and July; Walter Underhill, President; James R. Lott, Secretary.
- MERCANTILE FIRE**, 166 BROADWAY, NEW YORK:—Organized January 17, 1852; Capital, \$200,000; Dividends, January and July; Wm. A. Thomson, President; John Baker, Secretary.
- MERCANTILE MUTUAL**, 35 WALL STREET, NEW YORK:—Chartered April, 1842; Assets, \$931,150; Dividends, January and July; Elwood Walter, President; Charles Newcomb, Vice-President; C. J. Despard, Secretary.
- MERCHANTS' FIRE**, 106 BROADWAY, NEW YORK:—Organized 1850; Cap., \$200,000; Dividends, January and July; C. V. B. Ostrander, President; J. L. Douglass, Secretary.
- METROPOLITAN FIRE**, 108 BROADWAY, NEW YORK:—Incorporated October, 1852; Capital, \$300,000; Dividends, May and November; James Lorimer, President; E. A. Stansbury, Secretary.
- MONROE CO. (MUTUAL), ROCHESTER:—**Commenced 1836; L. B. Langworthy, President; Levi A. Ward, Secretary.
- MONTAUK FIRE, OF BROOKLYN, BROOKLYN, AND 168 BROADWAY, NEW YORK:—**Chartered in 1857; Capital, \$150,000; Dividends, January and July; William Ellsworth, President; A. M. Kirby, Secretary.
- MUTUAL BENEFIT LIFE**, 11 WALL ST., NEW YORK:—Capital, \$4,000,000; Lewis C. Grover, President; Edward A. Strong, Secretary.
- MUTUAL, BUFFALO:—**Capital, \$400,000; James C. Evans, President; J. L. Weatherly, Secretary.
- MUTUAL FIRE, EASTON.**
- MUTUAL, GAINESVILLE:—**Cyrus Jefferson, President; J. W. Bristol, Secretary.
- MUTUAL LIFE, OF NEW YORK**, 94 BROADWAY:—Incorporated April 12, 1842; Accumulated cash fund, \$5,350,000; Dividends every five years; F. S. Winston, President; I. Abbott, Secretary.
- NASSAU FIRE, OF BROOKLYN, OFFICES, BROOKLYN AND 12 MERCHANTS' EXCHANGE, NEW YORK:—**Chartered in 1852; Capital, \$150,000; Dividends, July and January; Wm. M. Harris, President; Abraham J. Beekman, Secretary.
- NATIONAL FIRE**, 52 WALL STREET, NEW YORK:—Incorporated 1838; Capital, \$200,000; Dividends, January and July; Wm. S. Thorne, President; Henry T. Drowne, Secretary.
- NEPTUNE**, 26 PINE STREET, NEW YORK:—Capital, \$300,000; J. P. Tappen, President; C. F. Wreaks, Secretary.
- NEW AMSTERDAM FIRE**, 20 WALL ST., NEW YORK:—Organized April 15, 1853; Capital, \$200,000; Dividends, January and July; David S. Manners, President; Wm. H. Dusenbury, Secretary.
- NEW WORLD FIRE**, 35 PINE STREET, NEW YORK:—Organized October, 1856; Capital, \$200,000; Dividends, February and August; Thomas A. Emmet, President; Samuel A. Patterson, Secretary.
- NEW YORK FIRE AND MARINE**, 72 WALL STREET, NEW YORK:—Chartered 1832; Capital, \$200,000; Dividends, February and August; O. H. Jones, President; D. Underhill, Secretary.
- NEW YORK CENTRAL, UNION SPRINGS:—**Incorporated January, 1863; Capital, \$50,000; Albert Beardsley, President; Joseph B. Clark, Secretary.
- NEW YORK EQUITABLE FIRE**, 58 WALL STREET, NEW YORK:—Chartered April 20, 1823; Capital, \$210,000; Dividends, January and July; Richard J. Thorne, President; John Miller, Secretary.
- NEW YORK LIFE**, 112 AND 114 BROADWAY, NEW YORK:—Incorporated in 1841; Assets, \$1,402,000; Dividends in January; Morris Franklin, President; Pliny Freeman, Actuary.
- NEW YORK LIFE AND TRUST CO.**, 52 WALL STREET, NEW YORK:—Incorporated March 9, 1830; Capital, \$1,000,000; Dividends, Feb. and August; David Thompson, President; Philip R. Kearny, Cashier.
- NEW YORK MUTUAL**, 61 WILLIAM STREET, NEW YORK:—Chartered April, 1842; Assets, \$650,000; Dividends in August; John H. Earl, President; W. P. Hansford, Sec.
- NIAGARA FIRE**, 67 WALL STREET, NEW YORK:—Incorporated August 1, 1850; Capital, \$200,000; Dividends, February and August; Jonathan D. Steele, President; P. Notman, Secretary.
- NORTH AMERICAN LIFE**, 63 WILLIAM STREET, NEW YORK:—Capital, \$100,000; N. D. Morgan, President; T. T. Merwin, Secretary.
- NORTH AMERICAN FIRE**, 6 WALL STREET, NEW YORK:—Incorporated January 1, 1836; Capital, \$500,000; Dividends, June and December; James W. Otis, President; R. W. Bleecker, Secretary.
- NORTH RIVER FIRE**, 202 GREENWICH, NEW YORK:—Organized February, 1822; Capital, \$350,000; Dividends, April and October; Peter R. Warner, President; John Hegeman, Secretary.
- NORTH WESTERN, OSWEGO, AND 60 WALL STREET, NEW YORK:—**Incorporated April,

SALAMANCA, do.	—	10.51 A. M.	6.19 P. M.	—
NEW YORK, Arrive	9.52 P. M.	8.22 A. M.	11.52 A. M.	2.45 P. M.

Connecting with Rail and Sound Lines to Bridgeport, New Haven, Hartford New London, Providence, Boston, and all the principal New England Towns and Cities.

**RATES OF FARE ALWAYS AS LOW AND TIME AS QUICK  
 AS BY ANY OTHER ROUTE.**

**SECURE TICKETS VIA ERIE RAILWAY,**

AND THUS AVAIL YOURSELF OF THE  
**MOST COMFORTABLE & DESIRABLE ROUTE BETWEEN THE EAST & WEST.**

**WM. R. BARR,**

Gen'l Passenger Ag't, New York.

**CHAS. MINOT,**

Gen'l Sup't, New York.

(Over.)

**PASSENGERS TAKING TICKETS**

BY THE

**ERIE RAILWAY**

Enjoy all the Modern Improvements in Railway Traveling.

THERE IS NO CHANGE OF CARS  
BETWEEN

**NEW YORK AND DUNKIRK OR BUFFALO,**

**AN ADVANTAGE POSSESSED BY NO OTHER LINE.**

**LUXURIOUS BROAD GAUGE SLEEPING CARS,**

ACCOMPANY NIGHT TRAINS, RUNNING THROUGH

**460 MILES WITHOUT CHANGE.**

Besides the advantages of a DOUBLE TRACK over nearly the entire Line, the Trains of the ERIE RAILWAY are under the control of an Exclusive Telegraph system, insuring great dispatch, perfect security and regularity in their movements, by which passengers avoid the detentions incident to other Routes made up of several independent corporations.

**IMPROVED SMOKING CARS, WITH EUCHRE TABLES,**

*Are attached to all Express Trains.*

**BAGGAGE CHECKED THROUGH**

**BETWEEN PRINCIPAL POINTS.**

**RATES OF FARE ALWAYS AS LOW AND TIME AS QUICK AS BY ANY OTHER ROUTE.**

Passengers holding Second Class Tickets go through with Express Trains.

**EXPRESS FREIGHT TRAINS**

Are run Each Way Daily over the Line, connecting with similar Trains on Western Roads, and making quicker time than any other Route.

**For THROUGH TICKETS or FREIGHT CONTRACTS**

### Season Tickets are sold subject to the following Rules and Conditions, which form part of the Contract of Sale.

Quarterly or yearly Tickets will be made to terminate on the last day of March, June, September or December. Monthly Tickets will be made to terminate with the last day of any month. They must in all cases be prepaid.

For not exceeding ONE month, 50 per cent of quarterly rates. For over one, and not exceeding TWO months, 75 per cent of quarterly rates. For over two, and less than THREE months, same as three. For over three, and less than TWELVE months, quarterly rates. For TWELVE months, 10 per cent discount from quarterly rates. No allowance made for absence or non-usage; but Yearly or Quarterly Tickets, having more than one month to run, may be surrendered, when 50 per cent of the then value will be refunded. Season Tickets are not transferable.

Persons passing over the road without a Ticket, are liable to a penalty; they also forfeit their claim to a Season Ticket.

Persons under eighteen years of age, whose sole business is to acquire an education, will be furnished with a Scholar's Ticket, TO BE USED FOR THAT OBJECT ONLY, at 60 per cent the above quarterly rates.

Holders of Season Tickets must present their Tickets for inspection, when so required by the Conductors, or pay the regular fare in the train, which will NOT BE REFUNDED.

Season Ticket Passengers are requested to deliver EXPIRED Tickets (on application for new ones) to Ticket Clerk.

Season Tickets are subject to the general regulations of the road, and do not entitle the holder to carry with him anything but his own PERSONAL BAGGAGE.

N. B.—The Corporation is not bound to advise Season Ticket holders of the expiration of their tickets.

E. B. PHILLIPS, Supt.

BOSTON AND WORCESTER RAILROAD

General Information regarding routes, fares, and schedules for the Boston and Worcester Railroad.

Table with multiple columns and rows, likely detailing train schedules, routes, and fares.

## NEW YORK CENTRAL RAILROAD.

## WESTERN ROUTE

TO

TROY, SCHENECTADY, UTICA, SYRACUSE,  
ROCHESTER, AUBURN, GENEVA,  
CANANDAIGUA, BERGEN, BATAVIA, BUFFALO, AND ALL POINTS WEST.

The NEW YORK CENTRAL RAILROAD, running the entire length and through the most populous part of the State, forms one of the greatest, oldest and best managed links of communication between the East and the West.

It has two Eastern termini, one at Albany and the other at Troy, connecting at Schenectady and running thence West through Utica, Rome, &c., to Syracuse, from which point there are two

roads running to Rochester, known as the "Direct Road," via Port Byron, Lyons, &c., and the "Old Road," via Auburn, Cayuga, Geneva, Canandaigua, &c. From Rochester there are also two roads running West, one through Lockport, &c., to Niagara Falls, and the other through Batavia, &c., to Buffalo. Also, a branch commencing at Buffalo and running along the banks of the Niagara River, through Tonawanda and the village of Niagara Falls to Lewiston; and likewise a branch from Tonawanda to Lockport.

At either ALBANY or TROY, passengers for New York and intermediate places connect with the Hudson River Railroad, Harlem Railroad, or (during the season of navigation) with North River Steamers. Passengers for Pittsfield, Springfield, Worcester, Boston, Hartford, New Haven, Providence, and intermediate places, connect with Western R. R. and its connections. Passengers for Saratoga Springs, Rutland, Burlington, Montreal and all places North, also connect by Railroad, from either Albany, Troy or Schenectady.

Passengers for Sharon Springs, leave the Central Railroad at Palatine Bridge, and go from there by stage. Those for Cherry Valley, Cooperstown and places South, leave at Fort Plain. Those for Trenton Falls leave at Utica and go by Railroad. Those for Watertown and places North connect with the Rome & Watertown R. R. at Rome.

At SYRACUSE the Central R. R. connects with the S. & B. R. R., running to the Erie R. R. at Binghamton. And with the O. & S. R. R., running North to Oswego.

At CANANDAIGUA with the E. C. & N. Falls R. R., running to the Erie R. R. at Elmira.

At ROCHESTER with the B., C. & N. Y. R. R., running to the Erie R. R. at Corning. And with Steamers for all ports on Lake Ontario.

At BUFFALO with Steamers on Lake Erie (during the season of Navigation). And with the Lake Shore R. R. to Erie, Cleveland, Sandusky, Toledo, and thence to Chicago by Michigan Southern R. R.

At NIAGARA FALLS passengers connect with the Great Western R. R. (Canada) to Detroit, and from thence to Chicago by Michigan Central R. R.

At LEWISTON & CHARLOTTE, passengers connect (during the season of navigation) with Steamers for Toronto and all ports on Lake Ontario.

# BUFFALO AND LAKE HURON RAILWAY.

Buffalo and Detroit Direct,  
VIA  
GRAND TRUNK R. R. FROM STRATFORD.

Two Express Trains Daily leave Erie St. Depot,  
Buffalo, on arrival of Trains from the East.

THE CONNECTIONS MADE ON THIS ROUTE ARE RELIABLE, THE  
DISTANCE BETWEEN BUFFALO AND DETROIT BEING  
SHORTER THAN BY ANY OTHER ROUTE.

Elegant Sleeping Cars, with most complete conveniences  
provided for the comfort of Passengers traveling  
by Night Trains.

NO CHANGE OF CARS BETWEEN BUFFALO AND SARNIA.

During Navigation, connection is made at GODERICH, C. W., with  
first-class Steamers plying between that port and  
SAGINAW, MACKINAW, MILWAUKEE,  
CHICAGO, and GREEN BAY.

By this route 400 miles water navigation is saved, the time is shorter, and  
FARE AS LOW AS BY OTHER ROUTES.

A. FELL, Gen. Man.,  
BUFFALO, N. Y.

T. W. BUSSELL, Gen. Ticket Agent,  
GEORGE OLDS, Freight Agent, Buffalo.

# THE LAKE SHORE AND MICHIGAN SOUTHERN R. R. LINE.

The American Lake Shore & Michigan Southern Railway Line commences at Buffalo, passes along the south shore of Lake Erie, through Dunkirk, Erie, Cleveland, and Toledo, terminating at Chicago—a distance of 538 miles. This great thoroughfare was opened for business in the summer of 1852, and was the first line of railway in successful operation, connecting the Atlantic Cities with the Great West. In all of its appointments it stands unequalled, and has ever been regarded by the traveling public as the favorite route between the East and the West.

At Buffalo, trains upon this line connect in Union Depot with trains of the New York Central Railway, thus forming a direct and desirable route between Niagara Falls, Rochester, Syracuse, Rome, Utica, Schenectady, Albany, Troy, Saratoga, New York, Boston, the New England States, and all points West. A connection is also made at Buffalo with the Erie Railway for Hornellsville, Corning, New York, Boston, and intermediate points.

At Niagara Falls passengers make a direct connection, morning and evening, with trains of this Line.

Passengers via River St. Lawrence and Lake Ontario steamers take New York Central cars at Lewiston, and thence to Buffalo.

At Dunkirk, passengers from New York, Boston, and intermediate points, via Erie Railway, connect in Union Depot with trains of this line.

At Cleveland, passengers for the South and Southwest connect in Union Depot with trains of the Cleveland, Columbus & Cincinnati Railway, and Sandusky, Dayton & Cincinnati Railway; also with Cleveland & Pittsburg Railway, for all points in Pennsylvania.

At Monroeville, with Sandusky, Mansfield & Newark Railway, for Mount Vernon, Newark, Zanesville, Wheeling, &c.

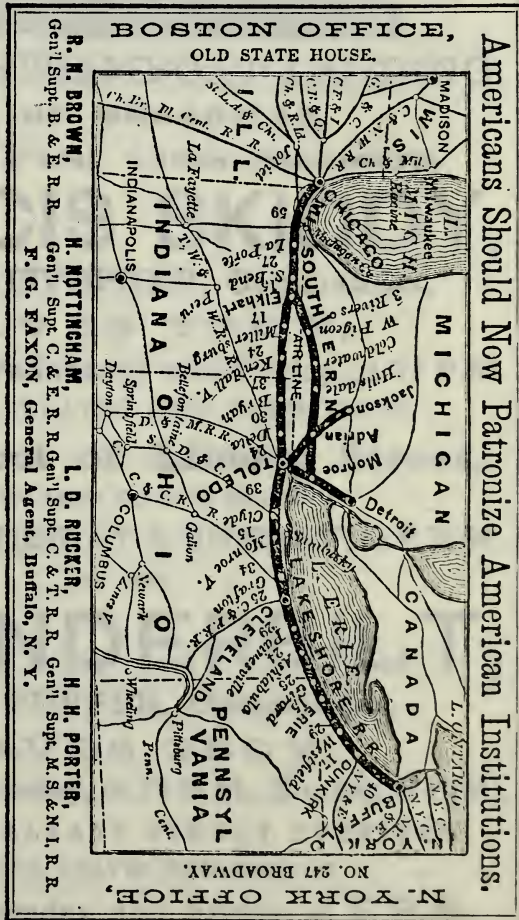

At Clyde, with Sandusky, Dayton & Cincinnati Railway, for Sandusky, Springfield, Dayton, Cincinnati, &c.

At Toledo, trains connect in Union Depot with Toledo & Wabash Railway, for Fort Wayne, La Fayette, Daville, Springfield, and the Southwest; also, with Express Trains for Detroit and Jackson.

At Chicago, trains are arranged so as to connect, morning and evening, with all the various lines from and to the West, North and South.

☞ Baggage checked through between the principal points East and West.

LUXURIOUS SLEEPING CARS accompany all night trains, and will run through between Cleveland and Chicago without change, making but one change between Buffalo and Chicago.

These ships are unusually lofty in the 'tween decks, and the ventilation and other means for the health and comfort of Passengers are made special objects of attention and care by the Owners. They are fitted on the most approved plan, with every practicable improvement which the experience of years suggests, and every arrangement is made to ensure the passengers' comfort and safety.

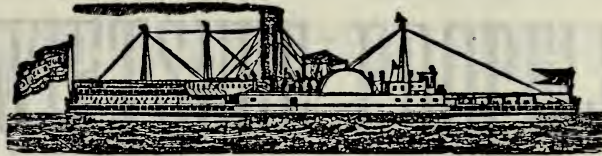

Passage payable in Gold, or its equivalent in U. S. Currency.

Sight Drafts issued at lowest rates, payable in England, Ireland, Wales or Scotland.

☐ Certificates issued for bringing out Passengers from Great Britain and Ireland to any part of the United States or British Provinces at the lowest rates.

## BETWEEN NEW YORK AND BOSTON, Via Newport and Fall River.

THE  
New York, Boston and Fall River Line,  
BY THE SPLENDID AND SUPERIOR STEAMERS  
**METROPOLIS, BAY STATE & EMPIRE STATE,**

Of great strength and speed, particularly adapted to the navigation of Long Island Sound, running in connection with the

### FALL RIVER AND OLD COLONY RAILROADS,

a distance of fifty-three miles to Boston only.

Leave New York, from Pier No. 3, North River, near the Battery,

### The Steamer **METROPOLIS**, Captain Brown,

on Tuesdays, Thursdays, and Saturdays, at 5 o'clock P. M. in the Summer, and 4 P. M. in the Winter, touching at Newport each way.

### The Steamer **EMPIRE STATE**, Captain Brayton,

on Mondays, Wednesdays, and Fridays, at 5 o'clock P. M. in the Summer, and 4 P. M. in the Winter, touching at Newport each way.

### The Steamer **BAY STATE**.

A Train of Cars to connect with these Boats at Fall River for New York, leaves Boston every afternoon from the Depot of the Old Colony and Fall River Railroad.

The Steamers of this Line are fitted with commodious state-rooms, and every arrangement for the security and comfort of passengers, who are afforded by this route a night's rest on board, and on arrival at Fall River, proceed per railroad again, reaching Boston early on the following morning.

A baggage master is attached to each steamer, who receives and tickets the baggage, and accompanies the same to its destination.

A steamer runs in connection with this line, between Fall River and Providence, daily, except Sundays.

Freight to Boston is taken at the same rates as by other regular lines, and forwarded with the greatest expedition, by an Express freight train, which leaves Fall River every morning (Sundays excepted), at 7½ o'clock, for Boston and New Bedford, arriving at its destination at about 11 o'clock A. M.

For freight or passage apply on board, or at the office on Pier 3, North River, where state-rooms and berths may be secured. Hereafter no rooms will be regarded as secured to any applicant until the same shall have been paid for. For further information apply to

Sails every Ten Days from New York and London.

The above named Ships are all too well known to require any recommendation; suffice it that the same attention to the comfort of Passengers, which has given this Line such world-wide popularity, will continue to be observed by both Captains and owners.

Persons wishing to send for their friends will please take notice that it is not necessary for them to wait for any Agent of Captains' letter, but as soon as they are ready, to go to Liverpool and present the Certificate at the Office, first apprising them of their coming.

Each Ship carries an experienced Surgeon. Liberal supplies of Provisions, of the best quality, served daily. When those sent for decline coming, the money is always refunded, on producing the Certificate and Receipt.

Persons living out of the City, and who wish to visit Europe, would do well to secure their Passage before leaving home, either from our Agent or by letter, enclosing a deposit; they will thus avoid being imposed upon on their arrival in New York.

**REMITTANCES TO ENGLAND, IRELAND, SCOTLAND, &c.**

LETTERS of CREDIT and DRAFTS, payable in any part of Great Britain and Ireland, or the CONTINENT of Europe, can always be obtained at the lowest rates; an experience of over twenty-five years has enabled us to perfect this branch of our business, so that of the millions of dollars remitted through us, not a single loss has occurred.

Persons in the Country, wishing to remit Money or send for their Friends, by inclosing us the amount they wish sent, with the name and address of the person to receive it—or, if for Passage, the names, ages and proper address of the parties to be sent for—the necessary Certificate or Draft will be promptly forwarded to the parties for whom it is intended, or returned to the party paying the money, with the Receipt for same, as they may desire.

Applicants for Information will please inclose a Post-Office Stamp, to insure prompt reply. For further particulars apply to

## AND READING ROOM.

ESTABLISHED IN 1849.

S. M. PETTENGILL & CO. are the Agents for nearly all the Newspapers throughout the United States and British Provinces, and they are regularly received and filed at their offices, where Subscriptions and Advertisements are taken for them.

All those who advertise are respectfully invited to call and examine the Newspapers, and their facilities for doing business.

### ADVANTAGES TO ADVERTISERS,

in doing their advertising through the Agency of S. M. PETTENGILL & CO., are in the saving of time, trouble, and expense, as well as doing it BETTER than the advertiser could do it for himself directly with the publishers, and they are enabled to satisfy the advertisers that their advertising is done.

An advertiser can know and have a selection made of the largest circulated newspapers, and those best adapted to his business.

The Agents will make out the price of the advertisement for any length of time before sending it, so that the advertiser may know the exact amount of his bill when due.

The Agents will see that each advertisement is inserted in the manner stipulated.

They will show the advertiser one copy of each paper containing the advertisement, and full files can be seen at their Offices, 37 Park Row, New York, and 10 State Street, Boston.

Practical information respecting the value of different mediums for advertising will be cheerfully communicated to those who are about advertising.

The bill is to be settled with the Agents, and their receipts are regarded as payments by the publishers, and accounts kept only with them.

The Agents give their personal attention to business. Having an experience in this business of more than twenty-four years, they feel themselves qualified to be of essential service to all who wish to advertise.

The prices charged will be the lowest prices at the office of publication, and in many cases we have special arrangements so that we can advertise at a much less rate than can be contracted for with the publishers.

They make no charge to advertisers, but are paid for their expenses and labor by the publishers.

They refer to all the publishers of the country, and to the largest and most successful advertisers.

Their Offices are

| Mirror—weekly, \$1 per annum in advance, G. A. Dodge.....                                      | <i>Marathon.</i>      |

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is equivalent to the problem of finding a function  $f(x)$  which satisfies the conditions

$$f(x) = \int_0^x f(t) dt + g(x)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = g'(x)$$

The second part of the paper is devoted to a detailed study of the function  $f(x)$ . It is shown that the function  $f(x)$  is a linear function of  $x$  and that the coefficient of  $x$  is equal to  $g'(0)$ . It is also shown that the constant term is equal to  $g(0)$ .

The third part of the paper is devoted to a study of the function  $f(x)$  in the case where  $g(x)$  is a polynomial. It is shown that the function  $f(x)$  is a polynomial of the same degree as  $g(x)$ . It is also shown that the coefficients of  $f(x)$  are determined by the coefficients of  $g(x)$ .

The fourth part of the paper is devoted to a study of the function  $f(x)$  in the case where  $g(x)$  is a transcendental function. It is shown that the function  $f(x)$  is a transcendental function. It is also shown that the function  $f(x)$  is not a linear function of  $x$ .

The fifth part of the paper is devoted to a study of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables. It is also shown that the function  $f(x)$  is not a linear function of  $x$ .

The sixth part of the paper is devoted to a study of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables and  $f(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables. It is also shown that the function  $f(x)$  is not a linear function of  $x$ .

The seventh part of the paper is devoted to a study of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables and  $f(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables. It is also shown that the function  $f(x)$  is not a linear function of  $x$ .

The eighth part of the paper is devoted to a study of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables and  $f(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables. It is also shown that the function  $f(x)$  is not a linear function of  $x$ .

The ninth part of the paper is devoted to a study of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables and  $f(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables. It is also shown that the function  $f(x)$  is not a linear function of  $x$ .

The tenth part of the paper is devoted to a study of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables and  $f(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables. It is also shown that the function  $f(x)$  is not a linear function of  $x$ .

The first part of the book is devoted to a general history of the United States from its discovery to the present time. It is divided into three volumes, each of which contains a complete history of the country from its discovery to the present time. The first volume covers the period from the discovery of the continent to the establishment of the first colonies. The second volume covers the period from the establishment of the first colonies to the declaration of independence. The third volume covers the period from the declaration of independence to the present time.

The second part of the book is devoted to a detailed history of the United States from its discovery to the present time. It is divided into three volumes, each of which contains a complete history of the country from its discovery to the present time. The first volume covers the period from the discovery of the continent to the establishment of the first colonies. The second volume covers the period from the establishment of the first colonies to the declaration of independence. The third volume covers the period from the declaration of independence to the present time.

The following table shows the results of the survey conducted in 2007. The data is presented in a tabular format, with columns representing different categories and rows representing specific data points. The table is organized into several sections, each corresponding to a different aspect of the survey. The first section, titled 'General Information', provides an overview of the survey's scope and objectives. The second section, 'Demographics', details the characteristics of the respondents, including age, gender, and education level. The third section, 'Attitudes and Opinions', explores the respondents' views on various issues related to the survey's topic. The fourth section, 'Behavioral Intentions', examines the respondents' plans and actions regarding the subject matter. The final section, 'Conclusions and Recommendations', summarizes the key findings and offers suggestions for future research and policy development.

The data indicates a strong correlation between the variables studied, suggesting that the factors investigated have a significant impact on the outcomes. The findings are consistent with previous research in this area, providing further support for the existing theories and models. The results also highlight the need for continued research and monitoring to address the challenges identified in the survey.

In conclusion, the 2007 survey has provided valuable insights into the attitudes and behaviors of the target population. The findings are both informative and actionable, offering a clear picture of the current state of affairs and a roadmap for future efforts. The data will be used to inform decision-making and to guide the development of effective strategies and programs.

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is equivalent to the problem of finding a function  $f(x)$  which satisfies the conditions

$$f(x) = \int_0^x f(t) dt + g(x)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = f(x) + g'(x)$$

The second part of the paper is devoted to the study of the properties of the function  $f(x)$ . It is shown that the function  $f(x)$  is continuous and differentiable. It is also shown that the function  $f(x)$  is bounded on any finite interval.

The third part of the paper is devoted to the study of the asymptotic properties of the function  $f(x)$ . It is shown that the function  $f(x)$  has the asymptotic expansion

$$f(x) \sim \sum_{n=0}^{\infty} \frac{g^{(n)}(0)}{n!} x^n$$

as  $x \rightarrow \infty$ . It is also shown that the function  $f(x)$  has the asymptotic expansion

$$f(x) \sim \sum_{n=0}^{\infty} \frac{g^{(n)}(0)}{n!} x^n$$

as  $x \rightarrow -\infty$ .

The fourth part of the paper is devoted to the study of the properties of the function  $f(x)$  in the case where  $g(x)$  is a polynomial. It is shown that the function  $f(x)$  is a polynomial of the same degree as  $g(x)$ .

The fifth part of the paper is devoted to the study of the properties of the function  $f(x)$  in the case where  $g(x)$  is a transcendental function. It is shown that the function  $f(x)$  is a transcendental function.

The sixth part of the paper is devoted to the study of the properties of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables.

The seventh part of the paper is devoted to the study of the properties of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables.

The eighth part of the paper is devoted to the study of the properties of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables.

The ninth part of the paper is devoted to the study of the properties of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables.

The tenth part of the paper is devoted to the study of the properties of the function  $f(x)$  in the case where  $g(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of several variables.

**AND INVENTORS.**  
**THE SCIENTIFIC AMERICAN,**  
 The best Mechanical Paper in the World.  
**NINETEENTH YEAR.**

The publishers of the SCIENTIFIC AMERICAN beg to announce that on the 1st day of January and July, each year, a new volume is commenced.

The SCIENTIFIC AMERICAN is devoted to the interests of Popular Science, the Mechanic Arts, Manufactures, Inventions, Agriculture, Commerce, and the Industrial pursuits generally, and is valuable and instructive, not only in the Workshop and Manufactory, but also in the Household, the Library and the Reading Room.

The SCIENTIFIC AMERICAN has the reputation, at home and abroad, of being the best weekly journal devoted to mechanical and industrial pursuits now published; and the proprietors are determined to keep up the reputation they have earned during the eighteen years they have been connected with its publication.

**CHEMISTS, ARCHITECTS, MILLWRIGHTS AND FARMERS!**

The SCIENTIFIC AMERICAN will be found a most useful journal to them. All the new discoveries in the science of chemistry are given in its columns, and the interests of the architect and carpenter are not overlooked; all the new inventions and discoveries appertaining to those pursuits being published from week to week. Useful and practical information pertaining to the interests of millwrights and mill owners will be found published in the SCIENTIFIC AMERICAN, which information they cannot possibly obtain from any other source; subjects in which planters and farmers are interested will be found discussed in the SCIENTIFIC AMERICAN; most of the improvements in Agricultural Implements being illustrated in its columns.

**TO THE INVENTOR!**

The SCIENTIFIC AMERICAN is indispensable to every inventor, as it not only contains illustrated descriptions of nearly all the best inventions as they come, but each number contains an Official List of the Claims of all the Patents issued from the United States Patent Office during the week previous; thus giving a correct history of the progress of inventions in this country. We are also receiving, every week, the best scientific journals of Great Britain, France and Germany; thus placing in our possession all that is transpiring in Mechanical Science and Art in those old countries. From those journals we shall continue to transfer to our columns copious extracts of whatever we may deem of interest to our readers.

**TO THE MECHANIC AND MANUFACTURER!**

No person engaged in any of the mechanical pursuits should think of doing without the SCIENTIFIC AMERICAN. It costs but six cents per week; every number contains from six to ten engravings of new machines and inventions, which cannot be found in any other publication. It is an established rule of the publishers to insert none but original engravings, and those of the first class in the art, drawn and engraved by experienced artists, under their own supervision, expressly for this paper.

**TERMS.**—To mail subscribers: Three Dollars a year, or One Dollar for four months. One Dollar and Fifty Cents pay for one complete volume of 416 pages; two volumes comprise one year. Specimen copies will be sent gratis to any part of the country.

Western and Canadian money or post-office stamps taken at par for subscriptions. Canadian subscribers will please to remit 25 cents extra on each year's subscription to pre-pay postage.

**MUNN & CO., Publishers,**  
 No. 37 Park Row, New York.

**FIFTEEN THOUSAND APPLICATIONS FOR PATENTS.**

Messrs. MUNN & CO., Solicitors of Patents, for the past sixteen years, still continue to act as Agents and Attorneys for all persons who desire to secure Patents for Inventions, either in this country or abroad.

The facilities and the unusual experience enjoyed by Messrs. MUNN & CO. have given them great success in procuring Patents. The Public Official Records show that more than one-third of all the Patents now annually granted by this Government are obtained by MUNN & CO. Since the establishment of our Agency, we have prepared more than FIFTEEN THOUSAND APPLICATIONS for Patents.

In the prosecution of rejected cases we have had far greater experience, and far greater success, than any other Agency in the United States. Our aim is to do business PROMPTLY and on MODERATE TERMS.

Specifications, Drawings, Caveats and Assignments carefully prepared. Interferences, Extensions, Appeals to the Courts, and all business connected with the obtaining of PATENTS, vigorously attended to. Searches of the Records, Copies of Claims, Patents, Drawings, etc., promptly obtained.

We have a Branch Office, corner of F and 7th streets, in the City of Washington.

Refer to the Hon. Judge MASON, the Hon. JOSEPH HOLT, the Hon. W. D. BISHOP, ex-Commissioners of Patents. Pamphlet of advice sent free by mail. Address, postpaid,

**MUNN & CO., Solicitors of Patents,**  
 No. 37 Park Row, New York City.

 Norwich Academy, Norwich, Milan L. Ward, Principal.  
 Oaks' Corners English and Classical School, Phelps, Ezra J. Peck, Principal.  
 Olean Academy, Olean, E. Weldman, Principal.  
 Oncida Conference Seminary, Cazenovia, Edward G. Andrews, Principal.

The first part of the paper is devoted to a general discussion of the problem. It is shown that the problem is equivalent to the problem of finding a function  $f(x)$  which satisfies the conditions

$$f(x) = \int_0^x f(t) dt + g(x)$$

where  $g(x)$  is a given function. It is shown that the function  $f(x)$  is uniquely determined by the conditions

$$f(0) = g(0)$$

and

$$f'(x) = g'(x)$$

The second part of the paper is devoted to a detailed study of the properties of the function  $f(x)$ . It is shown that the function  $f(x)$  is continuous and differentiable. It is also shown that the function  $f(x)$  is bounded on the interval  $[0, 1]$ .

The third part of the paper is devoted to a study of the asymptotic behavior of the function  $f(x)$  as  $x \rightarrow \infty$ . It is shown that the function  $f(x)$  has the asymptotic expansion

$$f(x) \sim \int_0^x g(t) dt + g(x) + o(1)$$

as  $x \rightarrow \infty$ .

The fourth part of the paper is devoted to a study of the properties of the function  $f(x)$  when  $g(x)$  is a polynomial. It is shown that the function  $f(x)$  is a polynomial of the same degree as  $g(x)$ .

The fifth part of the paper is devoted to a study of the properties of the function  $f(x)$  when  $g(x)$  is a trigonometric function. It is shown that the function  $f(x)$  is a trigonometric function of the same period as  $g(x)$ .

The sixth part of the paper is devoted to a study of the properties of the function  $f(x)$  when  $g(x)$  is a rational function. It is shown that the function  $f(x)$  is a rational function of the same degree as  $g(x)$ .

The seventh part of the paper is devoted to a study of the properties of the function  $f(x)$  when  $g(x)$  is an algebraic function. It is shown that the function  $f(x)$  is an algebraic function of the same degree as  $g(x)$ .

The eighth part of the paper is devoted to a study of the properties of the function  $f(x)$  when  $g(x)$  is a transcendental function. It is shown that the function  $f(x)$  is a transcendental function of the same type as  $g(x)$ .

The ninth part of the paper is devoted to a study of the properties of the function  $f(x)$  when  $g(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of the same type as  $g(x)$ .

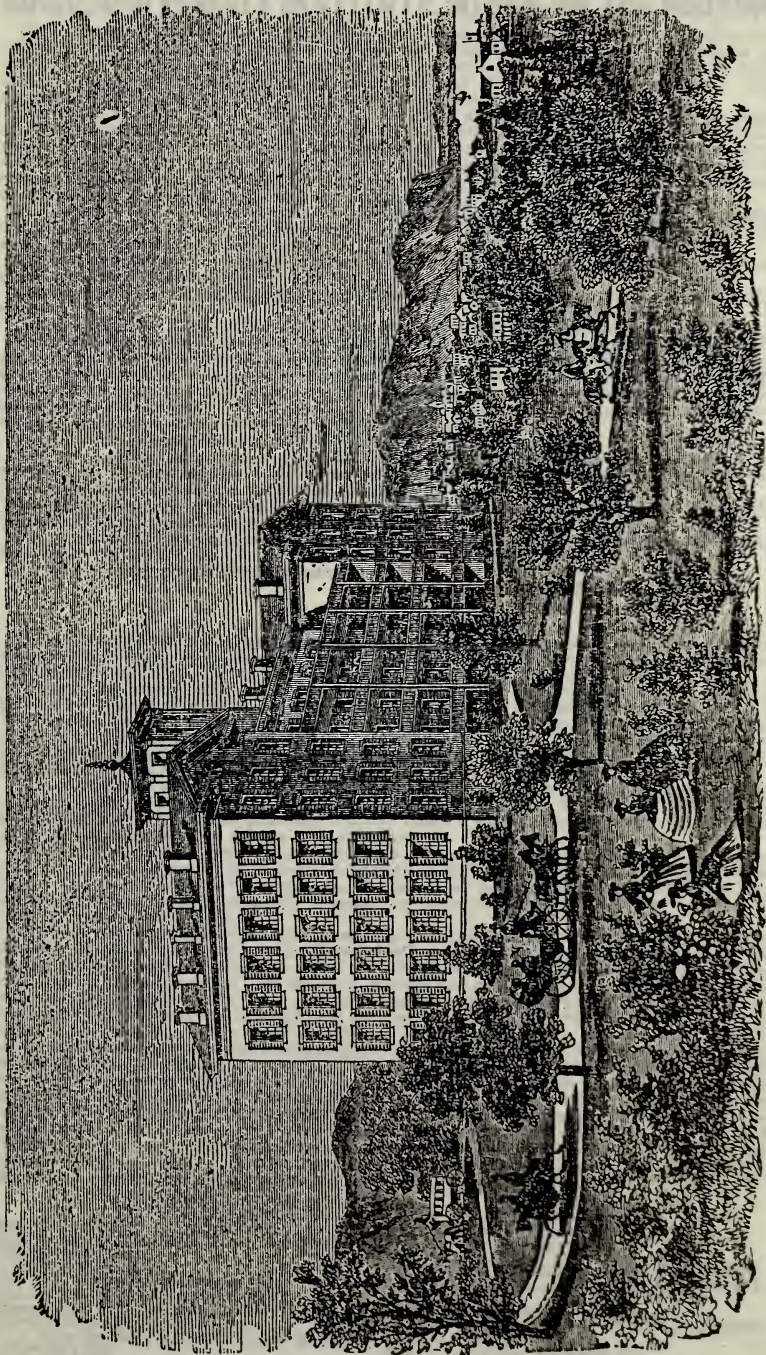

The tenth part of the paper is devoted to a study of the properties of the function  $f(x)$  when  $g(x)$  is a function of several variables. It is shown that the function  $f(x)$  is a function of the same type as  $g(x)$ .

ROCKLAND FEMALE INSTITUTE,  
NYACK, ON THE HUDSON.

## ROCKLAND FEMALE INSTITUTE, NYACK ON THE HUDSON.

The Institution is located at the village of Nyack, on the west bank of the Hudson, twenty-five miles from New York city, and is accessible by railroad and steambot from the city or any part of the country. The situation is one of the finest that even the Hudson can boast, and commands, in every direction, a view of mountain, valley, and river scenery of the rarest grandeur and beauty. The healthfulness of the climate is probably unequalled by that of any other part of the country.

The edifice is a fine, modern, brick structure, furnished with taste and elegance, and has ample accommodations for one hundred boarders. It is lighted with gas, heated by furnaces, thoroughly ventilated, and supplied throughout with pure water from a mountain spring. The grounds are extensive, embracing ten acres, and furnish every facility for recreation in the open air. The river, to the shore of which the grounds extend, has a fine beach; and a bath-house with commodious dressing rooms, has been erected, that pupils may enjoy the benefits of salt water bathing.

The Course of Study is full and systematic, embracing three departments: Preparatory, Academic, and Collegiate, and comprises, it is believed, all the branches, both practical and ornamental, which young ladies will find it desirable to pursue.

The Board of Instruction consists of twelve Professors and Teachers, and every department of the School is efficiently sustained.

Instrumental and Vocal Music, Drawing and Painting, and the Modern Languages, receive especial attention.

"Bassini's Method" for the culture of the voice has been adopted with eminent success.

The social organization of the school constitutes one of its chief excellencies. All the young ladies are under the immediate supervision of the Principals, and the discipline of the school is kind and parental in its character. The principals and faculty reside in the same building, and sit at the same table, with the pupils—an arrangement which contributes largely to the formation of correct social habits, and to the cultivation of refinement and elegance of manners. An experienced Matron presides over the entire domestic establishment, and order and neatness prevail.

In order to secure healthful and symmetrical development, a systematic course of physical training by calisthenic exercises, has been adopted, and has resulted in the marked improvement of many of the young ladies. Carriages and fine saddle horses are furnished for those who wish to ride, and other outdoor recreations are encouraged and liberally provided for.

The charges range from \$225 per annum upward, according to the branches pursued. Those desiring full particulars will please send for our Annual Catalogue.

The year is divided into three terms of 13 weeks each, but pupils are received at any time. During the summer vacation the house is open for the reception of genteel families as boarders.

For further information, or admission, address

L. D. & C. F. MANSFIELD, Principals.

### TESTIMONIALS.

"I am well acquainted with the Rev. Mr. Mansfield, and have great pleasure in stating that he enjoys my highest confidence, respect and esteem, and I feel assured that he will be able to command success, if ability and merit only are necessary."—LETTER OF HON. WM. H. SEWARD.

"We are glad to hear of the increasing prosperity of your school: it is an evidence that the world is not blind to the merits of some of her most deserving children. If Mrs. Seward would be separated from her daughter, she would send her to your Institute in preference to any other. I would not be surprised were she to go with Fannie for a season to your attractive place. \* \* \* Mrs. Wright says, there is no one she would so well like to have a daughter of hers with, as with yourself and Mrs. Mansfield."—LETTER OF MRS. L. M. WORDEN, (sister of Mrs. Wm. H. Seward.)

"I have known Prof. L. D. Mansfield for several years, and cheerfully express my opinion of his competency as a teacher, and his excellence as a Christian gentleman. I believe he will fulfill his duties with fidelity and great acceptableness, and shall expect a successful and popular administration at his hands."—LETTER OF REV. HENRY WARD BEECHER.

"From an acquaintance with the Messrs. Mansfield, I have no hesitation in expressing the highest regard for them as gentlemen, and a perfect confidence in their abilities and fitness as instructors of youth. Their establishment is beautifully situated, near one of the healthiest villages on the Hudson, and appears to be a model building, and to possess an unsurpassed location."—LETTER OF GIDEON J. TUCKER, Ex-Secretary of State.

"ROCKLAND FEMALE INSTITUTE.—The situation of this Institution is delightful, and the system of education adopted is, in every respect, an admirable one, and to young ladies who desire a quiet and pleasant retreat for study, offers superior attractions. The Rev. L. Delos Mansfield and his accomplished wife, with his brother, Professor C. F. Mansfield, who are now at the head of the Institute, are eminently qualified for the duties of their position. They have gathered around them an excellent and efficient corps of assistants. In no school have we ever seen a company of happier faces than are collected in this institute, or more confidence existing between teachers and scholars; more harmony among scholars themselves; such cheerful acquiescence in the rules of government, and more assiduous attention to study. To any one acquainted with the Messrs. Mansfield, it will be plain that this is due to the influence exerted on the school by their own genial minds. While there is evidence of close study and systematic instruction in this school, care is taken that the bodily health of the scholars is not endangered by confinement and over-stimulation of the brain. Much out-door exercise, when the weather permits, and calisthenics and sportive recreations, at stated hours, in-doors, under the eye of a teacher, are encouraged. But we trust we have said enough to induce those of our readers who feel an interest in female education, to make themselves better acquainted with the Rockland Female Institute and the accomplished gentlemen who preside over it."—Home Journal.

# ALBANY FEMALE ACADEMY

## And Boarding School.

This is one of the oldest institutions for the education of females in this country. Its Graduates and Pupils, many of whom have enjoyed its advantages from the very commencement of school life, are to be found in all parts of the land, and adorn the highest social positions.

The Trustees have spared no pains or expense in furnishing it with the most approved and complete appointments, and with a corps of Teachers believed to be unsurpassed in any similar institution.

In addition to its regular course of English studies, facilities are afforded for the acquisition of every accomplishment belonging to a liberal culture and complete education.

GYMNASTIC EXERCISES are daily practiced, under the direction of a Lady who devotes her whole time to the Department of Physical Education.

Parents wishing to place their daughters under the more especial care of the Principal, will find his residence one of the most beautiful and appropriate in the city, and may derive all the advantages of the best Boarding Schools.

### SPECIAL OPPORTUNITIES

for the acquirement of the FRENCH LANGUAGE are offered, as well as for the study and practice of

### MUSIC.

Further information, circulars, &c., can be obtained of the Principal, Rev. EBEN S. STEARNS, Ashgrove, corner of Broad and Westerlo Streets; at the Academy in North Pearl Street, or of any of the Trustees.

# TROY FEMALE SEMINARY.

The Troy Female Seminary, after nearly Fifty Years of successful operation, continues to offer to Young Ladies advantages of the highest character for a thorough and accomplished education, upon terms as favorable as can be obtained in any institution of its standing in the country. For particulars, apply to

**MR. or MRS. WILLARD, Principals, Troy, N. Y.**

THEON ZEIMWALDE SEMINAR

1874

**MAPLEWOOD  
YOUNG LADIES' INSTITUTE,  
PITTSFIELD, MASS.**

**REV. C. V. SPEAR, A. M., Principal.**

—♦♦—

The sessions are semi-annual, and commence on the first Thursday of October and April. For particulars, address the Principal.

**ST. JOHN'S COLLEGE,  
FORDHAM, NEW YORK.**

—♦♦—

St. JOHN'S COLLEGE, incorporated with the privileges of a University, is conducted by the Fathers of the Society of Jesus. It is situated in a picturesque and healthy part of Westchester County, thirteen miles from New York City Hall, and three from Harlem; easily accessible either by private conveyance, or by railway passing at the foot of the College lawn.

The faculty, including all those charged with giving instruction, comprises the President, Vice-President, and twenty Professors or Teachers, with nine Prefect of Discipline.

Instruction comprises two distinct courses, the Classical and the English or Commercial; besides a preparatory class in which beginners are fitted for either.

**TERMS.**

|                                                                   |          |
|-------------------------------------------------------------------|----------|
| Board and Tuition, per annum, payable half yearly in advance..... | \$200.00 |
| Washing.....                                                      | 15.00    |
| Physician's fees.....                                             | 3.00     |
| Use of Chemical and Philosophical Apparatus.....                  | 5.00     |

There is an additional charge of \$30.00 for students remaining during the Summer vacation.

**ARCADE ACADEMY,  
ARCADE, WAYNE COUNTY, NEW YORK.**

**REMARKS.**

The Trustees of Arcade Academy have the pleasure of announcing that this Institution is now ready to receive pupils, and will be under the direct supervision of Prof. J. W. EARLE, formerly Principal of Springville Academy.

This Academy is situated in the beautiful and healthy village of Arcade, and we venture to say is not excelled in beauty of architectural design or commodiousness of arrangement, by any similar Institution in Western New York, and it is the determination, on the part of the Trustees, to leave nothing undone to render the Academy one of the first in the State.

**DEPARTMENTS.**

There are two departments; the Ladies' and the Gentlemen's; but the pupils in each Department unite in classes, in branches pursued in both.

**FACULTY.**

J. W. EARLE, M. A., Principal, and Professor of Languages, Natural and Moral Science. THEO. B. SMYTH, B. S., Assistant, and Teacher in Mathematics and Natural Science. Miss EMILY RUNDELL, Preceptress. Miss MINERVA HUMPHREY, Assistant, and Teacher of Primary and Intermediate Classes. Miss OLIVE M. McCLOURE, Teacher of Drawing, Antique, Greek and Oil Painting. Miss MARY L. SHEDD, Teacher of Melodeon and Piano Forte.

**C. O. SHEPARD, Clerk.**

**LUTHER CUMMINGS, Pres.**

## Oswego Commercial College and Mathematical Institute,

Jefferson Block, West 1st Street, Oswego, N. Y.

The Sessions are annual; students can enter at any time during the year as they receive individual instruction.

The Board of Instructors are persons possessing a complete knowledge of and extensive experience in their respective departments.

Particular attention is given to the Ladies' Department, which is under the supervision of Mrs. C. P. Meads.

| Same Course in the Ladies' Department.....                                                                                                                                                                   | 20 00   |
| Book-keeping, three months.....                                                                                                                                                                              | 15 00   |
| Writing Scholarship for three months.....                                                                                                                                                                    | 10 00   |
| Penmanship alone, Forty Lessons.....                                                                                                                                                                         | 5 00    |
| Arithmetic, three months.....                                                                                                                                                                                | 5 00    |
| Extended, or Teachers' Course, as may be agreed upon. Tuition fee invariably paid in advance, when Scholarships are given, which entitles the holder to a life membership.                                   |         |

BOARD.—First class board in private families, with rooms, etc., \$2.50 to \$3.00 per week. Apply at the College rooms.

Stationery from \$2 to \$5 for the entire course. Banking Books extra.

Whole expense, for Tuition, Board, Stationery, etc., about \$60.

The Office and College are open from half-past 8 A. M., to half-past 4 P. M.; and from October 13th to April 1st, from 7 to 9 P. M.

Merchants, Manufacturers and Steamers can at all times be supplied with thoroughly trained and scientific Book-keepers, Salesmen, Copyists, Agents, etc., by applying to the Principal.

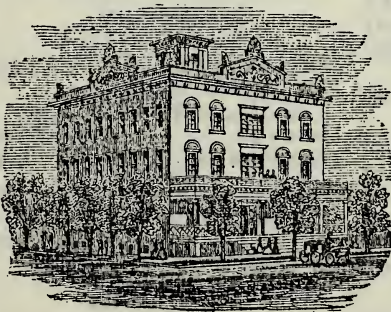

For Circular, Catalogue, or other information, address

C. P. MEADS, Principal.

## DEER PARK INSTITUTE, (FOR LADIES,)

Port Jervis, Orange Co., N. Y.

REV. I. H. NORTHRUP, Principal.

Scholastic year, forty weeks, commencing the third Wednesday of September. This institution affords better House, Rooms, Furniture and Table, than any School in this country. The Collegiate Course embraces three years.—Thorough instruction is given in every department proper to female education. Music, Drawing and Painting have special advantages. Although an excellent home is furnished, and superior advantages for learning, the price is moderate. The location, on the Erie Railroad, is exceedingly delightful and healthful.

## ROCHESTER COLLEGIATE INSTITUTE,

L. R. SATTERLEE, Principal,

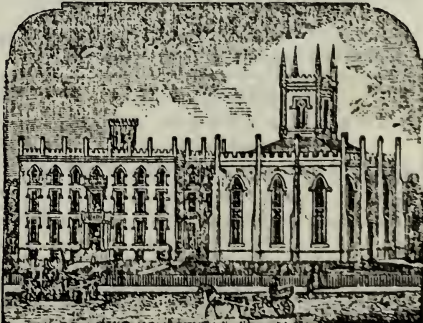

Corner of Atwater and Oregon Sts., Rochester, Monroe Co., N. Y.

To those desirous of being well prepared to enter College, or to take a high position in professional or commercial life, this institution affords a complete course of systematic study, based upon the most thorough discipline of the intellectual and moral powers. The superiority of its Classical instruction is widely known. Its Mathematical and other departments are equally efficient, being each conducted by a professional teacher of the highest order.

THE FEMALE DEPARTMENT, in charge of an experienced and highly accomplished preceptress, offers superior advantages to young ladies, to whom Diplomas are awarded on the completion of the prescribed course of study.

Young ladies from abroad are provided with the best accommodations in a boarding department, under the supervision of the Principal.

Circulars containing more particular information may be obtained by application to the Principal, Rochester, Monroe county, N. Y.

It was dedicated to St. Martin, Bishop of Tours, who was the first Bishop of the South Saxons, and who was the first who introduced Christianity into that part of the Island of Great Britain. The church was rebuilt by King Edward the Confessor, and was again rebuilt by King Henry the Third, who gave it to the Knights of the Hospital of St. John of Jerusalem. It was again rebuilt by King Edward the First, and was again rebuilt by King Edward the Third, who gave it to the Knights of the Hospital of St. John of Jerusalem.

**ST. MARTIN'S**  
 Church of St. Martin in Vintria, in the City of London, was founded by King Ethelbert, the first Christian King of the Saxons, in the year 597. It was dedicated to St. Martin, Bishop of Tours, who was the first Bishop of the South Saxons, and who was the first who introduced Christianity into that part of the Island of Great Britain. The church was rebuilt by King Edward the Confessor, and was again rebuilt by King Henry the Third, who gave it to the Knights of the Hospital of St. John of Jerusalem. It was again rebuilt by King Edward the First, and was again rebuilt by King Edward the Third, who gave it to the Knights of the Hospital of St. John of Jerusalem.

**THE AMERICAN REVOLUTION**  
 The American Revolution was a struggle for independence from British rule. It began in 1775 and ended in 1783. The revolution was fought for the principle of self-government and the right to life, liberty, and the pursuit of happiness. The Declaration of Independence was signed on July 4, 1776, and the Constitution was signed on September 17, 1787.

**THE AMERICAN WEST**  
 The American West was a region of vast territory that was explored and settled by Americans. It was a land of opportunity and adventure, where pioneers sought new lands and new lives. The West was a land of discovery and exploration, where the spirit of adventure and the desire for a better life led men to venture into uncharted territory.

**THE AMERICAN SOUTH**  
 The American South was a region of rich soil and fertile land. It was a land of plantation life and slavery. The South was a land of tradition and heritage, where the values of honor and duty were highly prized. The South was a land of contrast, where the wealth of the plantation owners stood in sharp contrast to the poverty of the slaves.

**THE AMERICAN NORTH**  
 The American North was a region of rugged terrain and harsh climate. It was a land of industry and commerce. The North was a land of progress and innovation, where the spirit of invention and the drive for economic growth were the dominant forces. The North was a land of contrast, where the wealth of the industrialists stood in sharp contrast to the poverty of the workers.

**THE AMERICAN WEST**  
 The American West was a region of vast territory that was explored and settled by Americans. It was a land of opportunity and adventure, where pioneers sought new lands and new lives. The West was a land of discovery and exploration, where the spirit of adventure and the desire for a better life led men to venture into uncharted territory.

The first of these is the fact that the  
 government has been successful in  
 maintaining a high level of  
 economic growth. This has been  
 achieved through a combination of  
 sound fiscal and monetary policy,  
 and a strong commitment to  
 social and economic reform. The  
 result has been a steady increase  
 in the standard of living, and  
 a reduction in poverty. This  
 has been a major achievement  
 of the government, and it is  
 a testament to the strength of  
 the country's institutions.

The second of these is the fact  
 that the government has been  
 successful in maintaining a high  
 level of social and economic  
 reform. This has been achieved  
 through a combination of sound  
 fiscal and monetary policy, and  
 a strong commitment to social

The following table shows the results of the research on the history of the United States, conducted by the author, during the period from 1860 to 1880. The table is divided into three columns: the first column contains the names of the states, the second column contains the number of years during which the research was conducted, and the third column contains the number of years during which the research was not conducted. The total number of years during which the research was conducted is 20 years, and the total number of years during which the research was not conducted is 20 years.

| State          | Years of Research | Years of Non-Research |
|----------------|-------------------|-----------------------|
| Alabama        | 1860-1869         | 1870-1879             |
| Arkansas       | 1860-1869         | 1870-1879             |
| California     | 1860-1869         | 1870-1879             |
| Colorado       | 1860-1869         | 1870-1879             |
| Connecticut    | 1860-1869         | 1870-1879             |

The first part of the book is devoted to a general history of the United States, from the discovery of the continent to the present time. The author discusses the various stages of the nation's development, from the early colonial period to the formation of the Union, and the subsequent growth and expansion of the country. He also touches upon the political, economic, and social changes that have shaped the nation over the centuries.

The second part of the book is a detailed account of the American Revolution, from the outbreak of hostilities in 1775 to the signing of the Treaty of Paris in 1783. The author provides a comprehensive overview of the military, political, and social aspects of the war, as well as the role of the various states and the Continental Congress. He also discusses the impact of the Revolution on the young nation and the development of its institutions.

The third part of the book is a history of the United States from 1783 to the present time. The author covers the period of the early Republic, the War of 1812, the expansion of the country, the Civil War, and the Reconstruction period. He also discusses the various movements and reforms that have shaped the nation, such as the abolitionist movement, the women's rights movement, and the labor movement. The book concludes with a discussion of the current state of the United States and the challenges it faces in the future.

IMPROVED SCHOOL HOT AIR FURNACE

# WILBUR F. STOCKING'S

(FORMERLY GEO. L. CANNON'S)

## IMPROVED SCROLL HOT-AIR FURNACE

*For Warming Public and Private Buildings.*

This Furnace, after having been subjected to the most severe practical tests during the past six years, is now established as one of the very best heaters in use. It has not failed in a single instance to give the most perfect satisfaction, as well in regard to quality as to quantity of heat; and as for economy in consumption of fuel, it is unsurpassed. We will guarantee to produce from the same amount of fuel, twenty-five per cent more heat than can be produced from any other furnace, and that, too, of a delightful and summer-like temperature. The air is not scorched or burned, as is generally the case in all other Hot-Air Furnaces (and hence the great objection to them), but is delivered into the rooms at a mild and uniform temperature, being more like that of a summer's day than anything else to which it can be compared.

By reference to the annexed cut, it will be seen that the space usually reserved for the hot-air chamber, is filled with small spiral coils, made of sheet iron, placed around the furnace, occupying the space between the furnace and the brick work or covering, serving as conductors to extract the heat from the fire chamber, multiplying the heating surface a thousand fold, and rendering the air soft, pleasant and agreeable.

By this means every particle of air that passes through the Furnace, is warmed to a proper temperature, but not burnt; the body of the Furnace is prevented from obtaining that red and glowing heat so general in other furnaces, thus causing the parts most exposed to last much longer than they otherwise would.

We are prepared to show that this principle, applied to ANY furnace, will produce from TWENTY-FIVE to THIRTY per cent more heat than can be obtained from the same furnace without it.

In addition to the advantages above named, we make use of very large cold and warm air flues, thus bringing a LARGE BODY of fresh air through the Furnace, and introducing it into the rooms in large quantities, and at a lower temperature than is generally the case with other Hot-Air Furnaces.

This is so plainly perceptible, that some of our patrons compare the heat to that produced by the best Hot Water Furnaces.

Estimates and plans given, and all work promptly executed.

MANUFACTURES

**Superior, Warranted, Case-Hardened Axles,**  
 WITH CASE-HARDENED, MALLEABLE BOXES.

Makes all kinds of Axles, either "Plain Taper," "Half Patent," or "Mail Patent," with either CAST IRON, or CASE-HARDENED MALLEABLE Boxes. The ONLY maker of CASE-HARD AXLES with CASE-HARD BOXES in the United States. The MALLEABLE BOXES are much lighter, and much STRONGER than CAST IRON boxes which are used by other makers, and being Case-Hardened, admit of much less friction, saves the hub, and admits a smaller hub than can possibly be used when cast iron boxes are used.

**WM. D. ANDREWS & BRO.,**  
**NO. 414 WATER ST., NEW YORK,**

Manufacturers, under WM. D. ANDREWS' Patents, of

**CENTRIFUGAL PUMPS, OSCILLATING ENGINES,**  
**VACUUM PUMPS AND FORCE PUMPS.**

Our **CENTRIFUGAL PUMPS** cost less, last longer, and require less power than any other style, and do what others can not—pump Corn, Coal, Sand, Gravel, &c., without injury or derangement. We make sizes from 20 gallons to 40,000 gallons per minute capacity. For **MINES, FACTORIES, TANNERIES, COFFER DAMS, CONDENSERS, WRECKING, &C.**, they are unequalled.

Our **OSCILLATING ENGINES**, for simplicity, durability, lightness, compactness, strength, cheapness, and economy, are unsurpassed, and leave the shop ready for use, and can be set anywhere without a special foundation.

Our **VACUUM PUMPS** are an adaptation of the Engine, are simple, cheap, and effective.

Our **FORCE PUMPS**, with two valves only, (in the piston), maintain a steady stream, always moving in one direction, saving power and avoiding all shocks, enabling them to run as high as 2000 strokes per minute with safety.

For further information, cuts and descriptive pamphlets, address as above.

# SUPERIOR CAST STEEL FILES,

Silver Medal.

Silver Medal.

Manufactured by the  
**WHIPPLE  
 FILE**  
 Manufacturing Co.,  
**BALLARD VALE,**  
**MASS.**

The following Testimonials attest the superiority of these Files over all others in use:

NOVELTY IRON WORKS, August 10, 1863.

We have used the Files made by the WHIPPLE FILE MANUFACTURING Co., exclusively at our works for six months past, and find them to be superior to any files we have ever used.

JAS. H. VAN RIPER,  
 Foreman Shop No. 1.  
 VICTOR DE M. UPHAM,  
 Foreman Shop No. 2.

MORGAN IRON WORKS, N. Y., Mar. 23, 1861.

This is to certify that I have used the files of the WHIPPLE FILE MANUFACTURING Co., Ballard Vale, Mass., and find them superior to any now in use.

JAMES SIMPSON,  
 Foreman Finishing Shop.

NEW YORK, August 10, 1863.

Having used the files made by the WHIPPLE FILE MANUFACTURING Co., I unhesitatingly pronounce them to be equal to any files I have ever used.

GEO. M. WOODWARD.

MORGAN IRON WORKS, Aug. 10, 1863.

I fully endorse all that Mr. Simpson has above stated concerning the superiority of the WHIPPLE FILES.

H. MASON,  
 Foreman Finishing Shop.

NEW YORK, September 1, 1863.

We have used the Machine Cut Files made by the WHIPPLE FILE MANUFACTURING Co., in our Pump and Steam Engine Manufactory for the past eighteen months, and consider them the best files we have ever used. We have also used their File stamped "Pemberton," and find them uniformly good.

WM. D. ANDREW & BRO.  
 DAVID G. STARKEY, Foreman, 414 & 452 Water Street.

NEW YORK, March 22, 1861.

We have given the Files made by the WHIPPLE FILE MANUFACTURING Co., Ballard Vale, Mass., a fair and impartial trial, and pronounce them, both as to finish and durability, far superior to any we have ever used, and shall continue to use them exclusively.

**THORP & BUDD'S  
PHENIX  
HEATER,**

**184 WEST 14th STREET,**

ONE DOOR EAST OF 8TH AV.,

**NEW YORK.**

**HEALTH SAFETY AND ECONOMY.  
FIRE PLACE HEATERS.**

Are acknowledged to be the safest and most economical mode of warming houses. No danger is to be apprehended from them, either to Ladies' dresses, or to children coming in contact with them; and are equally safe whether located in a wood or stone building.

It will be seen by the engraving, that the Heater is set in the Fire-place, presenting an ornamental appearance and occupying less space than a grate. The heat is conducted to the upper floors through the chimney, in tin pipes, and let into the rooms through the summer fronts. They can be put up in a few hours, with very little inconvenience to the occupants.

Delivered and set in any part of this City, Brooklyn, Jersey City and Hoboken, without extra charge.

**THORP & BUDD.**

Warranted to give perfect satisfaction.

ESTABLISHED, 1839.

**R. A. LEWIS,  
Celebrated Photographic Gallery,  
152 CHATHAM STREET, NEW YORK.**

**PHOTOGRAPHS IN EVERY STYLE OF THE ART,**

Copies from Daguerreotypes or Ambrotypes, from Miniature to Life Size, in OIL, PASTEL or ACQUAREL.

**CAUTION TO THE PUBLIC.**

As a certain individual, not far from 152 Chatham Street, has been in the habit of representing himself as Mr. LEWIS, in order to secure the paltry price of a picture from persons who inadvertently stray into his rooms, in looking for the long established GALLERY of R. A. LEWIS, I take this method of notifying the public that I have but ONE GALLERY, which is at 152 CHATHAM STREET. By bearing this fact in mind DECEPTION will be AVOIDED.

SOLE MANUFACTURER OF LEWIS & HOLT'S CELEBRATED

# BRIDGEWATER PAINT.

Established in 1850.

THIRTEEN YEARS IN USE.

IN FINE POWDER.

METALLIC PAINT,

A DRY,

**COLOR, A BRIGHT CHOCOLATE.**

**Water, Spark and Cinder-Proof.**

**Sold cheaper & warranted to stand longer than any Paint in the world.**

It is used with Linseed Oil and Dryers, the same as other Paints. One-third boiled and two-thirds raw Linseed Oil answers well.

**Wholesale Depot, No. 74 Maiden Lane,  
NEW YORK.**

Since 1850 the Bridgewater Paint, by the test of time, has earned an unequalled reputation. None is genuine except with the above TRADE-MARK, through our General Agent, at the Wholesale depot. It is especially worthy the attention of

Grain and Produce Merchants,  
Railway Superintendents,  
Steamboat Owners,  
Canal and Barge Proprietors,  
Farmers, Planters, Builders,  
Country Storekeepers, and  
Dealers in Paint in general.

The Bridgewater Paint is acknowledged by Painters and Owners, the Cheapest and most Durable Mineral Paint in the Market. It is the cheapest and best covering and preservative for Outside Work of every description—for Barns, Out-houses—especially adapted for Grain Elevators, Freight and Produce Cars, Steamboats, Barges, Canal Boats, and Iron Work of every description.

The Bridgewater Paint is a Durable and Elastic Paint, and cheap for Two Cents per Pound, by the Barrel, with a Liberal Discount to the Trade. Barrels weigh 400 to 460 pounds net. Also, half bbls., 200 lbs., 2½ cents; quarters, 100 lbs., 3 cents; eighths, 50 lbs., 3 cents.

☞ All orders or communications by mail will receive prompt attention.  
Address "Bridgewater Paint Depot, 74 Maiden Lane, N. Y."

**ROBERT REYNOLDS, General Agent.**

# PETER COOPER'S CLARIFIED SHEET and SHRED GELATINE,

An improved article, very extensively used for CALVES' FOOT JELLY, BLANC MANGE, TABLE and WINE JELLIES, and for JELLIFYING PRESERVES.

The Shred, with directions for using, is put up in small packages for family use, and is sold by all the principal Grocers and Druggists throughout the United States.

PETER COOPER,  
NEW YORK.

## HOUCHIN'S FAMILY PREPARATIONS!!!

Great care has been taken to perfect all my Preparations, and to save the public from worthless imitations; I have Protected them by Letters Patent, or Registration by Act of Congress.

### HOUCHIN'S FAMILY PREPARATIONS

Are the best of their kind, and are reliable, and warranted to give satisfaction.

#### WAX NIGHT LIGHTS

For the sick chamber and travelers; there is no better light. NO SMELL or SMOKE. Each light will burn eight hours.

#### NIGHT LAMPS.

A new and ingenious lamp for the above.

#### MONITOR FLOATING WAX TAPER,

To burn oil. These are the best tapers and float ever made.

#### LAUNDRY BLUEING (True Blue),

For Laundry and family use. This is a superior article. Put up in bottles, 3 sizes; also by the gallon; also in powder in round wood boxes.

#### LINEN POLISH.

This Polish gives to linen an extra stiffness and a superior finish, and with my "True Blue" forms two important articles which are used by Laundries and families.

#### Corn Solvent, Wart Curative, Toothache Drops and Rheumatic Cure.

The trade says of these four articles that no Patent Medicines that they have sold has given such general satisfaction.

For sale by dealers in Fancy Goods, Apothecaries and first class Grocers.

T. W. HOUCHIN, 278 Pearl St., New York.

**BOSS'**  
**AMERICAN**  
**CHEMICAL WRITING FLUID,**

*Manufactured at*

**BINGHAMTON, N. Y.**

Wholesale Depot, **KITCHEN, TYLER & CO.,**  
 No. 141 **CHAMBERS STREET,**  
**NEW YORK.**

THIS FLUID IS AN

**AMERICAN INK,**

*And was awarded a*

**DIPLOMA AND SILVER MEDAL**

**BY THE NEW YORK STATE FAIR IN 1862,**  
**AND BY THE OHIO STATE FAIR IN 1863.**

It is extensively used and highly recommended by Bankers, Merchants and Practical Penmen throughout the Loyal States. Warranted to be equal in fluidity and brilliancy of color to any Ink manufactured, and superior to ALL for a RECORD INK. For indelibility and permanency of color it has NO RIVAL.

When placed upon paper it is indestructible without destroying and defacing the tissue.

**184 West Houston St.,****NEW YORK.****REPAIRING PROMPTLY ATTENDED TO.**

This is one of the most simple and useful inventions of the age, it is not liable to get out of repair, and is so connected with the wash stand that it consumes no more room with it than the stand would without it.

The attention of Architects, Builders and Plumbers are particularly invited to this patent, and circulars will be furnished them on application, giving a full description of the practical workings of it. Address,

**SAMUEL BISSICKS,**

MANUFACTURER OF

**PLUMBERS' MATERIALS,**

MANUFACTURER OF

**ACCORDEONS,**

Concertinas and Mouth Harmonicas,

19 MAIDEN LANE,  
NEW YORK.

As regards the quality of my Concertinas and Accordeons, I beg leave to state that the greatest care is taken in manufacturing them. The woods used to make them are well seasoned, so that by change of climate or dampness the instruments will not suffer in the least; the wood so used has been on hand drying for many years, the tone is therefore durable and perfect in every respect.

Yours truly, DANIEL HESS.

## BOARDMAN & GRAY'S PATENT IMPROVED INSULATED IRON RIM AND FRAME

PIANO

FORTES.

WHOLESALE AND RETAIL, AT THE

Warerooms No. 543 Broadway, Albany, N. Y.,

AND AT THE FACTORY, CORNER OF BROADWAY AND NORTH FERRY STREET.

The INSULATED IRON RIM AND FRAME PIANO FORTES, are unequalled in all that constitute a

PERFECT INSTRUMENT.

They are all made under the supervision of Messrs. Boardman & Gray, who have been engaged in the business over 26 years. The public can therefore be assured that if experience is a criterion, all the combinations required to make a perfect instrument are blended in these. These Piano Fortes have received TWENTY GOLD MEDALS AND DIPLOMAS from the different Fairs and Institutes. An illustrated circular will be sent on application, from which a person can select, with full confidence that as good an instrument will be sent as if the person selected for himself.

Address,

WM. McCAMMON,

Successor to Messrs. BOARDMAN, GRAY & CO.,

## SCALES,

OF ALL SIZES AND DESCRIPTIONS.

R. GROOM, Agent.

28 LYDIUS AND 45 CHURCH STS., ALBANY, N. Y.

The following testimonial was received from PAUL A. SABBATON, Supt. Albany Gas Light Co. This is only one of the many equally flattering testimonials in my possession, showing the superiority of these scales over all others.

In the fall of 1855, I purchased of Mr. R. Groom, for the use of the Albany Gas Light Company, a 5000 lb. Dormant Warehouse Scale, of his manufacture. In the following spring, that having given good satisfaction, I purchased a four ton hay scale of the same manufacture. The next fall I purchased a six ton hay scale of Mr. Groom, and subsequently, another warehouse scale; all of which have given perfect satisfaction. I consider them as having no superior, if indeed equal, in the market.

PAUL A. SABBATON, Supt. Albany Gas Light Co.

☞ N. B. Repairing done in the most thorough and workmanlike manner, at short notice.

Analytical Laboratory,

ALBANY MEDICAL COLLEGE, May 2d, 1859.

I have made careful chemical examinations of several samples from different brewings of the article known as "MCKNIGHT'S MALT WINE," and find it to be, as represented, a liquid containing nothing but the fermented extract of malt and hops. The different specimens were found to be nearly uniform in composition—the slight difference observed being principally in the amount of alcohol present, owing probably to the varying length of time that had elapsed since the brewings were made.

The Malt Wine examined contained no excess of saccharine matters, such as sugar or honey (as is often the case with similar articles), and which have the effect to mask, to a more or less considerable extent, the peculiar flavor of the hop, and at the same time to diminish the medicinal value of the malt liquors in which they are found. The amount of alcohol contained in the "MALT WINE" is considerably greater than is generally found in American Ales. From the examinations I have made, I am satisfied that the "Malt Wine" is made from carefully selected barley and hops, and is skillfully brewed; that in point of purity, and all desirable qualities, it is fully equal to the best imported ales. As such I can confidently recommend it to the public as an agreeable beverage, and to Physicians as a desirable article for medicinal use.

CHARLES H. PORTER, M. D.

Professor of Chemistry and Pharmacy in the Albany Medical College,  
Chemist to the New York State Agricultural Society.

PATENT ROOFING.**

The IMPROVED PATENT ROOFING is beyond doubt one of the greatest inventions of the age. In view of its low cost, easy application, great durability, and exact adaptation to any climate by its expansion and contraction through the influence of heat and cold, it will unquestionably by far excel any Roofing now in use in the United States.

I would call attention to the following facts :

- 1st. It is FIRE AND WATER PROOF.
- 2d. From its great Elasticity, it is not affected by HEAT or COLD, which soon destroys either Tin or Slate Roofs.
- 3d. Its easy adaptation to all kinds of Roofs, either steep or flat, and it's not needing constant repairs.
- 4th. The cost is only about one half that of Tin or Slate, less than Shingles, and is twice as durable.
- 5th. It may be put over old Shingles, without removing them; it by far excels anything ever discovered for Steamboats, Railroad Cars, Foundries old leaky Tin Roofs or Slate; it is also a certain remedy for leaks around Chimneys, and where Roofs join other Buildings, Gutters, &c., &c.

The Inventor of this Compound has labored many years to combine articles, the properties of which are such as to obviate the well known difficulties of rust and decay attendant upon tin, shingles and slate, and their destruction by sun and frost. This he has succeeded in doing, as thousands stand ready to offer testimonials.

The experience of years has proved this Roofing to be

**B. F. LAWTON,**

Inventor and Manufacturer of

**ANTI-FRICTION METALS & METALLIC ALLOYS,**

By causing a development of the properties of lubricity therein, for JOURNALS, BOXES, AXLES, BEARINGS, and all other rubbing or friction parts of Machinery, without regard to the velocity of movements or the weight of the Journals.

The ingredients of each Metal or Alloy is carefully proportioned and prepared by a new system of treatment, which causes the development (in each Metal or Alloy), to properties equivalent to lubricity, hitherto unknown in Metals and Alloys. When understood will cause a revolution among the Manufacturers of Journals, Axles, Boxes, and other friction or rubbing surfaces of mechanism, and thereby producing a large saving in the oil required to lubricate the rubbing and moving surfaces, in the wear of the moving parts of machinery and in the friction attending the rubbing of any of the various surfaces in the practical operations of machinery.

**A MANUFACTURING ESTABLISHMENT CREDITABLE TO ROCHESTER.**

~~~~~  
THERE IS AT THE  
CORNER OF OAK AND JAY STREETS,  
IN THIS CITY,

*An extensive Manufacturing Establishment,  
Owned and Conducted by*

**MARTIN REED,**

Which is entitled to particular notice. Mr. REED has perhaps the most extensive cooperage in Western New York. He manufactures barrels from the blocks, cutting his heads and staves, and putting the work up complete. There is a heading machine capable of turning out three thousand heads per day, and stave machines to match, which complete the stave ready for the cooper to set up. About forty coopers are employed in putting up barrels, and they turn out five thousand barrels per week.

These shops are located on the bank of the Erie Canal, and the timber used is brought in by boats to the yard. He has a heading factory on Water Street, where the heads are cut from the logs and finished. Mr. REED buy his timber standing, in large quantities, and is thus enabled to manufacture barrels at the lowest possible cost. He takes into the woods Kidd & Co.'s famous portable steam saws and cuts up the trees by steam power only. He owns the canal boats used for conveying his stock to the city. His hoop stuff comes from Michigan, and much of his other stock down the Genesee Valley Canal. There are from seventy-five to one hundred men constantly employed in this establishment in taking the material from the woods and converting it into barrels complete, and we are told that this is the only establishment where the work is thus done.

Mr. REED manages the concern himself, and shows his practical knowledge in doing it so successfully. Everything is going smoothly in all the various branches of the concern. The barrels made are of excellent quality, and are sold in the city and abroad, many being shipped to other places by canal. The barrels are used for flour and for packing produce of various kinds—the barrel being the favorite method for packing many articles.

But there is another branch of business conducted by Mr. REED, which must not be overlooked, as it is important to the public to understand it. He has an extensive wood yard in connection with his barrel works, and fills all orders for fire wood which may be sent him, delivering it in such shape as may be wanted. He has a buzz saw constantly running, upon which fuel is sawed to any length, and split as fine as may be desired. This can be done much cheaper than by hand and with less trouble, in these days when wood sawyers are so scarce. This feature of this business of Mr. REED is an important one, and those who want wood ready for the stove will do well to send him their orders and try the experiment of getting such.—[Rochester Union and Advertiser.]

THE BOARD OF DIRECTORS OF THE

STREET RAILWAY COMPANY

OF THE CITY OF

MEMPHIS, TENNESSEE

# MARTIN BIRD

MEMPHIS, TENNESSEE, MAY 15, 1880

Dear Sir:

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the proposed extension of the street railway from the city to the suburbs. I have conferred with the Board of Directors and they are of the opinion that the proposed extension is not feasible at this time. I am, however, glad to hear that you are making progress in your other enterprises. I am, Sir, very respectfully,  
Yours truly,  
J. H. [Name]President

The attention of Heading and Shingle Makers is called to this superior machine for sawing Shingles, and both tight and dry Barrel Heading. It has met with marked favor wherever introduced, owing to its superior work as well as to its simplicity, durability and economy of power and timber. This machine has been thoroughly and severely tested during the past four years, and has been found to possess the following advantages:

*First.* Its simplicity renders it easily managed by any one capable of keeping a saw in order.

*Second.* Being fed by hand the operator has perfect control, and can regulate the feed according to the timber he is sawing; thus avoiding the expensive breakages caused by forcing the saw through curls, knots, &c., which is so great an objection to all self-feeders.

*Third.* It will average from two to three thousand more per day than any of the numerous machines with which it has been tried.

*Fourth.* It is thoroughly adapted both to Shingles and Heading, with a very slight adjustment, requiring but a few minutes.

*Fifth.* The power is applied directly to the work with an open belt.

*Sixth.* The saw is so guarded as to make it a safe machine to work with.

*Seventh.* This is the only machine capable of sawing both Shingles and Heading equally well.

*Eighth.* "Tight work" Heading can be cut in the best manner with it.

*Ninth.* No time need be wasted in shifting the position of the block, which is often necessary to cut the timber to the best advantage.

*Tenth.* Any desired thickness or taper is readily obtained.

*Eleventh.* It occupies a space of only three by five feet.

**GUITAR BANJO,**

**CLINTON AVENUE, ALBANY, N. Y.**

Sept. 14th, 1859.

We have fully examined and tried the qualities of the instrument invented by Mr. S. F. Van Hagen, and are fully satisfied of its merits and quality, and have no hesitation in saying that it is far superior in tone and execution to anything before introduced to the public. We have heard it tried by some of the most eminent professors of the Guitar and Banjo. Their opinion is unanimous in regard to it, and we feel certain that nothing of the kind has been offered to the public at all similar.

FIRTH, POND & CO.,  
547 Broadway, New York.

94 FOURTH AVENUE, NEW YORK, Sept. 12th, 1859.

To STEPHEN F. VAN HAGEN—Dear Sir—I called at Messrs. Firth, Pond & Co., and tested the quality of your instrument. I find a decided improvement on the Banjo; the tone being sweeter, while it is more powerful than the Guitar, and it has the same advantage in the power of modulating in all the different keys of music as the Guitar. The form of the head gives elegance and strength. Expecting it will become a favorite instrument,

I remain yours truly,

NAPOLEON W. GOULD,  
Guitarist at Bryant's, late of Wood's Minstrels.

**THE HERKIMER COUNTY**  
**Premium Cheese Press,**  
Made and Sold by **CHARLES OYSTON,**  
**LITTLE FALLS, N. Y.**

It is strongly built, very easily managed, not at all liable to get out of order, very durable—the working part being all iron, very powerful—requiring but a small weight on the lever. It is a **GENUINE PROGRESSIVE POWER PRESS**, pressing light at the beginning of the operation, and hard towards the end. It is a strictly Scientific Press, and at the same time perfectly simple. It presses the cheese perfectly true, as the press beam or follower comes down perfectly true on the surface of the cheese.

J. M. PUNDERSON.

E. TIFFANY.

THE  
**OLDEST & BEST**  
IN THE WORLD!

**CATTLE AND HORSES.**  
FOR

### CONDITION POWDERS.

*Have stood the test of twenty-three years, and there are thousands of Farmers and Horsemen who are ready to testify to their many virtues.*

Owing to the constant increase in the sale of these Powders we are enabled to offer them in a much larger and improved style than heretofore. Making them not only as cheap in quantity, but the best in quality of any Powder now in use.

These Powders, given in proportion to the circumstances of the case, will purify the blood, loosen the skin, and give a healthy action to every gland in the system, allay Fever and Inflammation, both general and local; curing Cough arising from any Affection of the Throat. They will cure a recent Founder in six or eight days, expel Worms of every description, and start a New Growth of Hair, and produce a healthy action in every part of the body.

For Horned Cattle it is all the medicine required; they will cure the Horn Distemper in all cases without boring the Horns or resorting to any other means. Every Cow should have one Powder immediately after Calving, and is a proper remedy for any fever before Calving. All working animals, both Horned Cattle and Horses, ought to have one Powder given them in the Spring, before feeding them for Spring work, as it will greatly increase their growth and strength.

FOR HORSE DISTEMPER, one of these given in the first stages, prevents all Fever, and hastens the discharge, and after the running begins to subside, one more should be given to carry off all humors and leave the glands of the throat healthy.

**CAUTION.**—As they are many imitations and counterfeits, see that you get them with signature of F. PUNDERSON, the original Proprietor on each Powder. None other genuine.

Prepared only by

**PUNDERSON & TIFFANY, Hudson, N. Y.**

# HYDRAULIC CEMENT DRAIN & SEWER PIPE

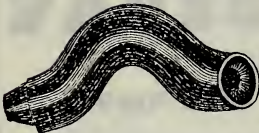

## COMPANY,

### A. C. PIERCE & CO.,

PATENTEES AND MANUFACTURERS,

Orders may be left at the Company's Factory in

**MOTT HAVEN, MORRISANIA, N. Y.**

This Company is prepared to furnish  
at the shortest notice, in any required

quantity, all sizes and shapes of Drain or Sewer Pipe, with every style of connection and branch, together with Stench Traps, Cesspools, Silt Basins, Water Closets, Well Pipe, and Curllis's Cistern Inlets, Ornamental Chimney Tops, Hot and Cold Air Flues, Water Filters, &c., all in the most approved styles.

The attention of Engineers, Architects, Builders and Plumbers is called to the merits of this pipe, it having been extensively used upon the Central Park and by the Croton Aqueduct Department, and upon many public and private works in this and other cities throughout the United States. We cite the critical and doubtful mind to the above parties for reference.

### PRICE LIST.

3 inch bore, 8 cents per lineal foot.	9 inch bore, 25 cents per lineal foot.
4 " " 10 " " " "	10 " " 30 " " "
5 " " 13 " " " "	12 " " 40 " " "
6 " " 16 " " " "	15 " " 62 " " "
7 " " 18 " " " "	18 " " 85 " " "
8 " " 20 " " " "	24 " " 1 25 " " "

24 x 19, oval, 1.25. 30 x 24, oval, 1.50.

Agriculturalists, manufacturers, and others, having occasion to drain land, reclaim marshy soils, or conduct water, will find this pipe peculiarly adapted to their purpose, and economical in its application. Among its many advantages are the following:—

- 1st. It is cheaper and will last longer than iron pipe, as it will not corrode or rust.
- 2d. It is superior to and cheaper than the best vitrified clay or earthen pipe, as it does not decay, but becomes harder and stronger by age and exposure to dampness.
- 3d. Its tubular form gives it an advantage over the common brick or stone drain as it neither clogs nor becomes choked by sediment.
- 4th. The patent *conical or beveled* joint, manufactured by this Company alone, renders it easily laid, (and at less expense,) insures a perfectly smooth interior and exterior surface, and equal and continuous bearing on the outside, (there being no flange projections,) thereby preventing leakage or fracture from unequal pressure and settlement. This joint is approved and strongly recommended by the most eminent engineers in the country.
- 5th. For *Sewers* in particular, this pipe possesses the great advantages of strength and durability, increasing with age. It can be made of any required size, of either the oval or circular form, and is both cheaper and stronger than either the earthen pipe or brick sewer.
- 6th. *Paper Manufacturers*, and others requiring perfectly clear water in their factories, may obtain an abundant supply from ordinary streams, by the use of one of the filters.

M. R. PIERCE, General Agent,

**Mott Haven, Morrisania, N. Y.**

HYDRAULIC CEMENT

DRAIN & SEWER PIPE

COMPANY

A. C. PIERCE & CO.,

MANUFACTURERS

100 NASSAU ST. N. Y. C.

 Manufacturer of

**Steam Engines, Mill Gearing  
 AND GENERAL MACHINERY,**

SOLE PROPRIETOR AND MANUFACTURER OF  
**POWELL'S PATENT**

**BOLT CUTTER,**  
 Warranted the best in use.

It is capable of cutting, accurately, Stay Bolts for Boilers, and all the Bolts required in the construction of a Steam Engine.

Confident of its superiority over all other Machines he will send them to responsible parties on trial, to be used by them for the space of one month, and at the expiration of that time to be returned or paid for at their option. If returned, no charge will be made. Its range is from  $\frac{3}{8}$  up to  $1\frac{1}{2}$  inches, and is capable of ready adjustment, so as to cut bolts of as uniform size as if cut with solid dies. It has, in trial, cut 60 bolts  $\frac{3}{4}$  inch diameter and 3 inches up in one hour.

ALSO, PROPRIETOR AND MANUFACTURER OF

**CRISSMAN & GILFILLINS' PATENT  
 UNIVERSAL LATHE CHUCK,**

*Which will be furnished on the same terms as  
 the BOLT CUTTER.*

THE  
**SALT COMPANY**  
**OF ONONDAGA,**  
**SYRACUSE, N. Y.**

Organized 1860. Capital, \$160,000.

GEO. F. COMSTOCK, President. J. W. BARKER, Secretary.  
 WM. WINTER, Treasurer.

This company is the lessee of all the Salt property in the Onondaga Salt Springs Reservation, (with the exception of four worn Salt Fields), comprising 316 fine Salt Blocks owned by individuals, and 26 Solar or Coarse Salt Fields owned principally by incorporated Companies, besides several mills for the manufacture of Dairy Salt. These works and fields are operated exclusively by the Company. Their production was OVER NINE MILLIONS BUSHELS in the season of 1862, and about the same amount will be manufactured the present year, 1863.

The product of three of the four fields above mentioned as not in the Company, is contracted to it for the term of its organization; thus making the SALT COMPANY OF ONONDAGA virtually the sole dealer in, as well as the sole manufacturer of, Onondaga Salt.

It has been our aim, regardless of cost, to make our wares as good as they could be made, and in view of the good reputation our manufactures have attained, it has induced other parties, with name of firm in part like ours, to enter into the same business as competitors. We have no controversy with parties that do their business on their own firm and credits as manufacturers, but we take exceptions to their sailing under our colors, and selling their wares as emanating from our establishment. We caution the public to be sure they are buying from FORSYTH & CO., the successors to DURYEE & FORSYTH. Our agents have certificates of authority. Orrin Forsyth, one of the partners of the late firm of Duryee & Forsyth, has the management of the manufacturing department, and an experience of over (20) twenty years in the business is a guarantee that all their wares will be as perfect and as reliable as any other in the market. All orders addressed to us will be promptly attended to.

# LAKE AVENUE NURSERIES,

C. J. MILLS, Proprietor,  
ROCHESTER, N. Y.

These Nurseries are situated two and one-half miles North of the city of Rochester, on Lake Avenue, and are accessible by public conveyance. They contain one of the choicest collection of

**F R U I T**

And

# ORNAMENTAL TREES,

That can be found in the United States. In connection with the Nurseries are extensive specimen grounds, planted with thoroughly tested varieties of choicest Fruits in bearing, from which all scions and buds are cut—this being the only true method of keeping the stock genuine. The health and vigor of the stock is unrivaled, being raised in soil which affords the trees numbers of small fibrous roots, and being exposed to all the changes of temperature caused by the winds from Lake Ontario. Trees thus hardened by nature are found to succeed better in Northern and Southern climates. To Nurserymen and dealers in Trees this establishment offers great inducements, as the stock is one of the most extensive in the country.

Orders by mail will receive prompt attention when addressed to

C. J. MILLS,  
ROCHESTER, N. Y.

# MONROE NURSERIES

## JAMES WENTZ,

Wholesale and Retail Dealer in

# ORNAMENTAL AND FRUIT TREES, GRAPE VINES AND SMALL FRUITS, ROSES, DAHLIAS, SHRUBS, PAEONIES, EVERGREENS, HERBACEOUS PLANTS, AND FLOWER SEEDS.

A FULL ASSORTMENT OF CHOICE BULBOUS ROOTS ON HAND.  
OFFICE, 123 MONROE STREET,

Situated between Alexander and Meigh Streets,

ROCHESTER, N. Y.

I solicit the attention of correspondent to the following, as it will frequently save much time and trouble:

Orders sent before the commencement of the digging season, are generally served first, as it gives us more time to select the plants called for.

We usually commence the digging and packing about the first of April, and from the first to the tenth of October.

All my trees and plants are taken up with great care, and packed carefully with moist moss, by competent men, so that all plants and trees, may reach their destination in perfect safety.

### CATALOGUES.

The following Catalogues will be furnished gratis to all applicants, who enclose a two cent postage stamp for each.

No. 1. Descriptive Catalogue of Fruit.

No. 2. Of Ornamental Trees, Shrubs, Roses, &c.

No. 3. Descriptive Catalogue of Fruit (German)

## D. W. LEARY'S FANCY DYEING AND SCOURING ESTABLISHMENT,

Mumford Street, Opposite the Gas Works, Rochester, N. Y.

D. W. LEARY has located his NEW DYEING ESTABLISHMENT at a point very central and convenient for business, on Mumford Street, opposite the Gas Works, and is prepared to execute a large share of the Dyeing which has heretofore been compelled to go to older houses, although located at an inconvenient distance from the business centre. His long experience in this city, together with the fact that he gives his undivided attention to his work, and IS HIS OWN OPERATOR, enables him to appeal to the public with the greatest confidence for a fair share of their patronage. He feels grateful for the very liberal patronage already extended to him, and hopes for its continuance and increase. And he pledges himself that all orders entrusted to him shall be faithfully and promptly executed in the best manner.

As it has been intimated by some that he is connected with another establishment in another part of the city, bearing a similar name, I would inform the public that I have no connection with it, and desire none.

As to the mean, dishonorable, and crushing out spirit shown by a rival establishment, and its base charge of counterfeit signs, &c., I will have nothing to state except that they seem like some of those contemptible methods usually adopted by those who are too avaricious and mean to allow quietly a fair and honorable competition in business, and that I seek by promptness and the good quality of my work, rather than by such contemptible flings of a rival, to give character to my establishment.

D. W. LEARY, Proprietor New Dye House,  
MUMFORD STREET, OPPOSITE THE GAS WORKS, ROCHESTER, N. Y.

# LAWLER & DOUGHERTY'S HEADING MACHINE,

For Making Turned Barrel Heads.

This Patent last year received the FIRST PREMIUM OF A SILVER MEDAL AT THE NEW YORK STATE AGRICULTURAL FAIR, and now stands unrivalled for the amount of work that can be performed with it. In ten hours this machine turned out 6812 heads, at the shop of J. H. Wilson, of the city of Rochester, N. Y., to whom we refer for the correctness of our statement. Many of them are in operation throughout the country. We refer to J. H. Wilson, M. Brayer & Co., Rochester, N. Y.; Capt. Fulton, Monroe County Penitentiary; Edwards & Wells, Lockport, N. Y.; The Akron Barrel Co., Akron, Ohio; and to ten

Machines put up within the last year at Syracuse, all now in successful operation.

ACER, DOUGHERTY & CO., Rochester, N. Y.

## THE AMERICAN HOOP COMPANY

Are now ready to sell and lease Territory and furnish Machinery for the manufacture and sale of the PATENT CUT AND COILED HOOPS. These Hoops have been used by the best Coopers in the United States and Canada, and are pronounced to be equal if not superior to the Racked Hoops for dry or tight Barrels. These Hoops can be Manufactured fifty per cent cheaper than Racked Hoops.

Address,

AMERICAN HOOP COMPANY,

ROCHESTER, N. Y.

ACER, DOUGHERTY & CO.,

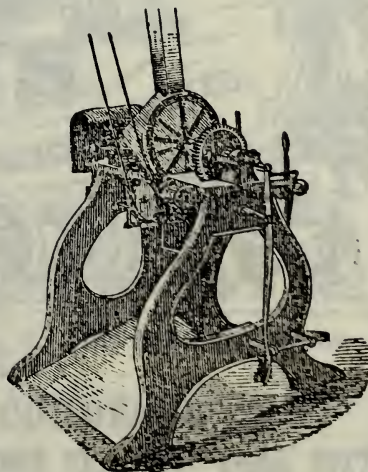

BARREL MACHINERY.

## DOUGHERTY & LAWLER'S PATENT SAWING MACHINE,

For Sawing Shingles and Heading.

Capable of sawing from 10 to 12000 heading, and from 15 to 20,000 shingles per day, and standing unrivalled for the ease and certainty of its operations.

For reference as to the practical operation of these Machines, we refer to F. & R. Kern, proprietors of the Stave and Heading Factory, New Baltimore, Mich.; Groton & Parmely, Black Rock, N. Y.; E. Clark, Agent of the Salt Company, Salina, N. Y.; Hiram Defendorf, Seneca Falls, N. Y.; O. Buell, Spencerport, N. Y.; and A. D. Webster, Conesus, N. Y.

# LAWLER & DOUGHERTY'S HEATING STOVE

For Making Tinned Baked Beans

This is a new and improved  
stove for making tinned baked  
beans. It is made of  
heavy iron and is  
designed to heat  
tinned beans in a  
short time. It is  
very simple to use  
and is a great  
savings in time and  
fuel. It is  
sold by  
Lawler & Dougherty,  
100 Broadway,  
New York.

# THE AMERICAN HOOP COMPANY

This company manufactures  
hoops for barrels and  
casks. The hoops are  
made of the best  
material and are  
guaranteed to be  
strong and durable.  
They are sold by  
The American Hoop Company,  
100 Broadway,  
New York.

# J. DECKER, MECHANICAL ENGINEER AND MACHINIST,

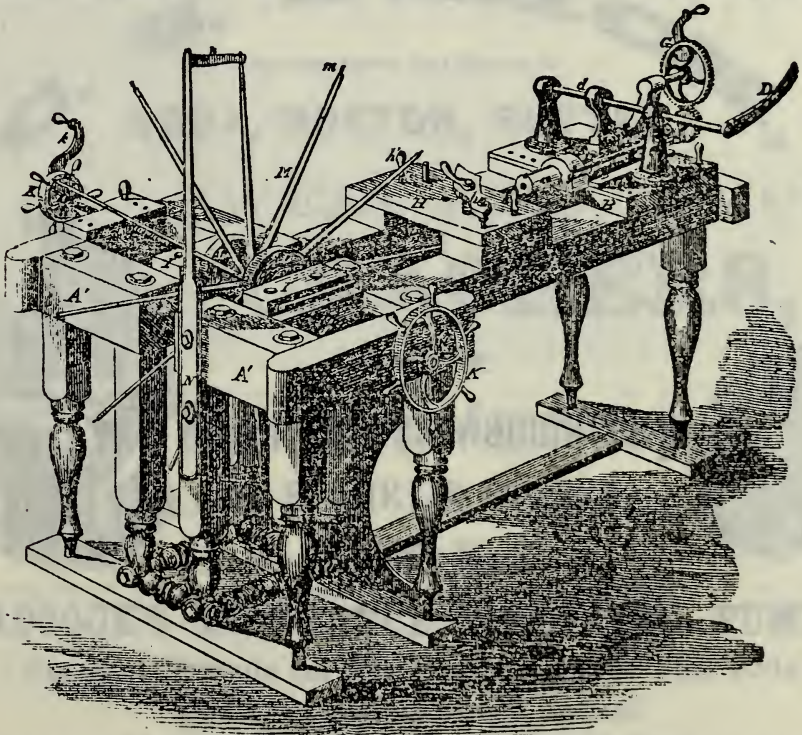

Manufacturer of

## STEAM ENGINES, BOILERS, &C., &C.

Also, Sole Manufacturer of

## C. H. GUARD'S PATENT WHEEL MACHINE.

This machine combines within itself all the parts requisite for the putting together and fitting into their proper places, true and exact, all the different portions of a carriage wheel, and the operation is very simple. It is constructed upon an entire different principle from any heretofore invented for this purpose, as it enables the operator to put the wheel together entire, without changing the location of the hub, thus entirely doing away with the numerous changes necessarily attending the ordinary way. They are intended to be worked by hand, but can be operated by power, with equal advantage and economy if desired.

(From the Scientific American, April 17, 1855)

We have seen the hubs bored and morticed, the spokes driven in and tenoned and the felloes bored of three sets of wheels, of six large wheels and six small ones, in between six and seven hours, by one man on these machines. We believe that it is one of the most useful machines for carriage builders and wheel wrights ever yet produced.

For circulars, giving a more complete description. Address,

TROY, N. Y.,

CHARLES H. JONES, Proprietor.

The attention of the public is particularly invited to this beautiful house, equal to any hotel in the country, and far superior to any in the city of Troy. It is pleasantly and conveniently located on the

**CORNER OF FIRST AND RIVER STREETS,**

Nearly opposite the Steamboat Landing, and a few rods from Union Railroad Depot.

The proprietor confidently assures his numerous friends and the public that they will meet with every comfort, luxury and desirable convenience at his house which can be found at any Hotel in the country. The house has recently been enlarged and entirely rebuilt, with all the modern improvements added, and is perfect in all its departments. It is newly furnished throughout in the most expensive and luxurious style. The bedrooms are alcove, lighted with gas, and furnished with spring mattresses of the latest style; and bathing rooms and water closets on every floor. **A SPLENDID RESTAURANT HAS RECENTLY BEEN ADDED TO THIS HOTEL ON THE PLAN OF THE CONTINENTAL HOTEL IN PHILADELPHIA.** Gentlemen with their families, and others will find the Troy House all that is desired.

**Carriages in attendance to convey Passengers to and from this House free of charge.**

# A. CHAPMAN,

## Freight and Forwarding Agent,

PIER 16 NORTH RIVER,  
NEW YORK.

Freight Promptly forwarded. }  
Insurance effected, &c. }

Post Office Address, Box 1132.

The subscriber respectfully solicits consignments of property for re-shipment—from all sections of the country, by any route, and at all seasons of the year, which will invariably be forwarded to destination with care and despatch.

Special attention given to trans-shipment of Steam Engines and Boilers, Safes, Bells, Mill Stones, and Gearing, and Machinery of all kinds; Piano-fortes, Looking-glasses, Trees and Shrubs, and all articles of a perishable nature. Bills of Lading will be taken for all goods shipped, and copies mailed to consignors and consignees.

Open policy kept with one of our oldest and strongest Insurances Companies for the convenience of customers desiring Marine insurance; for effecting which, no charge (beyond actual premium) will be made.

Parties engaged in business or manufacturing at the South, South-west and West, will find it to their advantage, when ordering Merchandise, Machinery, &c., from the Northern and Eastern States, to instruct their correspondents to mark and consign packages to my care, in New York, and thereby secure their prompt trans-shipment.

To those favoring me with their patronage, I would say that no effort will be wanting on my part to merit their approval.

Packages should be marked

Care of A. CHAPMAN, New York,

And a duplicate Receipt or Bill of Lading, or letter advising of shipment, mailed to

A. CHAPMAN, Box 1132, New York,

Which will insure prompt attention.

**A. CHAPMAN.**

# MEMORANDUM

## MEMORANDUM FOR THE BOARD OF DIRECTORS

### RE: [Illegible Title]

DATE: [Illegible]

TO: [Illegible] FROM: [Illegible]

[Illegible text block containing the main body of the memorandum, including a summary of the issue and proposed actions.]

Very truly yours,  
 [Illegible Signature]

[Illegible text block containing additional notes, dates, and possibly a list of items or a table.]

**JOHN GILL,**  
MANUFACTURER OF  
**PIANO-FORTE HARDWARE,**  
AND IMPORTER OF  
**Patent Steel Music Wire,**  
**French Screws and Tuning Pins, &c.,**  
101 East Twenty-Sixth Street,  
NEAR THIRD AVENUE,  
**NEW YORK.**

**JOHN GILL'S**  
**IMPROVED CRIBBAGE BOARD**  
Or Counting Table,  
Is pronounced by old Cribbage Players a most valuable acquisition in the facility of taking or pegging the game.  
PATENTED Dec. 22, 1863.  
It also may be used in the Counting of other Games, and its advantages supersede the use of the ordinary round or any loose counters altogether.  
MANUFACTURED AT  
No. 99 and 101 East 26th Street,  
**NEW YORK.**

## THE GREAT AMERICAN TEA COMPANY,

*At No. 51 Vesey Street, New York,*

Have created a new era in the history of WHOLESALE TEAS in this country.

They have introduced their selections of TEAS, and sold them at not over TWO CENTS (0.2 CENTS) per pound *above cost*, NEVER DEVIATING from the ONE PRICE asked.

This enables all Tea buyers—no matter if they are thousands of miles from this market—to purchase on as good terms here as Merchants do in New York.

Parties can order TEAS and will be served by us as well as though they came themselves, being sure to get *original packages, true weights and tares*, and the Teas are warranted as represented. We issue a Monthly Price List of the Company's Teas, which will be sent to all who order it, comprising

**Hyson, Young Hyson, Imperial, Gunpowder, Twankay and Skin; Oolong, Souchong, Orange and Hyson Pekoe; Japan Tea of every description, colored and uncolored.**

This list has each kind of Tea divided into FOUR CLASSES, namely: CARGO, high CARGO, FINE, FINEST, that every one may understand from description and the PRICES annexed that the Company are determined to undersell the whole Tea trade. We guarantee to sell all our Teas at not over TWO CENTS (.02 cts.) per pound above cost, believing this to be attractive to the many who have heretofore been paying enormous profits.

Great American Tea Company, Importers and Jobbers,

No. 51 Vesey Street, New York.

**A. E. LYMAN,**  
MANUFACTURER OF  
**GARDEN, HOE & FLORAL RAKES.**

With from 4 to 16 teeth. Ladies' and Children's GARDEN SETS of acknowledged superiority and style, made from improved patterns, and in the best manner. Also Steel and Iron CAKE TURNERS, of various kinds. Lyman's Patent "No Plus Ultra" Illuminating and Adjustable CANDLE STICK, a new article for Shops, Tents and Army use. Also, Lyman's Patent Air-Tight Indestructible BURIAL CASE, with Ventilating Apparatus. This is the best Burial Case known for all burial purposes. It is patented extensively in the Army and other places where it is desirable to convey a corpse any distance free from offensive smell. Patented in 1862, by A. E. LYMAN, Williamsburgh, Mass.

**CHICOPEE FALLS MASS.**

Our stock embraces Self-Sharpening and Lever Feed  
 Cutters; Premium, Eagle and Right-Hand Corn Shellers;  
 Side Hill, Stubble, Stony Land, Green Sward and Sub-  
 Soil Plows; Cultivators, Vegetable Root Cutters, Road  
 Scrapers, &c.

We have manufactured the SELF-SHARPENING FEED CUTTER for more than ten years, and yet the present de-  
 mand for them is greater than at any previous time. It is the simplest, most durable and efficient HAY, STRAW or  
 CORN STALK CUTTER in use.

Our PLOWS are of various sizes and patterns, and are adapted to all soils and grades of ploughing. We use the best  
 of materials and employ experienced workmen. We aim to give our plow as high a standing as the best in the market.

We make an improved style of the old and well known "Clinton Corn Sheller." We invite particular attention to our  
 RIGHT-HAND SHELLER. It receives high praise from all who have used it.

Descriptive price lists sent on application.

THESE GOODS ARE ON HAND IN CONSIDERABLE QUANTITIES

**SKINNER'S PULMONALES,**

For the immediate relief of Coughs, Colds, Hoarseness, Loss of Voice, bad and offensive breath, and for all the symptoms of the first stages of Pulmonary Consumption. They contain no Opium, nor deleterious properties so often found in popular expectorants.

**SKINNER'S PULMONALES**

Are warranted to relieve irritation in the throat from exposure to damp air or "East winds," and will most assuredly cure nine-tenths of all diseases of the throat and lungs, provided they are used in the first stages of the disease; or previous to the use of Drugs.

**SKINNER'S PULMONALES**

Have been carefully compounded of several healing and soothing ingredients peculiarly adapted to the treatment of inflamed mucous membrane, and have stood the test of able Pharmacologists and Chemists.

Clergymen use Pulmonales for their voice. Public Speakers use Pulmonales for Hoarseness. Soldiers in the field use Pulmonales for Throat diseases. Officers, one and all, use Pulmonales to prevent Sore Throat. Convalescents use Pulmonales, and so get well.

These "Pulmonales" are suitable for all climates. The dose can be graduated so as to be suitable for any one from the infant in the cradle to the individual of three score years and ten. Sold by all Druggists. Prepared by

**EDWARD M. SKINNER,**  
Chemist, &c., No. 27 Tremont Street, Boston, Mass.

**DOMESTIC DYES—FAST COLORS.**

Prepared for Family Use, and embracing all the new and fashionable colors. 40 brilliant shades.

**LIST OF COLORS.**

Ashes of Roses, Black, Dark Brown, Medium Brown, Light Brown, Cinnamon Brown, Dark Blue, Light Blue, French Blue, Cherry, Corn, Crimson, Light Drab, Dark Drab, Fawn, Light Green, Dark Green, Lemon, Magenta, Mauve, Nankin or Buff, Orange, Purple, Royal Purple, Salmon, Scarlet, Light Slate, Dark Slate, Light Stone, Dark Stone, Solferino, Violet, Light Wine, Dark Wine, Yellow—and the new Leather Color, Light, Medium and Dark.

Samples of every color, on silk and wool, can be seen at the Druggists. Put up in neat packages, with full directions, at 15 and 25 cents each. Manufactured by

**GEO. H. REED & Co.,**  
63 Union Street, Boston, Mass.

**THE BOSTON MEDICAL & SURGICAL JOURNAL**

For more than Twenty-five years the only Weekly Medical Journal of the United States.

This well known and long established Periodical enters upon its Seventieth Volume in February, 1864. It will be issued weekly, as heretofore, from the office of publication, 334 WASHINGTON STREET, BOSTON.

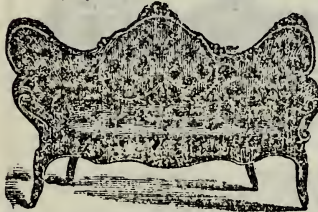

Its editorial management is entrusted to two of the Medical Faculty of Boston, members of the State and City Medical Societies, and well qualified for their place by scientific and literary attainments. Aid is also freely given by many of the leading Physicians of Boston, and contributions are received from eminent members of the profession in other parts of the country. All the Medical and Surgical Reports made to the Boston Society for Medical Improvement are inserted in the "Journal," and also the more interesting cases and reports from other Medical Associations in Boston and its vicinity. Valuable communications are also, from time to time, received from Surgeons in the Army and Navy. Two volumes a year, commencing in February and August—each comprising over 500 octavo pages.

The price is THREE DOLLARS a year, payable in advance. Previous numbers of the current volume furnished, and back volumes also supplied, at a liberal discount.

**CHOLERA, DYSENTERY, AND DIARRHŒA SYRUP,**

FOR THE CERTAIN AND PERMANENT CURE OF

Dysentery, Diarrhœa, Cholera Morbus, Cholera, Cholera Infantum, & Summer Complaints.

A constant use of this medicine by the late Dr. J. W. Chapman, during a practice of twenty years in Boston and vicinity, has thoroughly tested its virtues as a remedial agent.

In a letter from Daniel Webster to his son, Fletcher, ("Private Correspondence," vol. ii, p. 537,) dated Franklin, N. H., July 14, 1852, he writes:—

"Remember Chapman's Syrup. We have many good things here, but not all good things."

**PREPARED BY DR. C. W. C. GRANT,** (SUCCESSOR TO DR. J. W. CHAPMAN,)

**AT 160 HANOVER STREET, BOSTON.**

Sold by all wholesale and retail dealers in medicines.

**CAUTION.**—Be sure that the name of Dr. C. W. C. Grant is on the label. And every bottle of the genuine must have the original seal of Dr. J. W. Chapman on the cork.

**DR. PHELPS'S**  
**TRUSSES, SUPPORTERS, & SHOULDER-BRACES,**

FOR SALE BY W. H. PHELPS,

Who keeps constantly on hand at his establishment,

# LIQUID BLACKING.

The proprietors of this justly celebrated Blacking have been manufacturing it for the last FIFTEEN YEARS, during which time it has been SUBJECTED TO EVERY POSSIBLE TEST as to its merits, having been used in a great number of FAMILIES, and in the FIRST CLASS HOTELS in the country, where it has given the most unqualified satisfaction. It gives a beautiful jet black polish, with very little labor, retaining its lustre in a remarkable degree, at the same time softening and nourishing the leather.

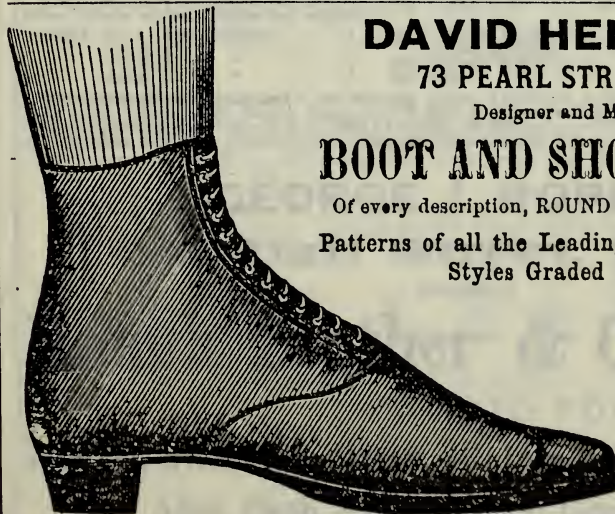

They also manufacture the celebrated

**PACKER'S IMPROVED PATENT RATCHET.**

Manufactured by the Eagle Ratchet Company,  
**H. H. PACKER, Agent, 69 Haverhill Street, BOSTON.**

The above-named Ratchets have been before the public for the last five years, and have given perfect satisfaction in every respect. They have been adopted by the UNITED STATES NAVY and Navy Yard, all the principal RAILROADS in the United States and Canadas, all the principal Machine shops in the New England States, New York, Philadelphia, and all the Southern and Western States; also, on the principal STEAMBOATS and SUGAR PLANTATIONS in the United States and Cuba. All that have used them speak of their superiority in strength, accuracy, and durability over any other Ratchet.

The drill socket (4), and the screw barrel (3), being combined, as shown, make it of superior strength. The admirable arrangement of the outside shell (1), with the screw barrel (3), and the internal screw, effectually protect the male screw (2), from dust and other foreign

matter. Every Ratchet is manufactured under H. H. Packer's supervision, in the best manner, with steel screw pall and gear, and warranted perfect. We also manufacture and keep on hand Augur Ratchets, made so they can be used as a Ratchet, Wrench, or Drill, which is liked very much, as the three tools are combined in one; Boiler Ratchets, that can be used in from 2 to 6 inch space. And we are prepared to manufacture Ratchet Wrenches of all kinds.

Every description of Ratchet work made to order. One drill will fit all sizes. Cast Steel drills of all sizes made to order. Please call and examine our samples.

SIZES.—No. 1, 10 inch handle;	No. 5, 20 inch handle;	No. 1, Augur Ratchet;
No. 2, 12 " "	BOILER RATCHETS.	No. 2, " "
No. 3, 15 " "	No. 1, 10 inch handle;	Sockets;
No. 4, 17 " "	No. 2, 12 " "	Screws.

These Ratchets can be purchased at the following places: WHITNEY & BRIDGES, 38 Water street, Boston, Mass.; MAY & CO., 1 Broad street, Boston, Mass.; SMITH BRO. & CO., 101 and 2 Federal street, Boston, Mass.; BARKER, WHEELER & CO., Providence, R. I.; VANCE & LANDIS, 211 Market street, Philadelphia, Pa.; CONROY & O'CONNOR, San Francisco, Cal; GEO DUNBAR & CO., 19 and 21 Dearborn street, Chicago, Ill.

**PORTABLE STEAM ENGINES,**

Embodying the principles, so far as applicable, of the best modern Locomotives; giving the MAXIMUM of utility for the MINIMUM of cost. The most improved Steam Engine, reduced to its lowest terms (value unchanged), by the simplification of its parts, and the omission of all cost for mere show. Extra finish, at extra price.

These Engines received the highest prize—the large Gold Medal—at the Fair of the American Institute, New York, in 1859, as the “Best Portable Steam Engines.” The PRIZE ENGINE may be seen at the Varnish and Paint Store of Messrs. Stimson, Valentine & Co., No. 36 India street, Boston. Descriptive circulars, with price and terms, sent on application. Orders filled at short notice. ADDRESS,

# WELCH & GRIFFITHS'

## PATENT GROUND

# CAST STEEL SAWS.

We would respectfully call the attention of manufacturers of Lumber, Saw Mill makers, and others interested in using saws, to the great improvements recently introduced in the manufacture of our celebrated Saws. Being sole proprietors of the new patent for grinding the saw on both surfaces at once, we would state that our circulars, from six inches to seven feet diameter, are ground and finished with the greatest accuracy and precision, and warranted true and correct. The impossibility of grinding a saw perfectly even by the old method has always been acknowledged by practical saw-makers. By our new process, the saw is ground to an even and uniform thickness throughout the plate, or can gradually increase in thickness from the edge to centre, if desired. As there are no thick or thin places in saws ground in this manner, the friction on the sides is of course equal; consequently the saw will remain stiff and true, requiring less set and less power to drive it through the wood; will also saw smooth, save lumber, and not be liable to become untrue.

FOR SALE AT THEIR WAREHOUSE,

## THE NEW BELLEVUE STEREOSCOPE.

This article, which has just been introduced to the public is one of the most beautiful things we have seen. The peculiar effect produced upon the picture by the stereoscope, by which the eye seems to see all around an object, so that the

picture is no longer a picture but a living reality, is in this instrument made doubly clear—for by an arrangement entirely new, the picture is at once brought into the right position—and the whole is so entirely portable that it can easily be carried in the pocket. It is a very ingenious and finely finished affair, and will, we feel confident, command an extensive sale. As its name signifies it does indeed give a "beautiful view." Price \$2; will be sent by mail for \$2.30.

C. H. WHEELER & CO., 5 and 7 Essex Street, Boston,

Are the Proprietors. A fine assortment of STEREOSCOPIK SLIDES, at 25 cents each. Liberal terms to the trade,

# CROSBY & NICHOLS, PUBLISHERS, Booksellers and Stationers,

Wholesale and Retail Dealers in

## Books in every Department of Literature.

The attention of all interested in education is requested to our list of SCHOOL AND COLLEGE TEXT BOOKS, which includes some of the most valuable and popular now in use. Among them are Prof. Crosby's Greek Series; Hanson's Latin Prose Book; Richard's Latin Lessons; Tower's Grammars; Hanaford and Payson's Book Keeping; Payson, Dunton and Scribner's Penmanship, by far the best and most popular system ever published, &c.

MISCELLANEOUS and JUVENILE BOOKS in great variety. Catalogues of which will be furnished when applied for.

CROSBY & NICHOLS publish **THE NORTH AMERICAN REVIEW**. Edited by Prof. JAMES RUSSELL LOWELL and CHARLES ELIOT NORTON, Esq. Quarterly at \$5 a year.

C. & N. would call the attention of the New England public to their unequalled facilities for supplying every thing required in their line.

Clergymen, Lawyers, Physicians, Teachers, School Committees, and all persons desiring any thing in our line, are particularly desired to send us their orders, and to call upon us when visiting the city. The peculiar advantages which we enjoy in the union of a large Wholesale and Retail Stock give our customers an opportunity for selection seldom offered.

## BYAM, CARLTON & CO.,

Manufacturers of

# FRICITION MATCHES.

92, 94, 96, 98, 100 and 102 FRIEND STREET, BOSTON.

The manufacture of these matches was commenced in 1835. The quality of these matches has now been tested for nearly thirty years in every climate, and has withstood the damp and humid atmosphere, where all others have failed. Housekeepers always give these matches the preference. Shippers and sea Captains express themselves after years of trial in one manner concerning their superiority over all others for exportation.

\*\*\* Water Proof, Card, Block, Wood and Paper Box Matches always on hand, and packed at short notice for shipment.

ADVERTISING DEPARTMENT.

## TWO PATENTS COMBINED IN ONE SKATE

### J. HEATH'S PATENT SLIP-JOINT, ELASTIC TOP AND PATENT HEEL SCREW SKATES,

Are the only really desirable SKATES that have ever been brought before the public, because with these Skates a person can bend the foot and retain the use of *all the joints and muscles*, keep up a *circulation of blood*, and by that means *THE FEET WARM*; and besides all this, there is no stress on the muscles, and a *skater* will feel just as much at *ease* as though he had no Skates on.

N. B.—The heel screw can be revolved without turning the Skate, by simply turning a wheel under the heel of the Skate, with the thumb and finger.

Manufactured and for sale by the Patentee,

JEREMIAH HEATH,  
No. 53 Weybosset Street,  
PROVIDENCE, R. I.

# TWO PATENTS COMBINED IN ONE SKATE

G. J. H. A. T. 1878

WANT TO BUY OR HIRE FOR YOUR

## BEATS

The inventor of the "Beats" skate has secured two patents, one for the skate itself and another for the method of using it. The skate is made of a single piece of wood, and is so constructed that it will glide on any surface, whether it be ice, snow, or a smooth floor. The method of using it is simple and easy, and it is so light and maneuverable that it can be used by anyone, even a child. The inventor claims that the "Beats" skate is the best and most perfect of its kind, and that it will revolutionize the skating world.

1878

# JEREMIAH HEATH

Gentleman's and Young Men's

## CELESTINE

The inventor of the "Celestine" has secured a patent for the same. The "Celestine" is a new and improved method of producing artificial ice. It is made of a mixture of water and a certain amount of salt, and is so prepared that it will freeze at a much lower temperature than ordinary water. This makes it possible to produce artificial ice in a much shorter time, and at a much lower cost than before. The "Celestine" is so pure and clear that it is perfectly fit for drinking, and it is so light and easy to handle that it can be used in any place. The inventor claims that the "Celestine" is the best and most perfect of its kind, and that it will revolutionize the ice-making industry.

E. HOWARD & CO., Agents.

# DAVIS'S PATENT HOT-AIR RADIATOR

FOR WARMING AND VENTILATING ROOMS.

ITS SUPERIOR ADVANTAGES.

1. By the use of this Radiator, a whole house, Kitchen, Parlor, Dining Room, and Chambers, may be warmed by the heat of one fire. The waste heat, by escaping through the chimney, is made to pass into the room through the Radiator, leaving warmth as it goes off again into the flue. The Radiator thus saves and uses the WASTE HEAT from Stoves, Ranges, Furnaces, or other fire.
2. It costs less, and secures greater economy of fuel and labor than by any other mode of heating.
3. It secures an agreeable and healthful atmosphere, free from the injurious and unwholesome annoyances of dust and ashes which are inseparable from the use of Stoves and Furnaces.
4. It has great advantages over other modes of heating, in its perfect and simple arrangement for admitting and controlling the introduction of Fresh Air, and securing free and healthful ventilation.

**FOR ECONOMY, HEALTH, COMFORT AND CONVENIENCE,  
IT CHALLENGES COMPARISON.**

# HUMPHREY'S

## Specific Homeopathic Remedies,

No. 562 BROADWAY, NEW YORK.

Have proved, from ample experience, an ENTIRE success, and expressly adapted to the wants of the people. They are so SIMPLE that mistakes cannot be made in using them; so harmless that all may take them with impunity; and yet so efficient that all may rely on them with certainty. To a family, a case of these medicines becomes the physician, medical adviser, and druggist; saving time, money, health, suffering, and even life itself. To the invalid it becomes a source of relief and restoration, often far more economical, safe and efficient than the usual modes of medical treatment.

These Specifics combine all the advantages of the best Homeopathic treatment, without it's intricacy or uncertainty. They are prepared by a physician of over twenty years' Homeopathic experience; they have been tried in every conceivable manner, and endorsed and recommended in the highest terms by the hundreds of thousands who daily use them.

A CASE OF HUMPHREYS' SPECIFICS IN YOUR HOUSE will save calling a doctor; save being drugged; save sickness, pain, suffering, loss of time, and taking physic.

WITH A CASE IN YOUR HOUSE you may prevent sickness, suffering, and expense, the children having the Measles, Scarlet Fever, Whooping-cough, or even Fever, by using the preventatives.

YOU MAY CURE YOUR CHILDREN of Croup, Colic, Toothache, Headache, Sleeplessness, Suffering from Teething, Worms, Indigestion, Wetting the Bed, Catarrh, Measles, Whooping-cough, Scarlet Fever, Diphtheria, a Bad Cold, Hoarseness, Running of the Ears and Deafness, or even Scrofula, as thousands have done and do daily.

YOU MAY CURE YOURSELF of Headache, Weak Stomach, Indigestion, Biliousness, Catarrh, a Bad Cold, Sore Throat, Hoarseness, Liver Complaint, Piles, Constipation, Rheumatism, Sore or Weak Eyes, Salt Rheum, Kidney Disease, General Debility, or even Asthma, with these Specifics.

THOUSANDS OF INVALIDS have been perfectly cured of long-standing ailments, the plague and bane of their lives, and on which they have spent hundreds in vain, by simply using these invaluable specifics. Not a family who have ever had one of these Family Cases of HUMPHREYS' SPECIFICS, but would give five times its cost, rather than be without it.

### HUMPHREYS' LIST OF SPECIFIC REMEDIES.

- |  |   |
|--|---|
| No. 1. Cures Fever, Congestion, Inflammation, Heat, Pain and Restlessness. Price of single box 25 cents.               | No. 18. Cures Ophthalmia, Weak or Inflamed Eyes or Eyelids; Falling or weak Sight. 50 cents.  |
| No. 2. Cures Worm Fever, Worm Colic, Voracious Appetite, Wetting the Bed. 25 cents.                                    | No. 19. Cures Catarrh, Acute or Chronic, Dry or Flowing. Cold in the Head, Influenza. 50 cents.   |
| No. 3. Cures Colic, Teething, Crying and Wakefulness, Slow Growth and Feebleness of Infants. 25 cents.                 | No. 20. Cures Whooping Cough, shortgning and palliating it, or Spasmodic Cough. 50 cents.   |
| No. 4. Cures Diarrhoea of Children or Adults, Cholera Infantum and Summer Complaint. 25 cents.                         | No. 21. Cures Asthma, Oppressed, Difficult, Labored Breathing, Cough and Expectoration. 50 cents.   |

## BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established, that they are no longer matters of experiment, and its advantages are beyond dispute.

*The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father.* Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from reproach if his life is not insured." The man who neglects to insure his house is condemned for imprudence. How much more imprudent is he who refuses to insure his life? Every house may not be burned, but every man must die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day, commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object. And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans are protected from the husband's creditors.

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

*There are many other advantageous uses of Life Insurance,* besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject, by reason of the death of another.

*The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community.* It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A systematic adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropic public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

## SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

*An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank.* An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Bank, it takes care of the depositor's money, and it virtually allows him interest upon his deposits: but it does more. What is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, binds himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say that in a majority of cases the money saved to deposit in a Life Institution, *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes a means of support when everything else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain;* and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat them-

4. Description of the property or interest: [Faint text]

selves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to learn lessons of mortality. 'Tis the burthen of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of \$2,000, and for that purpose deposits annually \$50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays \$50 as an annual premium for a policy of Life Insurance, he will be sure of leaving \$2,000 to his family *whenever* he dies, in six months or twenty years! Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony **JUST AT THE TIME IT IS MOST NEEDED.**

The question is no longer, **SHALL I GET MY LIFE INSURED?** but rather, **WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?**

In answering this question it will be necessary to explain briefly the

### **DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.**

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock, Mixed, or Mutual* Companies.

*Joint Stock* Companies issue at fixed rates, the *profits* being **WHOLLY** divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

*Mixed* Companies are also *Joint Stock* Companies with *proprietary* bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

*Mutual* Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate *share* in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in *principle*, and experience has fully tested and placed beyond a doubt the *perfect security* of the system. No *Mutual* Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In *Mutual* Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A *Mutual* Company divides the *whole* surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the *Mixed* companies. This plan of operation insures the applicant at the *lowest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the *Stock* companies, and only partially so with the *Mixed* companies, the *proprietary* body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a *Mutual* company. He says: "Purely *Mutual* Life Insurance Companies have been proved by experience to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

### **SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.**

It is a purely *Mutual* Company, and has made three distributions of surplus funds (1848, 1853, and 1858,) in *cash*, amounting to over \$600,000. It now has an invested fund of \$2,550,000, to pay losses, and a surplus of \$1,250,000; so that it could reinsure for \$1,250,000, and divide \$1,250,000.

The New England *Mutual* Life Insurance Company do not pay their dividends in scrip, but always in *CASH*. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against, and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus, payable only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited*. The cash distribution in 1858 amounted to \$335,000.

Its *standing* and *economy* are unequalled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and the economy of the eighteen Life Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company **FIRST** in *standing*, i. e. in its ratio of value to liability, and **FIRST** in *economy*. This Company's expenses are only 8 per cent. of the receipts, while those of the others *average* more than 11 per cent. ! This is the *oldest* *Mutual* Company in the country, and, for that reason, must be the safest and most economical.

Its directors are well known to community as men of integrity, sagacity, and experience in business; and *every year* the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business

*[The page contains extremely faint, illegible text, likely bleed-through from the reverse side of the document. The text is arranged in several paragraphs and appears to be a formal document or report.]*

is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

The New England Mutual Life Insurance Company has deposited with the Comptroller of the State of New York, \$100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late RUFUS CHOATE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

### TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum, on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, or any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums *in cash*, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

Insurance may be effected for one year, a term of years, or for life.

Annexed are the tables of premiums for insurance of \$1,000 for one year, for seven years, and for life; also the amount in ten annual premiums, and in one payment.

### SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance, ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, *the Company consents to a surrender of the policy upon fair terms*, if application is made for that purpose before it is forfeited.

*All over and above the actual cost* will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!

TABLE OF PREMIUMS FOR INSURANCE OF \$1,000.

AGE.	Annual Paym't for Life.	In Ten Ann'l Paym'ts.	In a Single Paym't.	AGE.	Annual Paym't for Life.	In Ten Ann'l Paym'ts.	In a Single Paym't.

# OSTON BELTING COMPANY,

Manufacturers of

## Machine Belting, Steam Packing & Engine Hose.

Machine Belting is superior to Leather and less expensive. Being unaffected by moisture or the atmosphere, it is preferred to any other manufacture for Saw Mills, Flouring Mills, Elevators, Gin Bands, Agricultural Machines and other Mechanical purposes.

### INDIA RUBBER HOSE,

of various sizes and of superior quality, suitable for conducting and hydrant purposes, and for leading and suction hose for fire engines.

### STEAM PACKING,

is prepared to stand a high degree of heat, is used in preference to any other article, by the most skillful Engineers and Mechanics, for Manhole Plates, Piston Rods, Steam Joints, Steam Chests, Cylinder Heads and Stuffing Boxes, and for all other machinery where packing is necessary. Also,

### A SUBSTITUTE FOR LEAD PIPE,

Patented by CHAS. McBURNEY, December, 1 858.

A new and valuable article, viz: a semi-elastic Pipe or Hose, which can be used instead of Lead Pipe, with pumps of any size, and for conducting water with perfect safety. This Pipe is the result of many experiments and of years of trial under various uses, and it is now with confidence offered to the public for the Suction, Forcing, or Conducting of water in every other place where pipe is required. It possesses the following properties:— It imparts no deleterious substance to the water under any circumstances, nor in any way affects it unpleasantly after a long use. It is sufficiently elastic to be easily bent into curves, etc. It is not affected by either heat or cold. It will not burst if water is frozen in it. It is not injured by exposure to the atmosphere or sun. Its durability must be great. Samples have been shown which have been in constant use exposed to the atmosphere for five years, and also some that have been used in a common house-pump and buried in the earth for three years, none of which show any sign of decay. In short, this Pipe is composed of ingredients which are indestructible except by fire. The price at which the article is offered, must, together with its invaluable properties, commend it to all who are in want of pipe for conducting water. It can be made of any size, from half-inch to three inches or more. Couplings and suitable fittings are prepared and can be furnished with it, made of compound metal which will not corrode.

TAPPAN, McBURNEY & CO., Agents,

Corner Summer & Chauncey Sts., Boston Mass.

## SUMNER PRATT,

Cotton and Wollen

MANUFACTURERS' AGENCY,

ALL KINDS OF

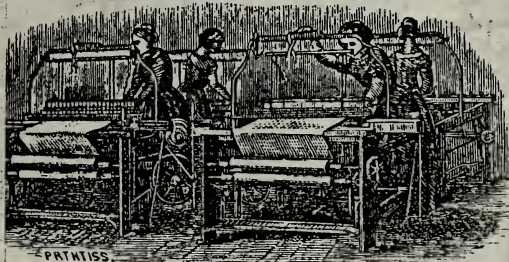

MACHINERY

AND
